Television audiences and its industry alike have been confused by the emergence of new ways to watch television. On one hand, the

Download Free Direct Tv Jones Certification Test Study Guide

programs seem every bit like the television we've long known, while the way we can watch, what we can watch, and the business models supporting them differ significantly. Portals: A Treatise on Internet-Distributed Television pushes

Download Free Direct Tv Jones Certification Test Study Guide

understandings of the business of television to keep pace with the considerable technological change of the last decade. It explains why shows such as Orange is the New Black or Transparent are indeed television despite coming to

Download Free Direct Tv Jones Certification Test Study Guide

screens over internet connection and in exchange for a monthly fee. It explores how internet-distributed television is able to do new things - particularly, allow different people to watch different shows chosen from a library of possibilities. This

technological ability allows new audience behaviors and new norms in making television. Portals are the "channels" of internet-distributed television, and Portals identifies how the task of curating a library of shows differs from channels' task of

building a schedule. It explores the business model--subscriber funding--that supports many portals, and identifies the key differences from advertiser or direct purchase. Portals considers what we know about the future of
