This work is an invitation and guide for young people to bring the realm of Heaven to earth. As children discover their identity through the revelation of the Father's love, they are released to fulfill their Royal Mission: to demonstrate the Kingdom of God by living a life of miracles. Each chapter explains and identifies the inheritance that God's sons and daughters possess, such as the Father's love, the anointing and indwelling of the Holy Spirit, faith, prayer, and the keys of power and authority. This book is not only a companion for the

"journey", but also provides a meeting place for children to encounter God's presence that will transform their hearts and lives.

In the Preface to his ground-breaking *The Great War and Modern Memory* (1975), Paul Fussell claimed that "the dynamics and iconography of the Great War have proved crucial political, rhetorical, and artistic determinants on subsequent life." Forty years after the publication of Fussell's study, the contributors to this volume reconsider whether the

myth generated by World War I is still “part of the fiber of [people’s] lives” in English-speaking countries. What is the place of the First World War in cultural memory today? How have the literary means for remembering the war changed since the war? Can anything new be learned from the effort to re-imagine the First World War after other bloody conflicts of the 20th century? A variety of answers to these questions are provided in *Re-Imagining the First World War: New Perspectives in Anglophone Literature and Culture*, which explores the Great War in British, Irish, Canadian, Australian, and (post)colonial contexts. The contributors to this collection write about the war from a literary perspective, reinterpreting poetry, fiction, letters, and essays created during or shortly

after the war, exploring contemporary discourses of commemoration, and presenting in-depth studies of complex conceptual issues, such as gender and citizenship. *Re-Imagining the First World War* also includes historical, philosophical and sociological investigations of the first industrialised conflict of the 20th century, which focus on responses to the Great War in political discourse, life writing, music, and film: from the experience of missionaries isolated during the war in the Arctic and Asia, through colonial encounters, exploring the role of Irish, Chinese and Canadian First Nations soldiers during the war, to the representation of war in the world-famous series *Downton Abbey* and the 2013 album released by contemporary Scottish rock singer Fish. The variety of themes covered by the

essays here not only confirms the significance of the First World War in memory today, but also illustrates the necessity of developing new approaches to the first global conflict, and of commemorating “new” victims and agents of war. If modes of remembrance have changed with the postmodern ethical shift in historiography and cultural studies, which encourages the exploration of “other” subjectivities in war, so-far concealed affinities and reverberations are still being discovered, on the macro- and micro-historical levels, the Western and other fronts, the battlefield, and the home front. Although it has been a hundred years since the outbreak of hostilities, there is a need for increased sensitivity to the tension between commemoration and contestation, and to re-

member, re-conceptualise and re-imagine the Great War.

Once known for peacekeeping, Canada is becoming a militarized nation whose

apostles—the New Warriors—are fighting to shift public opinion. New Warrior zealots seek to transform postwar Canada's central myth-symbols. Peaceable kingdom. Just society. Multicultural tolerance. Reasoned public debate. Their replacements? A warrior nation. Authoritarian leadership. Permanent political polarization. The tales cast a vivid light on a story that is crucial to Canada's future; yet they are also compelling history. Swashbuckling marauder William Stairs, the Royal Military College graduate who helped make

the Congo safe for European pillage. Vimy Ridge veteran and Second World War general Tommy Burns, leader of the UN's first big peacekeeping operation, a soldier who would come to call imperialism 'the monster of the age.' Governor General John Buchan, a concentration camp developer and race theorist who is exalted in the Harper government's new Citizenship Guide. And that uniquely Canadian paradox, Lester Pearson. Warrior Nation is an essential read for those concerned by the relentless effort to conscript Canadian history.

Immigration, Racial and Ethnic Studies in 150 Years of Canada: Retrospects and Prospects provides a wide-ranging overview of immigration and contested racial and ethnic relations in Canada since confederation with a core theme being one of enduring racial and ethnic conflict.

This book explores the contested notion of compassionate migration in its discourse and practice. In the context of today's migration

patterns within the Americas, compassionate migration can play a fundamental role in responding to the hardships that many migrants suffer before, during, and after their journeys. This volume explores the boundaries of compassion from legal, political, philosophical, and interdisciplinary perspectives, and supplies examples where state and non-state actors engage in practices of compassion and humanity through formal and informal regimes. Despite the lack of a concise and precise definition of the concept and practice of compassionate migration, all authors in this

volume agree on the pressing need for more humane and compassionate treatment for those leaving their home country behind in search of a better life.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students. Following Queen Elizabeth II's historic Diamond Jubilee in 2012, there is renewed interest in the institution of the Crown in Canada and the roles of the queen, governor general, and lieutenant governor. Author D. Michael Jackson traces the story of the monarchy and the Crown and shows how they are integral to Canada's

parliamentary democracy.

Stephen Harper's Conservative government has reversed the trend of its predecessors by giving the Crown a higher profile through royal tours, publications, and symbolic initiatives. Based on papers given at a Diamond Jubilee conference on the Crown held in Regina in 2012, Canada and the Crown assesses the historical and contemporary importance of constitutional monarchy in Canada.

Established and emerging scholars consider the Canadian Crown from a variety of viewpoints, including the ways in which the monarch relates to Quebec, First Nations, the media, education, Parliament, the constitution, and the

military. They also consider a republican option for Canada. Editors D. Michael Jackson and Philippe Lagassé provide context for the essays, summarize and expand on the issues discussed by the contributors, and offer a perspective on further study of the Crown in Canada. Contributors include Richard Berthelsen, Lieutenant-Colonel Alexander Bolt (Office of the Judge Advocate General), James W.J. Bowden, Stephanie Danyluk (Whitecap-Dakota First Nation), Linda Cardinal (University of Ottawa), Phillip Crawley (CEO, The Globe and Mail), John Fraser (Massey College), Carolyn Harris (University of Toronto), Robert E. Hawkins (University of

Regina), Ian Holloway (University of Calgary), Senator Serge Joyal, Nicholas A. MacDonald, Christopher McCreery (Office of Lieutenant Governor of Nova Scotia), J.R. (Jim) Miller (University of Saskatchewan), Peter H. Russell (University of Toronto), David E. Smith (Ryerson University), and John D. Whyte (University of Regina).

Trans/acting Culture, Writing, and Memory is a collection of essays written in honour of Barbara Godard, one of the most original and wide-ranging literary critics, theorists, teachers, translators, and public intellectuals Canada has ever produced. The contributors, both established and

emerging scholars, extend Godard's work through engagements with her published texts in the spirit of creative interchange and intergenerational relay of ideas. Their essays resonate with Godard's innovative scholarship situated at the intersection of such fields as literary studies, cultural studies, translation studies, feminist theory, arts criticism, social activism, institutional analysis, and public memory. In pursuit of unexpected linkages and connections, the essays venture beyond generic and disciplinary borders, zeroing in on Godard's transdisciplinary practice that has been extremely influential in the way that it framed questions

and modeled interventions for the study of Canadian, Québécois, and Acadian literatures and cultures. The authors work with the archives ranging from Canadian government policies and documents, to publications concerning white supremacist organizations in Southern Ontario, online materials from a Toronto-based transgender arts festival, a photographic mural installation commemorating the Montreal Massacre, and the works of such writers and artists as Marie Clements, Nicole Brossard, France Daigle, Nancy Huston, Yvette Nolan, Gail Scott, Denise Desautels, Louise Warren, Rebecca Belmore, Vera Frenkel, Robert Lepage, and Janet Cardiff.

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion

that plants and animals are our oldest teachers. In Braiding Sweetgrass, Kimmerer brings these two lenses of knowledge together to take us on “a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to

the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

A Kid's Guide to God's Supernatural Power Global Migration provides a clear, concise, and well-organized discussion of historical patterns and contemporary trends of migration, while guiding the readers through an often difficult and politicised topic. Aimed primarily at undergraduate and Master's students, the text encourages the readers to reflect on economic processes, politics, immigrant lives and raises debates about inclusion, exclusion, and citizenship. The text critically highlights the global character of contemporary migration and the importance of historical context to current processes and emphasises the role of gender, race and national ideologies in shaping migration experiences. Using

over a decade of their own insight into teaching undergraduate migration courses in the US and the UK, and the knowledge and understanding of the subject they have acquired as migration researchers, the authors offer an accessible and student-friendly manner for readers to understand and explore the complex issue of migration. The book features numerous international case studies, a chapter dedicated to the perspective of the immigrants themselves, as well as key terms and further readings at the end of each chapter. Both theoretically and empirically informed Global Migration examines the subject in a holistic and expansive way. It will equip students with an understanding of the complex issues

of migration and serve as a guide for instructors in structuring their courses and in identifying important bodies of scholarly research on migration issues. The first decades of the new millennium have been marked by major political changes. Although The West has wished to revisit internal and international politics concerning migration policies, refugee status, integration, secularism, and the dismantling of communitarianism, events like the Syrian refugee crisis, the terrorist attacks in France in 2015-2016, and the economic crisis of 2008 have resurrected concepts such as national identity, integration, citizenship and re-shaping state policies in many developed countries. In France and Canada, more

recent public elections have brought complex democratic political figures like Emmanuel Macron and Justin Trudeau to the public eye. Both leaders were elected based on their promising political agendas that aimed at bringing their countries into the new millennium; Trudeau promotes multiculturalism, while Macron touts the diverse nation and the inclusion of diverse ethnic communities to the national model. This edited collection aims to establish a dialogue between these two countries and across disciplines in search of such discursive illustrations and opposing discourses. Analyzing the cultural and political tensions between minority groups and the state in light of political

events that question ideas of citizenship and belonging to a multicultural nation, the chapters in this volume serve as a testimonial to the multiple views on the political and public perception of multicultural practices and their national and international applicability to our current geopolitical context.

What happens to the nation when it is reconceived as a brand? How does nation branding change the terms of politics and culture in a globalized world? Branding the Nation offers a unique critical perspective on the power of brands to affect how we think about space, value and identity. This book examines constructions of 'national'

citizenship in the context of perceived internal division, including devolution, multiculturalism, ethno-religious conflict, post-conflict and refugees, drawing on a wide range of countries such as Belgium, Denmark, France, Germany, the UK, Ukraine, Canada and Palestinians in Lebanon.

applicable to all educational situations. This study focuses on three main questions: What does citizenship mean for immigrants? Why do some immigrants decide to acquire host countries' citizenship while others do not? Do citizenship and migration policies of countries (such as Canada and Germany) are related to the decision-making process of immigrants? More specifically, the objective of the study is to investigate high-skilled and business Turkish immigrants (HSBTI) who moved to Germany and Canada between 2000

and 2010. It is expected that immigrants' naturalization decisions and conceptualization of citizenship are related to countries' migration and citizenship policy approaches (such as restricted or multiculturalist). With respect to high-skilled and business Turkish immigrants, this study put forwards the view that host country citizenship and migration policy (whether it is restricted or multicultural); economic, social and political benefits and costs of host country's citizenship;

Canadian educators should be concerned with how learning, militarism, and gender intersect. Readers may be surprised to discover how this reaches beyond the classroom into the everyday lessons, attitudes, and habits that all Canadians are taught, often without question. Pushing the boundaries of education theory, research, and practice, this book will be of particular interest to feminist, adult, and teacher educators and to scholars and students of education, the military, and women's and gender studies.

Whether it's your daily dealings at work or a pervasive concern for your physical safety, the stress you regularly experience may actually be more harmful than the threat that triggered it. Not only can it lead to isolation and an erosion of happiness, stress can be biologically harmful, bringing about health issues, such as heart disease, high blood pressure, ulcers, and strokes. In short, successfully managing stress could be nothing less than a life-or-death

situation. Now, professional biofeedback practitioner Harry L. Campbell presents "What Stress Can Do," his unprecedented guide to the importance of minimizing everyday stress in order to short-circuit its many serious side effects. What's more, his easy-to-implement recommendations enable you to do so without use of any drugs. Recent data on the prevalence of stress documents that as much as 90 percent of all doctors' office visits are related to stress. However, with the right skills and perspective, you can preempt the physical fallout from the tolls of daily life, and gain new mastery over your mind. The time is right to take a step back, breathe easy, and once and for all address all that ails you.

Literature, literacy, and citizenship took on new and contested meanings in early twentieth-century Canada, particularly in frontier work camps. In this critical history of the reading camp movement, Jody Mason undertakes the first sustained analysis of the organization that became Frontier College in 1919. Employing an interdisciplinary approach, *Home Feelings* investigates how the reading camp movement used fiction, poetry, songs, newspapers, magazines, school readers, and English-as-a-second-language and citizenship manuals to encourage ideas of selfhood that were individual and intimate rather than collective. Mason shows that British-Canadian settlers' desire to define themselves in relation to an expanding

non-British immigrant population, as well as a need for immigrant labour, put new pressure on the concept of citizenship in the first decades of the twentieth century. Through the Frontier College, one of the nation's earliest citizenship education programs emerged, drawing on literature's potential to nourish "home feelings" as a means of engaging socialist and communist print cultures and the non-British immigrant communities with which these were associated. Shifting the focus away from urban centres and postwar state narratives of citizenship, Home Feelings tracks the importance of reading projects and conceptions of literacy to the emergence of liberal citizenship in Canada prior to the Second World War.

Winner of the SAGE/ILTA Book Award 2016 The Routledge Handbook of Language Testing will provide a comprehensive account of the area of language assessment and testing. Written by leading specialists from around the world, this volume brings together approximately 35 authoritative articles (around 8000 words each). The proposed outline for the Handbook (below) is divided into ten sections. The section titles reflect the contents of their Language Testing and Assessment –textbook in our RAL series and sketch a useful overview of the discipline. Each chapter has been carefully selected to relate to key issues raised in the respective topic, providing additional historical

background, critical discussion, reviews of key research methods, and an assessment of what the future might hold.

Multiculturalism is now seen by many of its critics as the source of intercultural and social tensions, fostering communal segregation and social conflicts. While the cultural diversity of contemporary societies has to be acknowledged as an empirical and demographic fact, whether multiculturalism as a policy offers an optimal conduit for intercultural understanding and social harmony has become increasingly a matter of polarised public debate. This book examines the contested philosophical foundations of multiculturalism and its, often controversial,

applications in the context of migrant societies. It also explores the current theoretical debates about the extent to which multiculturalism, and related conceptual constructs, can account for the various ethical challenges and policy dilemmas surrounding the management of cultural diversity in our contemporary societies. The authors consider common conceptual and empirical features from a transnational perspective through analysis of the case studies of Australia, Canada, Columbia, Germany, New Zealand, the United Kingdom and Uruguay. This book will be of interest to students and scholars of political science, comparative politics, international studies, multiculturalism, migration and

political sociology.

With the electoral success of the Harper Conservatives federally and of a number of conservative parties provincially, the topic of Canadian conservatism is more important to our understanding of Canadian party politics than ever before. This timely volume

presents the first comprehensive examination of Canadian conservatism in a generation — a period during which its nature has changed substantially. *Conservatism in Canada* explores the ideological character of contemporary Canadian conservatism, its support in the electorate, its impact on public policies such as immigration and foreign policy, and its articulation at both federal and provincial levels. The essays include comparisons with other countries, including the United States, the United Kingdom, and Australia, as well as specific examinations of conservatism in Ontario, Alberta, and Quebec. Featuring contributions by both established and new scholars in the fields of political science and public policy, this volume makes a significant contribution to our understanding of the changing nature of Canadian conservatism and its broader implications for the future of this country.

Restorative justice (RJ) is an idea whose time may have finally arrived. Although the concept has ancient roots and the term has existed in Western societies since the 1970s, only recently has it gained general public recognition. In schools, RJ's popularity is rising world-wide. In fact, education is the fastest growing area for the practice of RJ. Despite an increasing number of schools embracing the approach, it is not clear what educational RJ practitioners are trying to achieve. *Adult Intentions, Student Perceptions: How Restorative Justice is Used in Schools to Control and to Engage* focuses on the use of RJ in one school in Scotland and one in Canada. While important to understand the intentions of educators in using RJ in schools, those aims must be examined alongside the actual impact that such practices have on students. RJ can be understood and experienced in dramatically different ways

by those implementing it. For some, RJ is about creating an environment of and for student engagement that challenges traditional systems of discipline and facilitates learning. For others, RJ is simply another tool for solidifying compliance and meting out punishment, albeit in a kinder, gentler way. *Adult Intentions, Student Perceptions* provides the opportunity to delve deeply into the stories of two schools and the adults and young people who inhabit them, and consider the broad impact that differing educator understandings of RJ have on students. *Adult Intentions, Student Perceptions* is a timely book for RJ advocates and critics alike. It challenges a common assumption of some RJ advocates that implementing RJ necessarily creates a classroom environment of social engagement (where students are empowered to engage with one another and think critically, and school relationships and

Acces PDF Discover Canada Study Guide 2013

hierarchies are transformed). The student experience relayed in this book shows that RJ can as readily be mobilized to create classroom environments of social control (where students are taught obedience and compliance, and authority and hierarchy are reinforced).

Reimer argues that RJ, by itself, does not guarantee certain qualities of relationship, but RJ does allow us to examine relational qualities and ask questions of how school relationships are used to engage and/or control students.

What do Tim Hortons, Hockey Night in Canada, and

Rick Mercer have in common? Each is a popular symbol of Canadian identity, seen across the country – and beyond – on television and in other forms of media. But whose definition of ‘Canadian’ do they represent? What does it mean to be Canadian? Do we create our own impressions of Canadian identity, or are they created for us? In *Desiring Canada*, Patricia Cormack and James F. Cosgrave delve into these questions, exploring the connections between popular culture, media, and the Canadian state. Taking as their examples the popular CBC contests, Tim Hortons advertising campaigns, NHL hockey

violence, television comedy, and the business of gambling, this lively, engaging book investigates the relationship between some of our more beloved popular expressions of national identity and the extent to which the interests of the state appeal in various ways through the popular media to the pleasures of citizens, thus shaping our understanding of what it means to be Canadian.
