Barrie then proceeds to tell the story of that one extraordinary exception, Peter Pan, who lives in the Neverland with pirates and fairies and is always having adventures. One night he appears in the nursery of the Darling children and the most marvelous adventure of all

***In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.***

The 40 Most-Streamed Disney Songs

*Will Friedwald's illuminating, opinionated essays—provocative, funny, and personal—on the lives and careers of more than three hundred singers anatomize the work of the most important jazz and popular performers of the twentieth century. From giants like Ella Fitzgerald, Louis Armstrong, Frank Sinatra, and Judy Garland to lesser-known artists like Jeri Southern and Joe Mooney, they have created a body of work that continues to please and inspire. Here is the most extensive biographical and critical survey of these singers ever written, as well as an essential guide to the Great American Songbook and those who shaped the way it has been sung. The music crosses from jazz to pop and back again, from the songs of Irving Berlin and W. C. Handy through Stephen Sondheim and beyond, bringing together straightforward jazz and pop singers (Billie Holiday, Perry Como); hybrid artists who moved among genres and combined them (Peggy Lee, Mel Tormé); the leading men and women of Broadway and Hollywood (Ethel Merman, Al Jolson); yesterday's vaudeville and radio stars (Sophie Tucker, Eddie Cantor); and today's cabaret artists and hit-makers (Diana Krall, Michael Bublé). Friedwald has also written extended pieces on the most representative artists of five significant genres that lie outside the songbook: Bessie Smith (blues), Mahalia Jackson (gospel), Hank Williams (country and western), Elvis Presley (rock 'n' roll), and Bob Dylan (folk-rock). Friedwald reconsiders the personal stories and professional successes and failures of all these artists, their songs, and their performances, appraising both the singers and their music by balancing his opinions with those of fellow musicians, listeners, and critics. This magisterial reference book—ten years in the making—will delight and inform anyone with a passion for the iconic music of America, which continues to resonate throughout our popular culture.*
