DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly

In this engaging dialogue, Zygmunt Bauman, sociologist and philosopher, and Stanislaw Obirek, theologian and cultural historian, explore the place of spirituality and religion in the world today and in the everyday lives of individuals. Their conversation ranges from the plight of monotheistic religions cast onto a polytheistic world stage to the nature of religious experience and its impact on human worldviews and life

strategies; from Messianic and Promethean ideas of redemption and salvation to the possibility and prospects of inter-religious dialogue and the factors standing in its way. While starting from different places, Bauman and Obirek are driven by the same concern to reconcile the multiplicity of religions with the oneness of humanity, and to do so in a way that avoids the trap of adhering to a single truth, bearing witness instead to the multiplicity of human truths and the diversity of cultures and faiths. For everything creative in human existence has its roots in human diversity; it is not human diversity that turns brother against brother but the refusal of it. The fundamental condition of peace, solidarity and benevolent cooperation among human beings is a willingness to accept that there is a multiplicity of ways of

Attuned to a world of natural signs—the stars, the winds, the curl of ocean swells—Polynesian explorers navigated for thousands of miles without charts or instruments. They sailed against prevailing winds and currents aboard powerful double canoes to settle the vast Pacific Ocean. And they did this when Greek mariners still hugged the coast of an inland sea, and Europe was populated by stone-age farmers. Yet by the turn of the twentieth century, this story had been lost and Polynesians had become an oppressed minority in their own land. Then, in 1975, a replica of an ancient Hawaiian canoe—Hōkūle‘a—was launched to sail the ancient star paths, and help Hawaiians reclaim pride in the accomplishments of

their ancestors. *Hawaiki Rising* tells this story in the words of the men and women who created and sailed aboard *Hōkūleʻa*. They speak of growing up at a time when their Hawaiian culture was in danger of extinction; of their vision of sailing ancestral sea-routes; and of the heartbreaking loss of Eddie Aikau in a courageous effort to save his crewmates when *Hōkūleʻa* capsized in a raging storm. We join a young Hawaiian, Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates *Hōkūleʻa* to Tahiti, and becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years. *Hawaiki Rising* is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past.

Hot Rod Empire details Robert E. Petersen's creation of Hot Rod Magazine in the 1940s and the Petersen Publishing empire that grew to the mainstream juggernaut we know today. The end of World War II marked the release of pent-up war-years energy and the desire to live. For many this meant indulging in long-denied purchases, like a new car. For another group, including young vets, it meant a return to car building and racing. Money, exciting new cars, and speed parts all flowed freely in post-war America. His second, and brilliant, move was to launch at the same event the first edition of Hot Rod magazine. From this launch pad, Petersen Publishing Company would grow to become the most influential enthusiast publisher in America. when you truly ran your IT system on-premises have long since gone. Most organizations have been getting rid of their own data centers and increasingly moving to co-location facilities. In this context the public cloud is nothing more than an additional virtual data center connected to your existing network. There are typically two main reasons why you may consider migrating SAP to Azure: You need to replace the infrastructure that is currently running SAP, or you want to migrate SAP to a new database. Depending on your goal SAP offers different migration paths. You can decide either to migrate the current workload to Azure as-is, or to combine it with changing the database and execute both activities as a single step.
