Teens June, a military prodigy born into wealth, and Day, a criminal from the slums, are brought together and face plague, war, and a powerful, common enemy.

Before they can save the world from the monstrous phantoms, four girls who have the power to control the classical elements: earth, air, fire, and water must first try to figure out how to work together. In this sequel to the dystopian fantasy-adventure *ELEMENTAL*, which James Dashner called "fantastic," the stakes are life-or-death and nothing is as it appears to be. Thomas and his friends have rescued the Guardians and commandeered the pirates' ship, but the pirates still hold fast to Roanoke Island. Using his newly discovered element, Thomas hears a radio message calling for refugees to head to Fort Sumter. They sail south, but quickly
