

## **Dolores Cannon Between Life Death**

**A unique volume based on research that includes every near-death experience ever documented suggests that our souls exist in a parallel universe and actually map out our human lives prior to birth. Tour. Not since Dr. Michael Newton, Edgar Cayce, Dr. Byron Weiss, and Dolores Cannon has there been a book that combines past lives, lives between lives, and actual soul council meetings shared in startling detail by hypnotically-induced subjects. These eight individuals recount not only the circumstances of their past lives but where they went after death and the soul lessons they reviewed with their council of elders and spirit guides. Use these pages to travel with prolific author, hypnotist, and researcher David Rippy to the shores of the New World through the eyes of a British first mate in the Royal Navy facing danger and the World War II battlefields as a lieutenant in a Nazi tank battalion. These subjects will learn about the nature of their current lives in relation to the past, such as the woman who discovered shed been in the same ill-fated romantic pairing in this life as when she was a settler on the U.S. prairie. Rippy covers the Universal Laws in detail and how all of our individual lives from birth to death and beyond are impacted by them. Regardless of your religious persuasion, the book offers insight for everyone and its common themes resonate throughout.**

**Would you like to understand the deeper spiritual meaning of physical illness, parenting handicapped children, drug addiction, alcoholism, the death of a loved one, accidents, deafness, and blindness? Your Soul's Plan (which was originally published under the title Courageous Souls: Do We Plan Our Life Challenges Before Birth?) explores the premise that we are all eternal souls who plan our lives, including our greatest challenges, before we are born for the purpose of spiritual growth. Through compelling profiles of people who knowingly planned the experiences mentioned above, Your Soul's Plan shows that suffering is not purposeless, but rather imbued with deep meaning. Working with four gifted mediums, author Robert Schwartz reveals the significance of each person's life plan and allows us a fascinating look into the "other side." Each personal story focuses on a specific life challenge, organized by type for easy reference. Accessible both to those familiar with the metaphysical aspects of spirituality and to the general reader, the moving narratives that comprise Your Soul's Plan help readers awaken to the reality that they are transcendent, eternal souls. With this stirring book as a guide, feelings of anger, resentment, guilt, and victimization are healed and transformed into acceptance, forgiveness, gratitude,**

**and peace. Robert Schwartz is also the author of Your Soul's Gift: The Healing Power of the Life You Planned Before You Were Born, which explores the pre-birth planning of spiritual awakening, miscarriage, abortion, caregiving, abusive relationships, sexuality, incest, adoption, poverty, suicide, rape, and mental illness. There's also a chapter about the pre-birth planning we do with our future pets. Robert Schwartz is a hypnotherapist who offers general Spiritual Guidance Sessions, Past Life Soul Regressions, and Between Lives Soul Regressions. Sample Book Insights: #1 I am a regressionist, which is a popular term for a hypnotist who specializes in past life regressions and historical research. I have found that many people are afraid of the in-between life plane, which is called the dead state by regressionists. #2 I had to go back and remember my beliefs and thoughts as they were before the light entered. I wanted to write books about the people's versions of these historical periods, because each unknowingly corroborated the others' stories while in deep trance. #3 I have found that there is no reason to fear death. We subconsciously know what happens and what lies over there. We have all gone through it countless times before. So in my study of death, I have found the celebration of life. #4 When death occurs, there is a feeling of coldness and then suddenly the spirit is standing by the side of the bed or wherever it is, looking at their body. They usually can't understand why the other people in the room are so upset because they feel so wonderful.**

Plus new information on the life reviews and preparing contracts and your life plan of what you hope to accomplish on your return to Earth. Cannon uncovers forgotten ancient knowledge that secret mystery schools and ancient civilizations used and is being brought back now. Ancient mysteries such as: Atlantis, Lemuria, the original Stonehenge, and the creation of life on Earth are explored.

This ground-breaking study confirms that life choices are individually made within a between-life state called Bardo, where explanations for life's burdens and ideas for relief are also offered

Dolores Cannon uses information obtained from regressive hypnosis to formulate a provocative viewpoint on the ancient astronaut theory of human origins. Her findings indicate that the earth was seeded eons ago by travellers from outer space. These visits by ancient extraterrestrials did not end with their intervention in human evolution. They have continued up to the present day resulting in a whole class of contemporary humans who have been subject to alien abduction.

Between Life and Death: From Despair to Hope

Achieving Life-Affirming Death Awareness

Many of us lived previous lives as keepers of sacred knowledge that was taught in the ancient mystery schools. Much of this knowledge was lost through time due to disasters and destruction or death. The knowledge was reserved for a select few who devoted their lives to understanding and teaching it.

Humanity has recently entered an extraordinary period of transition in which it is preparing to make a quantum, transformational leap to a higher level of consciousness and reality known as the Fifth Dimension--forever leaving behind all experiences of fear, conflict, pain, sorrow and duality. As veils of forgetfulness and dysfunctional patterns begin to dissolve in this Shift, we are at the dawn of an entirely new era on the planet: life lived from love, peace, cooperation, abundance, and reverence for all existence. AWAKENING TO THE FIFTH DIMENSION is an indispensable guide for this journey into uncharted new territory in consciousness, which may include unprecedented experiences of freedom, joy and expansion as well as significant challenges of disorientation and rapid change. We are invited here into conscious participation in an accelerated evolution as we ascend into the Fifth Dimension. In mapping the territory of this dimensional shift, it is also a call to co-create a New Earth that many of us have deeply longed for. Among its themes: • Common personal experiences during the Shift • Ways to navigate it with ease and grace • Understanding the Dimensions: Third, Fourth and the emerging Fifth • Physical, mental and emotional "Ascension symptoms" • Raising and sustaining your vibration: well-being, happiness, freedom • Stepping into a new multi-dimensional identity • Discovering your mission for assisting the planet through the Shift

In 1945 when the atomic bombs were dropped in WWII, our "protectors" and "watchers" in outer space saw that Earth was on a collision course with disaster. The prime directive of non-interference prevented them from taking any action, but then they came up with a brilliant plan to save Earth and assist her in her ascension. They couldn't interfere from the "outside", but maybe they could influence from the "inside". So the call went out for volunteers to come and help. "Earth is in trouble - who wants to volunteer?" The native souls living on Earth were too

caught up on the wheel of karma. The only hope was to ask for pure souls to come who had never been trapped on the karmic cycle. Dolores in her hypnosis work has discovered three waves of these volunteers. Some have come direct from the "Source" and have never lived in any type of physical body before. Others have lived as space beings on other planets or other dimensions. Because all memory is erased upon entry to the Earth dimension, they do not remember their assignment. Thus these beautiful souls have a difficult time adjusting to our chaotic world. These souls have a vital role to play as they help all of the rest of us ascend to the New Earth. \* Characteristics of the Three Waves of Volunteers \* The Difficulties being Experienced by First-Timers \* How the Shift is affecting the Physical Body \* The Roles of ETs and Light Beings in the Shift \* Keepers of the Grid \* The Separation of the Old and New Earth \* What is the New Earth? \* What is the Significance of 2012?

**One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. A journey that will compel readers to view life after death in a completely different way. Where - do our loved ones go - After they die? This is the question that has traversed the universe for centuries and is considered one of life's greatest mysteries. While many of the world's renowned philosophers, scientists, theorists, doctors, and great mystics endorsed the existence of the afterlife, no one book has been available to explore it all, until now. Mariel Forde Clarke asserts that whether you believe in God or heaven, you can be comforted by the sense that an afterlife exists beyond the realm of one's physical comprehension. Drawing on the findings of patients who have had near-death experiences and visions, and on those of renowned scientists and doctors, Clarke helps the reader chart the journey of the soul and navigate their grief.

The author's account of her own near-death experience reveals the lessons she learned during her encounter with the other side, while speculating on the popular trend associated with near-death experiences. Original.

"This book fruitfully serves those looking to apply Ernest Becker's ideas psychotherapeutically, in individual counseling or in group therapy. A capstone to Robert Firestone's 50 years of work in psychotherapy, psychoanalysis and psychiatry and to the numerous books written by these authors, Firestone and Catlett show how to apply the themes and implications of the ideas of

Ernest Becker in everyday life. Their basic premise is that accepting death is part of developing an affirming and meaningful experience of life. Contributing to the credibility of their presentation is the wealth of clinical evidence and personal experience Firestone and Catlett incorporate." --The Ernest Becker Foundation "[F]ascinating and an enjoyable read....steeped in well researched and relevant psychological and sociological perspectives applicable to all social studies areas..." --Carol Lloyd University of Chichester "Firestone and Catlett's work is a marvelous achievement....This volume is both innovative and intrepid. Firestone and Catlett challenge prevailing psychoanalytic views on death and they demolish many of the accepted canons of thanatology and existential psychology. ...This is required reading for anyone who purports to talk about death." -- Jerry Piven, PhD Author of *Death and Delusion: A Freudian Analysis of Mortal Terror* "[A] towering synthesis of personal and clinical wisdom about death....with a superb overview of the psychology of death and death anxiety....Dr. Firestone draws on the best of the existential-humanistic as well as the psychoanalytic thinkers to address a flourishing path toward self-realization." -Kirk J. Schneider, PhD Author, *Existential-Integrative Psychotherapy and Awakening to Awe (From the Foreword)* Firestone and Catlett's groundbreaking volume assists mental health practitioners in helping their clients learn to accept and face their mortality. They describe the many defenses of death anxiety that keep individuals from achieving personal fulfillment, and also suggest methods to cope directly with fears of death; an approach that, ironically, can lead to more satisfaction, more freedom, and a greater appreciation for the gift of life. This book examines the many destructive consequences of death anxiety, including introversion, depression, and withdrawal from life. Throughout the book, the authors demonstrate the importance of achieving what they call life-affirming death awareness. Key topics include: The dawning awareness of death and its impact on the developing child Literal and symbolic defenses against death anxiety Separation theory and "the fantasy bond" Challenging the defenses that interfere with living fully Microsuicide: the death of the spirit Breaking with limiting religious dogma and cultural worldviews With this book, mental health practitioners and their clients will be able to better understand death awareness, overcome the defenses against death anxiety, and ultimately lead richer, more fulfilling lives.

Through regressive hypnosis a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-Canada region thousands of years ago? Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Does their blood still flow in the veins of certain American Indian tribes?

This sequel to *The Convolutioned Universe - Book One* provides metaphysical information obtained through numerous subjects by hypnotic past-life regression.

**For ages, most of humanity has placed "life" and "death" at two ends of the existential spectrum - favoring one, fearing the other and continuously floundering between the two. Only when someone who**

***has consciously traversed between both life and death offers to articulate some aspects of it, does humanity get a glimpse of what lies beyond the horizon of its normal perception. With his extraordinary insights, coming from a profound inner experience, Sadhguru reveals that life and death are, in fact, two sides of the same coin. It is only by embracing both that we can break the shackles of our selfmade struggles and be set free. In his own words, he says: "Death is a cosmic joke. If you get the joke, when you fall on the other side, it will be wonderful. If you don't get the joke, when you are here you fear the other side, and when the other side comes, you just don't know what it is about. If death becomes a laughing matter in your life, life becomes an utterly effortless process - there is no need to restrain yourself in the process of life; you can live your life absolutely, totally." "The distance between your life and death is just one breath, isn't it?" - Sadhguru***

His questions and fears are addressed through the stories of many other patients that Dr Patel has treated-from the young and vivacious to those who had already lived full lives, from patients who could barely afford their rent to those who had been wildly successful. What ties these stories together is the single thread of the lessons Harry learns along the way, lessons that ultimately enable him to plan his own exit from the world gracefully-dying without fear.***

In 1971, Arthur Ford gave Ruth Montgomery six predictions, published in *A World Beyond*. Every one has come true! In *The World Before*, he and the Guides offer secret lore of the past and startling new glimpses of the future. Here is the extraordinary story

THE BEGINNING What do you do when you discover information that is before its time? What do you do when your curiosity takes you on an adventure that is so bizarre that there is nothing "normal" to relate to? This is what happened to Dolores Cannon in 1968, long before she began her career as a past-life hypnotherapist and regressionist. Travel back with us to that time when the words "reincarnation, past-lives, regression, walk-ins, New Age" were unknown to the general population. This is the story of two normal people, who accidentally stumbled across past-lives while working with a doctor to help a patient relax. It began so innocently, yet it crossed the boundaries of the imagination to open up an entirely new way of thinking at a time when such a thing was unheard of. It went totally against the belief systems of the time. It was so startling that they should have stopped, but their curiosity demanded that they continue to explore the unorthodox. The experiment changed the participants and everyone involved, and their beliefs would never be the same. Dolores Cannon is now a world-renowned hypnotherapist who has explored thousands of cases in the forty years since 1968, and has written fifteen books about her discoveries. Her books are translated into more than 20 languages. She is teaching her unique form of hypnosis all over the world. When she lectures people ask, "How did you get started on all of this?" This is the story of her beginnings. The book was written in 1980, her very first book. It has laid dormant, gathering dust, until now, waiting. Now is the time for it to come forth. Enjoy the adventure!

Dolores Cannon has accumulated information about the death experience and what lies beyond, through

16 years of hypnotic research and past-life therapy. While revealing these experiences hundreds of subjects reported the same memories when experiencing their death, the spirit realm and their rebirth. Recorded and dictated word for word, the subjects reveal enlightening wisdom that is hidden in the subconscious of all humankind.
