

# Advancing Your Career Concepts In Professional Nursing

Praise for Advice for a Successful Career in the Accounting Profession “Advice for a Successful Career in the Accounting Profession is the ultimate survival guide for those pursuing a career in accounting. This book is an incredible resource for the college and university students majoring in accounting as well as individuals in the early years of their career. It is loaded with tips, techniques, and best practices to put you on the right track to achieve a successful career in the accounting profession.” —Bill Sikora, Rowan University, BS in Accounting, May 2020 “I can think of no one better than Jerry Maginnis to write an educational and motivational book like this one. Since we first met, it’s been clear to me that he has set the standard for success in the accounting profession and, more important, for an unceasing dedication to encouraging and mentoring young people to follow in his footsteps. This practical and fun-to-read book is a gift to aspiring accounting students and, especially, to people who choose to enter the accounting profession. It should be a must-read for all of them.” —Jack Brennan, Chairman Emeritus, Vanguard; former Chairman, the Financial Accounting Foundation “This book is ideal for

## Download Ebook Advancing Your Career Concepts In Professional Nursing

aspiring and early-career accounting professionals and their advisors, supervisors, and mentors. Jerry has done a terrific job of organizing and highlighting key practical points and essential advice for success. I am confident that this book will help provide access and opportunity to many students and early-career professionals who will lead the accounting profession in the future.”

—Jeanette Franzel, CPA, Board Member and Executive Advisor “Jerry Maginnis has a wealth of experience and his willingness and commitment to create this book to share the benefits of that experience is impressive. I recommend it for anyone considering a career in accounting as well as current public and private accountants of all ages. This smartly laid out book is not only a good read but can also serve as a handy reference tool for accounting students and professionals. It’s a must have for any accountant’s bookshelf!” —John Nickolas, Chief Financial Officer, Philadelphia Phillies

The world's greatest, realest, and trusted tips for advancing your careerCareer is a pillar on its one if when not handled with seriousness will lead one to depression or even death. As beautiful your career may seems to be to you, there are need to keep improving on yourself and your chosen career path in other to attain an advancement. What must I do?How should I go about it?When do I put these

## Download Ebook Advancing Your Career Concepts In Professional Nursing

steps in place? You need you have clarify all your career goals, determining your yardsticks for success is very important. These and many more questions have been thoroughly dealt with in this book. I wish you a great turnaround and expansion your career path as your read.

Why are so many people unhappy on-the-job? . As many as 7 out of 10 Americans are currently dissatisfied with their careers. . Expensive college degrees are seen by our society as a requirement to enter the American workforce. Yet, many students fail to graduate with the skills and knowledge necessary to embark on a satisfying career path. The result is an unprepared individual, saddled with debt, and frustrated with a system that has left them hanging with respect to making good career decisions. . The concept of work-life balance continues to elude our society as thousands of workers complain of 'living to work' instead of 'working to live.' It's no secret that career satisfaction eludes much of the American working population, but what's worse is the lack of resources and coaching to help today's employee find the career satisfaction they seek. In this innovative, step-by-step guide, workplace expert, professional development specialist, and nationally syndicated career advice columnist, J.T. O'Donnell ([www.jtodonnell.com](http://www.jtodonnell.com)) unlocks the secrets to working smarter when it comes to creating a career

## Download Ebook Advancing Your Career Concepts In Professional Nursing

you can get excited about. With more than 15 years experience, having coached thousands of individuals, O'Donnell will show you how to develop an authentic definition of professional success that will get you results. Here's what readers have to say: Her strategic approach really helped me flesh out what traits and experience I brought to the table for a potential employer in a different field. Her methods, encouragement and continued support have led me to find the right career path.-

Helen D. I hated my job, wanted out, and didn't know where to begin. I had a decision to make: I could continue on the track to working my 9-5 job in front of a desk and let it define me and make me miserable, or look for something different.

J.T. showed me that it's not your job that defines you at all; it's you who defines your job. She worked with me to figure out my strengths and work on my weaknesses. J.T. helped me learn that who I am is far more than the paycheck I bring in. Through that exploration of my own real desires, J.T. helped me to realize that I needed a far more creative outlet to be successful in. I can truly say that without J.T.'s help, I certainly would not be where I am today. I'm more aware of my life and the people in it...I

absolutely love my job and really feel successful. I owe an immense amount of gratitude to J.T. for getting me to this place in my life. - Danielle H. The information in this book is so on target, I wish I'd

## Download Ebook Advancing Your Career Concepts In Professional Nursing

found it earlier in my career. I can't begin to express what it is like to have finally found not just the reasons, but the solutions, to my past career disappointments.- John T.

Career development is a responsibility that managers know they should do and frequently even want to do. Despite that, it's always getting back-burnered. There are lots of reasons. But the #1 reason managers give is that they don't have time. Don't have time for the meetings. The forms. The moving people around like chess pieces. But news flash: employees will leave if they aren't developed. In this book Beverly Kaye and Julie Guilioni invite managers to re-frame career development in such a way that responsibility rests squarely with the employee and their role is more about prompting, guiding, reflecting, exploring ideas, activating enthusiasm, and driving action rather than actually doing all the work. This happens through the simple act of conversation. And career development conversations can be easily integrated into the normal course of business, not separated out as a special task. Kaye and Giulioni identify three types of career development conversations and provide questions, templates, tips and tactics for having them. Managers can stop worrying, avoiding, delaying or taking on too much responsibility for their employees' career... and just start talking.

The Unwritten Rules

Getting and Making the Most of Your Doctorate

The Ultimate How-To Guide For Your Career

Here's the Plan

The key to your career advancement is understanding how power works--who has it, where it hides, and how it's used. *Please Sit Over There* teaches Black women the career skills they need to navigate an uneven playing field and achieve long-lasting professional success. Black women continuously navigate systems that were never intended for them while playing by a set of rules they never agreed to or were ever trained for. In this book, Francine Parham shares her knowledge as a Black woman and a former global executive of two major corporations on how to move up in the workplace while maintaining a sense of sanity. The key skill--one that Black women are rarely taught--is understanding the power dynamics within your organization and learning how to “ shift the power ” to your advantage. Parham shows how to use your voice, strategically build the right relationships, and support others once you have achieved a powerful position--tools any woman can use to increase her power and ensure a successful, fulfilling career. Parham says Black women are already empowered; there is no shortage of qualified professional Black women in the

## Download Ebook Advancing Your Career Concepts In Professional Nursing

talent pipeline. But it does not feel empowering when organizations force Black women to work every day to overcome biases, discriminatory institutional practices, and unwritten rules of power at play that hinder their career development and professional advancement. Please Sit Over There honors the painstaking work being undertaken to deconstruct broken institutions and demonstrates how Black women can achieve their goals while those institutions still exist—effectively opening doors for all women of color. Build on your prior nursing experiences. Here are all the theories and concepts you need to progress from RN to BSN and beyond. From timely topics, such as JCAHO's safety initiatives, to healthcare reform and global issues, this popular text helps you continue your education and reach the next level of professional practice. You'll examine the critical components of professional nursing practice, including effective communication, professional ethics, leadership, group theory, teaching/learning, and multicultural issues. Then apply what you've learned to the situations you encounter in practice--and to the challenges you'll encounter tomorrow.--Publisher description.

Let Me Give It To You Straight is an insider's view of the secretive world of the headhunter. Mark Jaffe, ranked by BusinessWeek as "One of the world's 100 most influential headhunters," shares his experience in placing executives in a wry, witty and stylish way that gives you a genuinely unfair advantage when planning your next career move.

**Maximize your chances to get promoted to the executive level As predictable career paths have become extinct in most organizations, managers aspiring to the C-level job are left to their own devices to determine how to advance their careers. Even in companies committed to talent development, guidance to aspiring executives is often vague and contradictory. This happens, executive coach John Beeson argues, because executive promotions are made based on the decision makers' intuitive sense of whether or not a manager can succeed at higher levels within the organization. Beeson decodes these leadership criteria--the unwritten rules--that companies use to make decisions about who gets promoted and who doesn't, and identifies the six core "selection factors" that are imperative for success at the executive level Demonstrating**

*When you think about a "career" in the abstract, it seems like a very linear thing—one step leading to the next in a causal chain that adds up to success or failure. That's not how it works, of course. A career is a series of decisions, big and small. Even a successful career can take many wrong turns along the way. However, a master plan and smaller-scale goal setting can significantly increase your chances of moving in the right direction. This course teaches you how to formulate the grand plan and assess risk and reward at every stage, evaluating each decision in detail. A diverse range of experts, from Tim Ferriss to Deepak Chopra, explain this mindset-shifting, holistic approach to career development. Leverage their hard-earned wisdom to make the right choices, mitigate risk, and build the networks of trust that will support you throughout your career. This course*

*The how-to guide for your career In his previous book, Lose the Resume, Land the Job, author Gary Burnison exposed the myths and the ineffective thinking around how to land the job you really want. Now, in Advance, he takes readers through the next stage—advancing in their careers. Advance is extremely timely and topical in today's do-it-yourself career development world. Average job tenure has fallen to about four years on average and often only one or two years for younger professionals. These "career nomads" simply aren't around long enough to access career development from their employers. On the other end of the workplace spectrum, many employees find themselves stuck in one job without a promotion, without any raise to speak of, and with no opportunities to learn and grow. In Advance, Burnison lays out a mosaic of "how-to" advice that applies every day and at every level—the skills and behaviors that help people navigate their careers and stand out among the crowd. He takes on a "Top 20" of career must-haves: managing for the first time, engaging in the "money conversation" with your boss, dealing with difficult bosses (without quitting),*

of their companies. Covering topics such as managing conflict, decision making and problem solving and networking and mentoring, this is the perfect reference for those currently in the workforce as well as for those learning about and preparing to enter the workforce.

Your Career Game demonstrates how game theory can help readers to understand and proactively take charge of their career strategy. Authors Nathan Bennett and Stephen A. Miles teach readers to manage the interdependencies and interconnectedness among coworkers, managers, and others in a manner that supports personal career efforts. Then, they show how readers can become better players. The key to learning how to play the career game is "career agility"—in short, nimble individuals are better game players. This book includes conversations with a wide range of successful professionals such as Ursula Burns (Xerox), Stephen Elop (Microsoft), Marius Kloppers (BHP Billiton), Ken Frazier (Merck), and Liz McCartney (The St. Bernard Project), and discusses how their career moves demonstrate elements of a game theory approach to career management. This is a must-read strategic guide for anyone who seeks to advance their career and navigate today's job market.

Tactful self-promotion is an extraordinarily useful—in fact, crucial—career competency, relevant at any stage. This book is for you if you're: - new to your career, striving to

## Download Ebook Advancing Your Career Concepts In Professional Nursing

establish a reputation in your profession. - at mid-career, feeling like you've plateaued or stalled, and need to build influence. - working in the "gig" economy, freelancing, and seeking contract work. - starting your own business, or becoming a consultant. - between jobs and trying to find a new opportunity. Based on thousands of conversations with people seeking more visibility, the authors outline actions that even the most reserved can take to increase their visibility without violating their integrity or values (and without triggering a panic attack!). Illustrated by real-world examples, it is full of practical approaches, immediate tips, and ideas to implement. *Power Your Career: The Art of Tactful Self-Promotion at Work* will help you find ways to promote yourself--tactfully!

High-achieving women share their worst mistakes at work--and how learning from them paved the way to success. Named by Fast Company as a "Top 10 Book You Need to Read This Year" In *Mistakes I Made at Work*, a Publishers Weekly Top 10 Business Book for Spring 2014, Jessica Bacal interviews twenty-five successful women about their toughest on-the-job moments. These innovators across a variety of fields - from the arts to finance to tech - reveal that they're more thoughtful, purposeful and assertive as leaders because they learned from their mistakes, not because they never made any. Interviewees include: Cheryl Strayed,

*A 2022 SPE Outstanding Book Honorable Mention "If you want to achieve tenure, you should know a bit more about what it means and why it exists, and its benefits. All too often, even faculty don't understand why tenure is important." Thus begins the Preface of Candid Advice for New Faculty Members, the newest and most comprehensive "how to" guide for graduate students, post-docs, and junior faculty across a variety of academic disciplines. Drawing upon her own extensive experiences and that of many colleagues, Marybeth Gasman provides you with an incredibly valuable tool for attaining tenure and for the things that you should do to advance your academic career. She provides practical (and sometimes humorous) advice about a range of topics, including: negotiating job offers planning a research agenda improving your teaching skills managing service advising students applying for research grants achieving life/work balance managing academic politics In addition to this valuable career advice, Gasman provides a peek behind the academy's curtain by painting a vivid picture of the inner workings of the academy and all of its players. Candid Advice for New Faculty Members is required reading for every newly-minted faculty member,*
