

Draw Anything Imshop

Last Days: Zombie Apocalypse is a skirmish-scale miniatures game of survival horror. It pits players against each other in a nightmarish near-future where the dead have returned to life and are feasting on the living. Players build their own factions, representing desperate civilians, military personnel, or hardened survivors, and must explore, scavenge, and fight in order to survive another day. Rival gangs are only one of the dangers they face - mindless zombies wander the streets, driven by insatiable hunger and drawn by the sound of combat! A gang's ability to scavenge is as vital as their combat ability, and players must ensure that they have the resources to survive in this hostile world. Scenarios and campaigns allow you to develop your gang, gain experience and recruit new henchmen to build up your strength or replace the inevitable casualties of the zombie apocalypse.

Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. Each and every issue is packed with punishing product reviews, insightful and innovative how-to stories and the illuminating technical articles that enthusiasts crave.

If you are thinking of fitting an autopilot or windvane steering system to your boat but are baffled as to which is the most suitable, then this is the book for you. Peter Forthmann, a long-term expert on this subject, explains the difference between tiller, wheel and inboard autopilots, as well as the 12 windvane steering options available, and considers their suitability for various types of boat and sea conditions. Which self-steering systems are more suitable for cruising and which for racing? What are their limitations in terms of sea conditions and power consumption? What is yaw damping? Why are windvane steering systems unsuitable for ULDBs? How do you steer a catamaran without running into power consumption problems? Why is good sail trim so important for good self-steering? What self-steering provisions should you make when building a boat? Is DIY windvane gear construction still a feasible option? All these questions and many more are answered in this very comprehensive book, which concludes with a comparison of all the alternatives available and a list of manufacturers of practically every self-steering system made anywhere in the world. Peter Christian Forthmann has a unique knowledge of self-steering. Born in 1947, he learned to sail as soon as he learned to walk, growing up by the water in Hamburg. An engineer and a highly practical man, Peter Forthmann's creative contribution to the evolution of windvane steering systems is virtually unparalleled. It is thanks in no small part to him that these systems are still thriving in the age of bits and bytes.

Peter Foerthmann has been the first port of call for bluewater sailors seeking advice in steering matters for decades. His unrivalled expertise - the product of a lifetime developing and manufacturing windvane self-steering systems and contemplating their every complexity - continues to draw enquiries from all over the world. Half a century of experience with both his own boats (several dozen have come and gone over the years) and other people's (Peter has installed self-steering gear for literally thousands of sailors) has left him with a treasure trove of invaluable information to share. This book focuses on the attributes that make a yacht suitable for bluewater passagemaking. It examines the differences between traditional and more recent design conventions and their implications for offshore use, explains why some modern boats may not be such a good idea for long-distance cruising and gives sailors in search of a timeless home from home plenty of practical advice about the features to look out for (and the features to avoid) if they want serious fun on the oceans with as little as possible left to chance.

The North Atlantic and its adjacent waters are among the most dangerous in the world. Countless shipwrecks speak for a rough ocean. And yet, these seas are rich in wildlife like playful dolphins and colorful puffins. Ignoring the hazards and curiously, almost obsessed by sailing the European Atlantic, George and his wife cast-off in the Baltic to an open-end adventure. They sailed to Norway, Scotland, the Hebrides, the Iberian peninsular and promptly fell in love with these countries and their people. The nature in Norway is breathtaking, wildlife on the Hebrides stunning, Scotland is divine, the beer in Dublin is cold, and the sun nearly always shines in southern Europe. With autumn approaching, the Atlantic Ocean faced its first hurricane on the European side in history and underlined its reputation. The crew took it easy and saw what they hoped to see and much more. Then a virus came along, silently, mysteriously, and ruined all travel plans. Relaxing with each day passing by, the crew realized, live and perceive the moment.

SAILING THE EUROPEAN ATLANTIC COAST

The most beautiful of holiday destinations - your own garden. For all those who choose to spend their holidays at home, a somewhat different book about gardening that will get you in the mood for a vacation in your very own paradise. In this remarkable guidebook, Daniela Cortolezis transports her readers on a voyage of discovery through their own garden. But spending your holidays at home, just

to keep doing whatever you normally do? There is another way! Page by page, this book shows you how much fun it can be to spend the summer at home while getting the utmost enjoyment from your garden. No exhausting air travel, no fear of flying, no suitcases to pack, no abandoned garden. No waiting around, no queueing, no rowdy strangers the other side of flimsy walls. Holidaying in your green oasis is simply exquisite: you can unwind, laze away the hours, hug a tree, amble barefoot across the dewy grass, recharge your batteries, become one with nature and explore the world of your own green abode like a globetrotter. The first ever guidebook for holidays in your own garden takes you directly to what may be the most beautiful holiday destination in the world and awakens an enthusiasm for the delights to be discovered amongst the deckchairs and secateurs. Discover an entire world within your own patch of green and enjoy this extraordinary travel guide!

The daily, funny life of two nerdy husbands. Love isn't just roses and candy...sometimes it's video games, cat hair, and comic books! Meet Aaron and Jonathan, real-life husbands who have been documenting their incredibly true tale of two nerds in love with their popular webcomic since 2015. With their distinctive charm and laugh-out-loud humor, Husband & Husband is sweet, hilarious proof that romance is alive and well, even if there IS a bit more Pokémon than advertised! Featuring 30 never-before-seen strips and a brand-new story only available here, this oversized collection of Jonathan and Aaron Ferrara's hit webcomic is a must-have for fans and new readers alike.

What Makes the Middle East Tick

Trends, preferences and priorities

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Peter Foerthmann has been the first port of call for bluewater sailors seeking advice in steering matters for decades. His unrivalled expertise - the product of a lifetime developing and manufacturing windvane self-steering systems and contemplating their every complexity - continues to draw enquiries from all over the world. Now available in six languages, his specialist books present the state of the art and provide reassurance - should any be needed - that the fundamental rules of physics still apply in a world increasingly dominated by bits and bytes. This book recounts both the author's personal history of almost half a century in the windvane self-steering segment of the international marine industry and the story of how a business that once built everything by hand has managed to transform itself into what must surely be one of the smallest high-tech engineering companies in existence. The Windvane Report shares the milestones of the author's progress over the decades and recounts some of the remarkable disputes that have erupted in the sector as well as discussing and comparing important technical developments in the field. A roller-coaster ride through the highs and lows of a life on and by the water, this book offers the reader a wide-ranging insight into how Windpilot and the man behind it came to be what they are today.

Cute Chibi Animals teaches you this popular anime and manga drawing style with easy-to-follow instructions for drawing 75 adorable animals and fantastical creatures.

From Tony Award-winning playwright Tom Stoppard, Indian Ink is a rich and moving portrait of intimate lives set against one of the great shafts of history—the emergence of the Indian subcontinent from the grip of Europe. The play follows free-spirited English poet Flora Crewe on her travels through India in the 1930s, where her intricate relationship with an Indian artist unfurls against the backdrop of a country seeking its independence. Fifty years later, in 1980s England, her younger sister Eleanor attempts to preserve the legacy of Flora's controversial career, while Flora's would-be biographer is following a cold trail in India. Fresh from the critically acclaimed off-Broadway performance in 2014, Indian Ink is reemerging as an important part of Stoppard's oeuvre and the global dramatic canon, a fascinating, time-hopping masterwork.

Secretly following his rabbi father outside the walled Jewish ghetto in 1595 Prague, Jacob watches him bring a golem to life to protect those living in the ghetto.

This book will change the way you see the Middle East. Based on insights gained through his personal experience of

living and working in the region the author invites you to travel across the social fabric and mentalities that make the Middle East tick. He enriches his social analysis with illuminating anecdotes, presented in candid language, but without moralising or pushing a political agenda and always with a critical eye and wry humour. Preferring a historical perspective instead of the standard narrow focus on Islam, he emphasises the tribal foundations of Arab societies. Exciting and easy to read from beginning to end for specialists and for the wider public alike. ----- Selected feedback on the German (2018) edition: --- 'I have already re-ordered your book twice as a present. It spreads tolerance and optimism.' --- 'It was like reading a thriller. Very exciting. I could not put it aside ... and never tactless or aggressive.' --- 'I was fascinated by the density of observations, which are serious and humorous at the same time... The details about women and clans are particularly impressive.' --- 'I liked the fact that the book is not only written for academics, but in a way that everyone can understand.' --- 'Our daughter is a psychologist. Among her clients are children from the Middle East. She finds your book extremely beneficial for her work.' --- 'The book has the potential to find broad acceptance, as the delicate topics and terminology are well mastered.' --- 'I started looking at the Middle East in a completely different way.'

Personal development is a growth process similar to the metamorphosis of a butterfly. Emerge from your childhood as a caterpillar, discover what you really want in the cocoon, and take responsibility for your life. Let go of the past and open yourself up to new perspectives. Learn to feel vibrant and free like a butterfly, to flutter your wings, and to lead a more confident and fulfilled life! »YOUR METAMORPHOSIS« is more than a self-help book. You can pick it up again and again, refer to its tips and activities, and use it as a personal workbook. Write in it, make notes, and keep it by your side during your transformation. With your purchase, you are making a generous donation to my school project in Kenya, which covers school costs for children there. Your contribution gives them an education, the opportunity to learn a profession, and the chance to live a good life.

Are you a writer or want to become one? As a new writer, you might want to start the right way, but do not know how. As a more experienced writer, you might have made the experience that you just never seem to have enough time or feel like you lack focus. I've been there, and it took me years to find a writing routine that works for me (and as an added benefit also helps my mood!). I decided to put all the info I found over the years in a small book - without fluff, without unnecessary success stories. If you look for a way to make your writing sessions better, my experience will help you. All you need to bring is: some time to read this short book, the willingness to stick to some new routines, some effort, and dedication. I cannot do the writing for you, but I can show you how you and your brain can become effective partners to work toward your writing goals.
