***This volume brings together papers relating to the pronunciation of Semitic languages***

***and the representation of their pronunciation in written form. The papers focus on sources representative of a period that stretches from late antiquity until the Middle Ages. A large proportion of them concern reading traditions of Biblical Hebrew, especially the vocalisation notation systems used to represent them. Also discussed are orthography and the written representation of prosody. Beyond Biblical Hebrew, there are studies concerning Punic, Biblical Aramaic, Syriac, and Arabic, as well as post-biblical traditions of Hebrew such as piyyuṭ and medieval Hebrew poetry. There were many parallels and interactions between these various language traditions and the volume demonstrates that important insights can be gained from such a wide range of perspectives across different historical periods.***

Paulo Coelho's masterpiece tells the mystical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure. His quest will lead him to riches far

different—and far more satisfying—than he ever imagined. Santiago's journey teaches us about the essential wisdom of listening to our hearts, of recognizing opportunity and learning to read the omens strewn along life's path, and, most importantly, to follow our dreams.

responsibility, the future of the world—are as perilous, yet as falling-down funny, as ever.” -Linda Winer, *Newsday* "A vast, miraculous play...

provocative, witty and deeply upsetting... a searching and radical rethinking of American political drama." -

The current generation of young adults, at least in the Western world, has shown a marked tendency toward a preference for describing themselves as “spiritual” as contrasted to “religious.” This book seeks to examine the possible meanings and consequences associated with this contrast in terms of the similarities and differences that affect those who use these terms with respect to the everyday practices that they themselves employ or believe should follow from being self-defined as “religious” or “spiritual” - or not. The several chapters in this volume take up the religious-spiritual contrast specifically through investigations into practice: In what ways do people who claim to be “religious” or “spiritual” define these self-images as manifest in their own lives? How on a daily basis does a person

who considers himself or herself “religious” or “spiritual” live out that self-image in specific ways that she or he can describe to others, even if not share with others? Are there ways that being “spiritual” can involve religion or ways that being “religious” can involve spirituality, and if so, how do these differ from concepts in prior eras (e.g., Ignatian spirituality, Orthodox spirituality, Anglican spirituality, etc.)? We also explore if there are institutions of spiritual practice to which those who term themselves “spiritual” turn, or if the difference implied by these terms may instead be between institutionalized and de-institutionalized expressions of practice, including but not limited to self-spiritualities.
