

***Dream With Your Eyes Open* By Ronnie Screwvala**

Kafka on the Shore displays one of the world's great storytellers at the peak of his power. In *we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where cats talk, fish fall from the sky, and people slip out of their bodies to make love or commit murder, in what is a truly remarkable journey. How would you describe your life? Living 9 to 5? Stuck on pause? Waiting for retirement? Do you really enjoy life? What happened to those childhood dreams? In *DREAMING WITH YOUR EYES WIDE OPEN*, Eleanor Graves challenges you to realize that everyone has at least one dream. We are not taught how to make that dream become reality. Through seven simple, biblically-based principles, the reader learns how to make their dreams come true. These principles and resulting processes are universal and practical. They are perception, purification, partnership, possession, perseverance, positive spirit and power beyond yourself. To reinforce this concept, there are real-life stories of historical figures, people living today and the author herself. The common thread of these principles is woven throughout each story. Infused throughout are enriching quotations and affirmations. This book is clear, concise and easy to read. You will be informed, illumined and inspired. Eleanor Newhouse Graves, B.S. M.Ed. Eleanor, the widow of Bishop Michael Lee Graves, is a consultant, counselor, therapist, writer, college professor, diversity trainer, and motivational speaker. She is presently President and CEO of the Graves Foundation, an organization dedicated to improving the educational and health opportunities of underserved children and youth in the world's hardest places. Her husband is the founding pastor of the Temple Church in Nashville, Tennessee, a thriving congregation of more than 4,000 people with over 50 ministries. He was the consummate preacher and visionary. This book is based on his sermons of help and hope. He inspired, encouraged and enabled many people to open their eyes to the possibilities and their own potential. They are the parents of four adults, Michael Lee Graves II, Ayanna Graves Moore, Ariel Graves and Dana Guest and grandparents to Preston, Ravyn and Michayla Moore. A journey of reckoning and renewal, this story of one family's history and its future dream is by no means a traditional memoir—rather, it is an examination of the individual imagination as a catalyst for social change from a Guggenheim Fellow and master essayist. Whatever the ideological slant of our information feeds, nowadays we all share a sense of binge-watching an apocalypse. Facing so much uncertainty, we need a language for thinking about the unknown not simply as a threat, but also as a space of fertile possibility. George Prochnik has chosen to reflect on these urgent themes through the lens of a personal narrative: an account of his decision to leave the United States. *I Dream With Open Eyes* begins with an exploration of Prochnik's ancestral past and pilgrimage of his mother's family, who were among the first English settlers in the New World. In the aftermath of the 2016 election, a parallel migration is unfolding, as Prochnik, along with his wife and their son, make the decision to uproot themselves in New York. They leave behind their friends and family, to return to England. A deep critique of this current moment, Prochnik takes the words of nineteenth-century poet Heinrich Heine, "I dream with open eyes, and my eyes see" as an inspiration to ask how, as a society, we can use art and literature to refract and expand our vision for the future, while simultaneously generating a new focus on present realities.*

"This fascinating little volume explores the stuff that dreams are made of and the role of a pandemic is playing in them. The dreams from Barrett's survey are riveting vignettes--"

terrifying to touching to hilarious. Her decades of scientific research and clinical practice inform incisive commentary on what these dreams reveal about society's response. She offers simple exercises for managing anxieties over COVID-19 and for inspiring adaptation in this unique period of history. A great read!" -Amy Tan, author of *The Joy Luck Club*

DREAM: I looked down at my stomach and saw dark blue stripes. I "remembered" these were the stripes of being infected with COVID-19.

DREAM: My home was a Covid-19 test center. People weren't wearing masks. I'm taken aback because I wasn't asked to be a test site. I'm worried my husband and son (who actually lives out of state) will catch it because of my job as a healthcare worker.

DREAM: I was a giant antibody. I was so angry about COVID-19 that it gave me superpowers, and I rampaged around attacking all the virus I could find. I woke up energized!

Since the COVID-19 pandemic swept around the world, people have reported unusually a vivid and bizarre dream lives. The virus itself is the star of many--literally one of its metaphoric guises. As a dream researcher at Harvard Medical School, Deirdre Barrett was immediately curious to see what our dream lives would tell us about our deepest fears to this unprecedented disaster. *Pandemic Dreams* draws on her survey of over 9,000 people about the COVID-19 crisis. It describes how dreaming has reflected each aspect of the pandemic: fear of catching the virus, reactions to sheltering at home, work changes, homeschooling, and an individual's increased isolation or crowding. Some patterns are similar to other crises Dr. Barrett has studied such as 9/11, Kuwaitis during the Iraqi Occupation, POWs in WWII Nazi prison camps, and Middle Easterners during the Arab Spring. There are some very distinctive metaphors for COVID-19, however: bug-attack dreams and dreams of invisible monsters. These reflect that this crisis is less visible or concrete than previous ones we have faced. Over the past three months, dreams have progressed from fearful depictions of a mysterious new threat . . . to impatience with restrictions . . . to more fear again as the economy begins to reopen. And dreams have just begun to consider the big picture: how society will change. The book offers guidance on how we can best utilize our newly supercharged dream lives to aid us through the crisis and beyond. It explains practical exercises for dream interpretation, reduction of nightmares, and incubation of helpful, problem-solving dreams. It also examines the larger arena of what these collective dreams tell us about our instinctive unconscious responses to the threat and how we might integrate them for more livability through these times. Deirdre Barrett, PhD is a dream researcher at Harvard Medical School. She has written five books including *Pandemic Dreams* and *The Committee of Sleep*, and four including *Trauma and Dreams*. She is Past President of The International Association for the Study of Dreams and editor of its journal, *DREAMING*.

Is it possible to experience joy made full? This story is one of heroic recovery. Darcy's sights are firmly set on winning The National Oldtime Fiddle Contest in Weiser, Idaho. She barely gains traction with her quest when tragedy strikes.

How do I know it's God? is one of the most commonly asked questions of new and mature Christians alike, and the aim of God Conversations is to both equip and inspire the reader and show them that hearing the

voice of the Spirit is accessible to everyone who chooses to follow Jesus. Most Christians know that God speaks, yet struggle with how to recognise his voice in their everyday lives. What does God's voice sound like? How do we know if what we're hearing is from God? Stories of God talking to his people abound throughout the Bible, but we usually only get the highlights. We read; "And God said to Joseph; 'Go to Egypt'," and then; "Mary and Joseph left for Egypt." We don't get a blow-by-blow description of how God spoke. We don't receive a detailed explanation of how they knew it was God, and we don't get to see what was going on inside their heads as they acted on what they'd heard. In *God Conversations*, international speaker and pastor Tania Harris shares insights from her own journey about hearing God's voice. You'll get to eavesdrop on some contemporary conversations with God in the light of his communication with the ancient characters of the Bible. Part memoir, part teaching, this unique and creative collection of stories will help you to recognise God's voice when he speaks and how to respond when you do.

Living your dream is possible through hard work, dedication and an unrelenting will to succeed. One of his largest clients has annual revenues exceeding \$550 million with over ten thousand employees! He built his business from the ground up, taking notes and sketching his ideas on the manufacturing floor where he worked for years as an employee. The company where he last worked is now one of his valued clients. "Anything is possible," Mr. Soto says. Just keep your dream front and center and with Mr. Soto's help, you could be living your dream life, too.

Julie Flygare was on an ambitious path to success, entering law school at age 22, when narcolepsy destroyed the neurological boundaries between dreaming and reality in her brain. She faced terrifying hallucinations, paralysis and excruciating sleepiness - aspects of dream sleep taking place while wide awake. Yet, narcolepsy was a wake-up call for Julie. Her illness propelled her onto a journey she never imagined - from lying paralyzed on her apartment floor to dancing euphorically at a nightclub; from the classrooms of Harvard Medical School to the start line of the Boston Marathon. *Wide Awake and Dreaming* is a revealing first-hand account of dreams gone wrong with narcolepsy. It's the brave story of one woman trampling over barriers and finding light in the darkest of circumstances.

With the help of her best friend, Will, and the enigmatic N'tombe, Dana, the rightful heir, must claim the power of the necklace and save her people. Preservation of natural and cultural heritage is often said to be something that is done for the future, or on behalf of future generations, but the precise relationship of such practices to the future is rarely reflected upon. *Heritage Futures* draws on research undertaken over four years by an interdisciplinary, international team of 16 researchers and more than 25 partner organisations to explore the role of heritage and heritage-like practices in building future worlds. Engaging broad themes such as diversity, transformation, profusion and uncertainty, *Heritage Futures* aims to understand how a range of conservation and preservation practices across a number of countries assemble and resource different kinds of futures, and the possibilities that emerge from such collaborative research for alternative approaches to heritage in the Anthropocene. Case studies include the cryopreservation of endangered DNA in frozen zoos, nuclear waste management, seed biobanking, landscape rewilding, social history collecting, space messaging, endangered language documentation, built and natural heritage management, domestic keeping and discarding practices, and world heritage site management.

The Sweet Dream Fairy

The Ambassador of God provides exhaustive and in-depth answers to very difficult questions about our cosmic origin and the planet earth. Almost everything to do with the Sun, Moon, Stars, Water, Mars, Jupiter, Aliens... and most importantly - God About the book and author

_____ God is real. And for the first time, experimental and observable science reveals his existence. Throughout history, many have argued the existence of God, yet discussions of the Divine have been limited to the realm of philosophy and religion. But what if nature could reveal its creator? And what if science could provide compelling evidences that we have never seen before? What if the identity of the creator behind the origin of our universe can be known for certain? What if... This is what The Ambassador of God, a ground breaking look at our cosmic origin, has provided. In this probing book, difficult questions are answered. As renowned scientists and thinkers challenge the biblical narratives for our cosmic origin, The Ambassador of God uncovers the mysteries that have been hidden from human eyes. Using compelling evidences from astronomy to investigate the underpinnings of the Bible, The Ambassador of God provides a 'cosmic objective certainty' for the existence of a universal Creator. Additionally, it unveils a well of exhaustive insights that eliminates ambiguities in our understanding. How is it possible that God is one and three distinct persons, but not three Gods? Why is the earth and the human body mostly water? Who created the sun, moon and stars? What about aliens and the other solar planets? What is the mystery and purpose behind human existence and other life forms on our planet earth? Why are we here and how did we first arrive on this planet? How do we come to understand divinity in the current scheme of scientific reasoning? How do we make peace with the grand designer behind it all? Readers seeking answers to these questions (and other similar questions) will find them here. They will not find dogma. Instead, they will embark on a journey—an experimental voyage through the lens of science that reveals the mind of God. In a "show" rather than "tell" fashion and a template that's more coherent than any prevailing secular science view, we shall find who God is! Who is the Author? Olumide Sanya is a contemporary poet and writer. Beside poetry and writing, Lumi, as he is affectionately known, helps others to achieve their dreams as a life coach. Unusually drawn to books between the ages of 4 - 9, Lumi neither enjoyed reading nor read books but spent his childhood years looking for abandoned tomes that he turned into a formidable collection. Despite being a non-reader, he realised the dream of becoming a writer in his

tender years and for more than 12 years, he abandoned this dream. ...Until one day, God paid him a visit. But it didn't start there, it began with falling in love and writing poems about love and heartbreaks but that's another story for another year. "God has a sense of humor," says Lumi. "It's not hard to see that if you know my story—where I've been, where I'm at, and what God has planned for my tomorrow. What is most important to recognize is what God can do with a 'nobody' like me." The Ambassador of God, he notes, is not just about answers to large existential questions "It is also a road map that offers optimism and guidance in today's confused and increasingly complex modern world." You don't have to be a physics professor or a philosopher to understand Sanya's work. The Ambassador of God aims to open discussion and understanding at the broadest possible level. It is written for everyday people.

Hypnosis is a proven technique that allows people to reprogram their subconscious to change unwanted behaviors. But, after experiencing the care and attention men can give to each other, Todd feels awakened. Learning that each player has a special "partner" on the team, who they play and bond with as intimately as

Seven Pillars of Wisdom

Dreaming with Open Eyes examines visual symbolism in late seventeenth-century Italian opera, contextualizing the genre amid the broad ocularcentric debates emerging at the crossroads of the early modern period and the Enlightenment. Ayana O. Smith reevaluates significant aspects of the Arcadian reform aesthetic and establishes a historically informed method of opera criticism for modern scholars and interpreters. Unfolding in a narrative fashion, the text explores facets of the philosophical and literary background and concludes with close readings of text and music, using visual symbolism to create readings of gender and character in two operas: Alessandro Scarlatti's La Statira (Rome, 1690), and Carlo Francesco Pollaro's La forza della virtù (Venice, 1693). Smith's interdisciplinary approach enhances our modern perception of this rich and underexplored repertory, and will appeal to students and scholars not only of opera, but also of literature, philosophy, and visual and intellectual cultures.

Stories of How God Speaks and What Happens When You Listen

Young Adult Science Fiction Thriller

In 1967, John Eastwood was a junior engineer at Boving and Company, Ltd., a well-established London-based supplier of water turbines for hydroelectric dams. Boving had no interest in pursuing work in the "litigious" U.S. until Eastwood parlayed a

simple idea into a massive opportunity. It took curiosity, chutzpah, and overoptimism as to Boving's abilities for Eastwood to partner with a U.S. manufacturer, find a legal advisor, and make other business arrangements, often before checking in with Boving. Along the way, he developed unexpected skills and created an exciting new life.

In most cases, the higher something costs, the more value and importance people put on an item—like a house, a car, a computer, a cell phone, or in this case, a book. If I were the one to determine the sales price of my book, I would sell it for at least \$85 to \$110 to limit the number of people from reading my book. The reason is that people mostly likely will value an expensive book more than a book that is less than \$25.

Unfortunately, I am not in the position to decide the selling price of my book. To be honest, I actually don't need too many people to read my book so that it is not saturated and people who read my book will appreciate the knowledge that they receive from my book. Regardless whether people value the importance of my book or not, as far as I am concerned, the knowledge that I have written down is the backbone and the essence of my well-being today. I would not have the strength or stamina to write this book without the knowledge that I have. It enables me to go on with my life. I am more energetic and more productive now than I was before. I want to see people live a life full of vitality and energy. Did you ever find yourself lacking the drive, strength, and stamina to continue your day in the past? Do you want to get the fire, energy, power, and enjoyment back in your life? If you do, you have come to the right place. You have the energy and the potential in you. You just don't know it yet. Once you receive the knowledge, you will know it for the rest of your life.
