Patrick Dyer's eighth book in the 'at work' series takes the reader on a journey with ERF, England's last independent truck manufacturer, between the years 1975 and 1993 with the B, C, CP and E-series trucks that the Sandbach based company produced in the face of overwhelming competition from foreign manufacturers.Apart from the renowned economy, reliability and longevity of the products, the B, C, CP and E-series truck ranges were all linked by the remarkable SP cab, which combined a steel cage with bolt on SMC panels. The system was so revolutionary that ERF patented it. The low cost of design and manufacture allowed it to update and improve its cabs with each series.ERF B, C, CP & E-series at Work draws on over 200 fine photographs from the manufacturer and trucking enthusiasts, which combine with the informative text to tell the remarkable story of these ERF products through some of the most turbulent years of the company's existence.

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of The Rising Sun and Infamy. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. In Mortal Combat is comprehensive in it discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado. Hot and Smoky Shrimp Tacos, Roasted Wild Mushroom Tacos with Queso Fresco, Fire-Roasted Corn and Poblano Chile Tacos-these are a few of the most taste-tempting tacos you'll ever put in your mouth. And what to top them with-of course, it must be the perfect salsa!

To predict our future, we must look to the extremes. So argues the economist Richard Davies, who takes readers to the margins of the modern economy and beyond. These extreme economies illustrate the forces that test human resilience, drive societies to failure, and promise to shape our collective future. Reviving a foundational idea from the medical sciences, Extreme Economies turns the logic of modern economics on its head by arguing that these outlier societies can teach us more about our own than we might imagine. By adapting to circumstances unimaginable to most of us, the people in these societies are pioneering the economic infrastructure of the future.
