There have been plenty of books published about Italian motorcycles, and a few covering the café racer genre, but none has covered the evolution of the Italian sportsbike into the Italian café racer – until now. Coming from a nation with a great motorcycle racing heritage, Italian motorcycles have, unsurprisingly, always had a sporting flair. This book lifts the lid on the growing trend of custom Italian café conversions, illustrated in detail with stunning images of select sporting, racing, and café Italian motorcycles. Italian Café Racers celebrates stunning Italian bikes from all over the globe. From the old to the modern, from horizontal-singles to inline sixes, this book reveals these stylish machines in all their innovative glory. Whether you're a enthusiast, a follower of the café racer culture, or simply appreciate beautiful bikes, this book is guaranteed to interest and inspire ... see the 'café' side of Italian bikes. In this book, seasoned motorcycle restorer Ricky Burns takes you through each of the stages of real-life restorations. Aimed at enthusiasts of all abilities, from the total beginner to those with experience already, the reader is shown each stage and process in step-by-step detail, along with the techniques, tricks and tips used by experts. From choosing a project, setting up a workshop, and preparing a motorcycle, to sourcing parts, dismantling, restoring and renovating, this book is the perfect guide for the classic motorcycle restorer.

The BSA and Triumph motorcycles designed for the 1971 model year, including Ariel 3 and the 750cc Triumph Hurricane. A study of related promotional and racing events, the US organisation, and BSA's financial position prior to 1971's devastating trading loss announcement.

This book takes a look at some of the fantastic British-based custom bikes around the globe. A celebration of all things 'custom Brit,' it is the only book devoted entirely to the British custom motorcycle, revealing the innovative, fresh approach to British motorcycle-based custom bike building.

In typically hapless fashion, Turner jumps on his motorbike and sets out in search of adventure. Heading north, he aims his heavily laden Kawasaki towards the massive Øresund bridge, and passes from Copenhagen into Sweden, then onto the majestic waterfalls of Norway. Turner then determines to visit St. Petersburg, a mere 1700km east before heading back home to London, via most of Poland and a good deal of Germany.

Japanese Custom Motorcycles is the first book to show the evolution of the Japanese cruiser in the 'metric' custom scene. The growing trend of customising metric bikes into choppers, bobbers, et al – be they high-end bikes, garage-built beauties, or more recent Japanese cruisers – is superbly illustrated with examples from all over the world. Featuring owner's stories and technical descriptions, Japanese Custom Motorcycles is guaranteed to interest metric bike fans and members of the custom scene alike. From singles, twins, triples, fours, and sixes – see the custom side of Japanese motorcycles.

Ducati stunned the world in 1988 when the struggling, small Italian firm unleashed its Desmoquattro -- 8-valve, desmodromic -- Superbike. The bike found success on the world's racetracks right from the start. Road-going versions soon carried that success to the general public, proving this design wasn't just another noisy prototype. The Superbikes -- 748, 851, 888, 916, and 996 -- are now Ducati's best-selling machines in the United States; and the Desmoquattro engine found its way into the company's more pedestrian series such as the Monster roadster and ST4 sport-tour. This is the comprehensive volume on Ducati's ultimate performance motorcycles and replaces the out-of-print Ducati Super Bikes: 851, 888, 916.

The 2007 centenary of the Isle of Man Tourist Trophy launched the TT into a new era of success. In this book, Charlie Lambert – Manx Radio TT's lead commentator – tells the story of this sensational upturn, from his own role behind the microphone, to the pressures, controversies, laughs and sadness that go with being the man at the heart of the world's most famous motorcycle road race.

Eighteen million Vespas have buzzed their way into the world since 1946. Stood end to end, they would form a line measuring 32,000 kilometres – 20,000 miles – in length. This is an almost inconceivable statistic, as with many things that transcend conventional measures and at some point achieve cult status. How did the little machine come so far? The answer is simple. The Vespa has always remained the Vespa, true to itself, and has what others lack: real character! This book tells the Vespa's story via over 470 photos, corrects many misconceptions and lets the reader become immersed in the culture of Vespa and la bella vita.

Whether a CX500, luxurious CS650 Silver Wing, or CX650 Turbo, this book provides a step-by-step guide to a full restoration. From dismantling, sourcing and restoring parts, to spray painting, decals and polishing. From the rebuild itself, to general maintenance and riding safety, this is the only restoration manual you'll need.

Having this book in your pocket is like having a real marque expert by your side. Benefit from the author's years of Desmoquattro ownership experience, learn how to spot a bad bike quickly, and how to assess a promising one like a professional. Get the right bike at the right price!

Popular motorcycle journalist and author Mark Zimmerman brings a comfortable, conversational tone to his easy-to-understand explanations of how motorcycles work and how to maintain them and fix them when they don't. This practical tutorial covers all brands and styles of bikes, making it a perfect companion to the owner's service manual whether you need to use the step-by-step instructions for basic maintenance techniques to wrench on your bike yourself or just want to learn enough to become an informed customer at your local motorcycle service department. This book includes more than 500 color photos and a thorough index to make it an especially user-friendly reference for home motorcycle mechanics of all skill levels.

An in-depth look at one of the world's greatest scooter marques, including detailed information on the main Italian-built models, the Lambretta Concessionaires machines and British dealer specials.

The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

Even 30 years after his death, Steve McQueen remains an icon of cool. His image continues to appear in advertising and pop culture, and car, motorcycle, and racing fans embrace him as one of their own. Now comes this volume featuring rare photography and chronicling McQueen's fascination with and passion for all things internal-combustion powered. McQueen's movie characters always had a great motorcycle or car—from the 650cc "BMW" motorcycle (a disguised Triumph) in The Great Escape (1963) to the Gulf Porsche 917 race car he raced in Le Mans (1971). His need for speed propelled him from Hollywood into a number of top off-road motorcycle races, including the Baja 1000, Mint 400, and Elnisore Grand Prix. Determined to be ahead of the pack, McQueen trained vigorously, weight lifting, running, and studying martial arts. Steve McQueen A Passion for Speed reflects a life lived in the moment and with the pedal to the metal.
