

Earik Beann The Unified Theory Of Markets Complete Set

It also provides a detailed examination of the personality traits common to the three basic types of trader - trend-following (long to intermediate term), mean reversion (intermediate-term), and short-term (swing and day traders) - and illustrates how a strict adherence to specific types of trading systems can foster a psychological flexibility that will allow you to succeed in all kinds of trading environments: countertrending, choppy, or trending."--Jacket.

*If you have ever wanted to learn how to trade y the stars, but did not know where to start, this book is for you. Pesavento begins at the very beginning by teaching the basics of astrology. He includes the basic definitions and explanations of the planetary movements. Included in the topics covered are explanations of the Zodiac and its relationship to the signs and houses, eclipses, equinoxes and solstices as well as Lunar phenomena. After thoroughly educating the reader in these principles, this book teaches the application of these planetary cycles to financial markets with copious charted illustrations. Covers entry, timing and danger signals. Learn about * use of astrocycles in your trading * history of astro-economics * astro-cycle harmonics for gold, bonds, stocks, lunar cycles, and * key turning points pinpointed 2 years in advance.*

I SUBMIT TO YOU THAT THE PYRAPOINT SYSTEM IS THE PRINCIPLE WHICH W.D. GANN USED. We can prove it, I feel. But if you will accept our point, we intend to spend our time with "hands-on" proof so that WE CAN LEARN THE TRUE AND FULL POTENTIAL OF THE SYSTEM. THIS IS WHY WE GO TO A SEMINAR AND WHY WE STUDY THIS MANUAL.

Incidentally, we should have no copyright infringements because, to our knowledge and research, Mr. Gann never taught this in any of his seminars. I had the privilege to personally know, for some seven years, Gann's assistant, Mr. Renato Alghini. "Reno" was with Gann for six years, actually sharing close trading desks. Reno confirmed the extremely private personality of his friend, shown in most of Gann's writings and seminars. Reno passed away a few years ago. However, during the author's years of acquaintance with him, he shared a few facts that made the direction of our efforts truly appear validated. One of the confirmation factors seemed especially worthwhile in the revelation that Gann carried a small paper in hand when in the "pit" for his most successfully recorded trades. This paper, Reno related, was a miniature Pythagorean Cube. One more reason to believe that we had to unravel this mystic marvel -- and that we were on the right track for trading understanding. Mr. Gann died in 1956. It is significant to note that a favorite statement of Gann serves us well when we state that we believe that EVERY TOP AND EVERY BOTTOM in the markets have CALCULABLE counterpart -- a formula for projections and targets for both PRICE and for TIME. His quotes included that of the noted mathematician Faraday. Mr. Gann said, "If we wish to avert failure in speculation, we must deal with causes. Everything in existence is based on exact proportion and perfect relationship. There is no chance in nature, because mathematical principles of the highest order lie at the foundation of all things. Faraday said. There is nothing in the Universe but mathematical points of force.

The tools in The Handbook of Market Esoterica have taken years to develop, and represent an entirely new way of looking at markets. This is an advanced course in market forecasting, and after the completion of it you will have at your fingertips an incredibly powerful set of tools for locating market tops and bottoms that will serve you well for the rest of your trading career. The price of this course is a steal at only \$495, and you can purchase it by clicking the link below. All purchasers will gain access to a members-only bulletin board, where they may interact with the author and other users of this material. This manual will be released in very limited supplies, and will not be available forever. We reserve the right to increase the price or discontinue sales at any time. Act now and order your copy of the handbook by clicking on the link below!

Stylistics has become the most common name for a discipline which at various times has been termed 'literary linguistics', 'rhetoric', 'poetics', 'literary philology' and 'close textual reading'. This Handbook is the definitive account of the field, drawing on linguistics and related subject areas such as psychology, sociology, anthropology, educational pedagogy, computational methods, literary criticism and critical theory. Placing stylistics in its intellectual and international context, each chapter includes a detailed illustrative example and case study of stylistic practice, with arguments and methods open to examination, replication and constructive critical discussion. As an accessible guide to the theory and practice of stylistics, it will equip the reader with a clear understanding of the ethos and principles of the discipline, as well as with the capacity and confidence to engage in stylistic analysis.

Unlocking The Gift of Discernment

Learn the successful strategies behind hedge fund investing Hedge funds and hedge fund trading strategies have long been popular in the financial community because of their flexibility, aggressiveness, and creativity. Trade Like a Hedge Fund capitalizes on this phenomenon and builds on it by bringing fresh and practical ideas to the trading table. This book shares 20 uncorrelated trading strategies and techniques that will enable readers to trade and invest like never before. With detailed examples and up-to-the-minute trading advice, Trade Like a Hedge Fund is a unique book that will help readers increase the value of their portfolios, while decreasing risk. James Altucher (New York, NY) is a partner at Subway Capital, a hedge fund focused on special arbitrage situations, and short-term statistically based strategies. Previously, he was a partner with technology venture capital firm 212 Ventures and was CEO and founder of Vaultus, a wireless and software company.

Are you sensitive to what is taking place in the spiritual realm? Have you ever been adversely affected by a negative atmosphere? You may have the spiritual gift of discernment. The gift of discernment of spirits is a powerful weapon in times of spiritual warfare, and can be of great assistance in prayer, and when ministering freedom to individuals. And yet many who have the gift of discernment have difficulty knowing what to do with what they are feeling or sensing. If you can relate to this, in this powerful 121-page booklet you will learn some straightforward principles to help you grow in your gift of discernment, overcome fear and spiritual attack, and exercise your gift in church life. In 'Unlocking the Gift of Discernment', you will discover: —Signs that you may have a discernment gift —How the highest use of discernment is to perceive what the Holy Spirit is doing —Ways that you can develop your gift —Keys to exercising the gift of discernment in church life —How to protect yourself from the negative effects than many discerners experience —How to overcome spiritual attack —And much more! In 'Unlocking Your Gift Of Discernment,' Helen shares practical insights that she has learned from her personal journey as a discerner and a prayer leader. This book is a powerful and essential tool to help you grow and use your gift of discernment.

Chapter List: 1. Introducing the Spiritual Gift of Discernment 2. Signs You may have the Gift of Discernment 3. Your Heart as a Discerner 4. How to Grow Your Gift of Discernment 5. Ministry Areas that Benefit from the Discernment Gift 6. Tips on Exercising Discernment in Church Life 7. Focus on the Spirit, Feed on God's Word 8. Freedom from Fear of Evil 9. Protection for the Discerner 10. How to Overcome Spiritual Attack 11. Encounter God's Glory

Sam never knew his parents. In fact, he's never met another human--or seen a sunrise, smelled a flower, or eaten a regular meal. All of that is about to change. It's night in the desert, but he doesn't feel the cold. The sky is clear, and the stars twinkle at him. He has never seen the sky from Earth before. Everything looks so strange. So . . . alien. He shakes his head in wonderment and laughs. He can't stop smiling. This is Earth! There is a building ahead. Other people will be inside. His heart skips a beat as he takes a step forward, the rocks crunching under his bare feet. He has dreamed of this moment for as long as he can remember. But that which can be found can just as easily be lost again. It would have been better had Sam's arrival gone unnoticed. But the artificial life form known only as the Authority is not one to miss such things. Nearly as old as time, and almost as powerful, the Authority was built by an ancient civilization as both an enforcer and a war machine, the destroyer of worlds. It has been watching Sam his entire life. Watching, and waiting, and judging. And now, it has decided that it's time to act.

Using the insights that stem from value charts and price action profiles, Dynamic Trading Indicators shows traders how to develop systems and whole trading programs that implement these exciting new tools. Through an in-depth exploration of how to effectively use these new technical indicators in a complete trading system, Dynamic Trading Indicators provides a framework that allows readers to obtain a view of what a stock will most likely do next. This innovation in chart design opens up new vistas for traders and unlocks the door to unlimited profits. New technology and the advent of around the clock trading have opened the floodgates to both foreign and domestic markets.

Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered--some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future. Mark W. Helweg has worked and traded on the floor of the Chicago Board of Trade and, earlier in his career, partnered with an international CTA with over \$40 million under management to research new trading system technology. David C. Stendahl is cofounder of RINA Systems, a software provider for systematic traders. Stendahl is the author of Profit Strategies: Unlocking Trading Performance with Money Management.

Ascend: The Catholic Faith for a New Generation is a contemporary, scripture-rich, and dramatically visual exploration of the Catholic faith for young adults. With its engaging style, full-color graphics, and interesting sidebar articles, Ascend covers the basics of Christianity from a viewpoint that is Catholic yet ecumenically minded. There are chapter profiles on Christian role models from both ancient and modern times, and informative discussions of contemporary events from a Christian perspective. Discussion questions and book recommendations are included for each chapter; there is also an extensive glossary. Though oriented to young adults, Ascend provides an overview of Christianity that will appeal to all ages, Christians and non-Christians alike. "Finally something for young adult Catholics that actually speaks their language--blunt, personal, authentic and visual. Ascend's groundbreaking new way of presenting simple Gospel truths is a bold new invitation to the faith addressed directly to the future of the church." --James Martin, S.J., author, My Life with the Saints

A first-person account of how nine people snuck back into a mandatory evacuation zone to save their neighborhood from fires and looting during the October 2017 firestorm in California.

Playing for Keeps in Stocks and Futures offers traders three winning strategies for trading stocks and futures under any market condition and within any timeframe--from one minute to one month. Tom Bierovic details his newly developed trading strategies--First Prize, R2D2, and Triple Play--and shows you how to integrate them with various technical indicators and analytical techniques to create low-risk, high-reward trading opportunities. Bierovic clearly explains the development of each system, lists the rules, and provides real-world examples from a wide variety of stocks and futures in several timeframes to illustrate how and why each strategy works so well. With these lessons, you'll quickly learn how to use Bierovic's original strategies to enter, manage, and exit your trades profitably. This complete guide to stock and futures trading opens with a brief introduction to price swings, impulse waves, corrective waves, and critical points and explains how the extreme and continuous variation in the duration and magnitude of price swings makes it possible for traders to speculate profitably. It also reveals the three components of a complete trading strategy--setups, entries, and exits--and how you should use them when trading with First Prize, R2D2, or Triple Play. Before entering into an in-depth discussion of these three winning trading strategies, Playing for Keeps in Stocks and Futures explains the tools used in them including: breakouts to new highs and lows, directional movement index spread (DMI spread), exponential moving averages (EMAs), Fibonacci retracement zones, Japanese candlestick charts, moving average convergence-divergence (MACD), parabolic stops, trendlines, true range and average true range (ATR). In explaining his three new trading strategies--First Prize, R2D2, and Triple Play--Bierovic breaks down each strategy into its setup, entry, and exit components and illustrates how to implement each strategy through charts, graphs, and vivid examples from both the stock and futures markets. Most importantly, you'll learn the unique qualities of each strategy and understand how the three strategies taken together can profit in any market conditions. (First Prize trades first pullbacks; R2D2 trades subsequent pullbacks; Triple Play trades trend reversals.) Take advantage of the tremendous opportunities offered to you by trading with First Prize, R2D2, and Triple Play. With these three strategies in your trading arsenal, you too will soon be playing for keeps in stocks and futures. Tom Bierovic, President of the Synergy Trading Group, has been trading stocks and futures successfully since 1971. Tom is also a popular and respected speaker: he has presented highly rated seminars on technical analysis and trading at major conferences throughout the United States and in more than 40 countries on six continents. Futures magazine, Futures World News, and Technical Analysis of Stock & Commodities magazine have all published in-depth interviews with Tom, and he is featured in the book Real People, Real Traders by Ruggiero and Toghraie. For information on products and services offered by the Synergy Trading Group, you can contact Tom by e-mail at tbierovic@aol.com.

What is God saying to us TODAY? What does He want to tell the NEXT GENERATION? In The Prophetic Advantage Michelle McClain-Walters delivered a practical, comprehensive, and balanced look at the role of prophetic ministry in today's world. Now this complementing study guide is the perfect companion to take these teachings deeper and allow God to use them to transform your life and cultivate the prophetic gift He has placed inside you. We will not see breakthrough in our jobs, churches, families, financial situations, health, and homes without the prophetic advantage. Win bets on sporting events using the prediction system of Vedic Astrology • Describes the basics of Vedic Astrology and how it can be applied to sports betting • Outlines 5 powerful techniques for predicting

the outcome of any one-on-one competition • Details how to determine the physical strength of each side, whose motivation and drive to win is strongest, and who has fate on their side Everything that is born, which has a lifespan and an ending, is a space-time event. That includes contests as well as human beings. And just as your personal astrological chart can describe success or failure in various areas of your life, so too can a contest chart created from the time, date, and location of an event show us winners and losers of one-on-one competitions. Drawing on traditional Vedic Astrology as well as his own research and winning experience, Simon Chokoisky outlines 5 powerful techniques for predicting the outcome of any competition between two opponents with 70–80 percent accuracy. He explains how sports betting offers black-and-white outcomes and you do not have to be an advanced astrologer to understand the principles in this book or to apply them to daily life. Using examples from his bets in the World Cup and baseball, the author shows how to judge the favorite and determine the underdog's chances by looking into the body, mind, and soul of a team and its players. He details how to use the planets to determine the physical strength of each side and whose motivation, mental toughness, and drive to win is strongest as well as the more subtle spiritual nature of each team--who is luckier and who has fate on their side. He details how he used these simple principles to win hundreds of bets and how he now uses them to fund charitable causes. Including personal stories of his experiences with grace, beginner's luck, and the Vedic philosophy of karma and dharma, Chokoisky demonstrates how the planets and stars relate not only to our sports competitions but also our individual lives. He shows us how the astrologer must become part of the prediction, how a bad day can mean bad luck, and how to ride the wave of good fortune by avoiding specific days that are ill-disposed to betting. Chokoisky explains that one way to remain in the good graces of the gods is to donate a portion of your winnings to charity. He describes how right conduct is essential to continue profiting from this technique and how your own karma and dharma can indicate how to approach gambling as well as how to use your winnings.

The first modern, comprehensive resource on spiritual awakenings, this pragmatic, clear guide covers everything from the first step on a spiritual journey to enlightenment, and the different types of spiritual awakenings, from mild to dramatic, we may go through. Using the concept of the twelve layers that cover an awakened state Mary Mueller Shutan addresses every step of the spiritual journey, starting with the Self and showing how family, ancestral, past lives, karmic, archetypal, and other larger layers such as societal, cultural, global, and cosmic energies condition us to sleep and obscure our realization of an awakened state. Instructions for how to navigate through each of these layers and how to recognize where we are in our spiritual journey are included each step of the way along with common physical, emotional, and spiritual symptoms that may be experienced. By addressing post-awakening states, oneness, dark nights of the soul, ego death, near-death and severe illness, psychic abilities, addictions, dietary changes, the God self, personal and collective shadow, and psychosis vs. awakening we understand the experiences we may go through while struggling with spiritual awakenings. This practical book opens new understandings of how to live in the world while going through an awakening process, and offers the revolutionary idea that we are meant to be humans, to have a physical body with physical, sensate experiences and emotions. We are meant to live in the world and be a part of it even as fully awakened individuals. This guide proposes a look at the possibility of leading a grounded, earth-bound life of work, family, friends, and other experiences in an awakened state.

Strategies, tools, and solutions for minimizing risk and volatility in option trading An intermediate level trading book, The Option Trader Handbook, Second Edition provides serious traders with strategies for managing and adjusting their market positions. This Second Edition features new material on implied volatility; Delta and Theta, and how these measures can be used to make better trading decisions. The book presents the art of making trade adjustments in a logical sequence, starting with long and short stock positions; moving on to basic put and call positions; and finally discussing option spreads and combinations. Covers different types of underlying positions and discusses all the possible adjustments that can be made to that position Offers important insights into more complex option spreads and combinations A timely book for today's volatile markets Intended for both stock and option traders, this book will help you improve your overall trading skills and performance.

Who knew a trip to the therapist could be so much fun, even aesthetically rewarding? Beyond sharing feelings or complaining about your mother, Psychobook reveals the rich history of psychological testing in a fascinating sideways look at classic testing methods, from word-association games to inkblots to personality tests. Psychobook includes never-before-seen content from long-hidden archives, as well as reimagined tests from contemporary artists and writers, to try out yourself, at home or at parties. A great ebook for the therapist in your life and the therapist in you, for anyone interested in the history of psychology and psychological paraphernalia, or for anyone who enjoys games and quizzes. Psychobook will brighten your day and outlook.

Three Top Trading Strategies That Consistently Beat the Markets

Expert advice in a back-to-basics handbook on how to beat the market-the classic way In Investment Psychology Explained Martin J. Pring, one of the most respected independent investment advisors in the world, argues that in the revisionist '90s there are no quick, magical paths to market success. Rather, he emphasizes the timeless values of hard work, patience, and self-discipline-and much more. Drawing on the wisdom of creative investors such as Jesse Livermore, Humphrey Neill, and Barnard Baruch, as well as his own experience, Pring shows how to: * Overcome emotional and psychological impediments that distort decision making * Map out an independent investment plan-and stick to it * Know when to buck herd opinion-and "go contrarian" * Dispense with the myths and delusions that drag down other investors * Resist the fads and so-called experts whose siren call to success can lead to disaster * Exploit fast-breaking news events that rock the market * Deal skillfully with brokers and money managers * Learn and understand the rules that separate the truly great investors and traders from the rest Reading Investment Psychology Explained will give you a renewed appreciation of the classic trading principles that, through bull and bear markets, have worked time and again. You'll see, with the help of numerous illustrative examples, what goes into making an effective investor-and how you can work toward achieving that successful profile.

Gives comprehensive guidance in the use of RSI, a mainstream technical indicator which is in virtually every technical analysis software package. Properly understood and utilized, it can be a powerful tool to help you time and select trades.

Dynamic Cycles, a Dynamic Approach to Identify and Trade Cycles That Influence Financial Markets

Decoding the Hidden Market Rhythm

Trading Strategies for Trending and Range-Bound Markets

The Complete Guide

A powerful new way to navigate today's unprecedented market conditions "Bill Williams' pioneering application of chaos theory to the financial markets is leading technical analysis into the twenty-first century and beyond. New Trading Dimensions presents a complete, highly original, and intriguing trading method with clear, detailed illustrations, and challenging practice pages. Bill's wisdom, technical expertise, and skillful teaching style make this a revolutionary must-have new book for stock and commodity traders." -Tom Bierovic, Product Manager for User Education, Omega Research, Inc. "Bill hits the nail on the head. The essence of successful trading is a combination of knowing who you are and allowing the market to reveal its secrets. Bill Williams has the gift of explaining these concepts better than anyone I know. This is a compelling work that belongs in every trader's library." -George Angell, author, Profitable Day-Trading with Precision "Bill Williams is one of the great educators of our time. He freely shares his knowledge and experience in this inexpensive book. This book is required reading for all market technicians. The principles are sound as we have tested them with our software." -John Hill, President, Futures Truth, Co. "Bill Williams has always been an excellent teacher, taking complex terms and concepts and translating them into a clear, commonsense approach to trading. This book provides a complete trading program that reflects Bill's years of wisdom and experience in the marketplace." -Darrell Jobman, Editorial Consultant and former Editor-in-Chief of Futures magazine As today's market environment continues to change dramatically, more and more traders are discovering that traditional forecasting methods-pure technical analysis and fundamental analysis-just do not work. Sending out contradictory messages, these opposing schools of thought leave investors baffled about the future direction of the market, and consequently, at a loss as to how to tailor their trading systems. As a result, many practitioners have now turned to a new forecasting "cocktail" that combines traditional charting methodologies with chaos theory and human psychology. In this groundbreaking book, Bill Williams, a seasoned trader at the forefront of this dynamic new approach, explains exactly what it is, how it works in current stock and commodity markets, and how to use it to your advantage. Based on human nature rather than the vagaries of the market, the new trading dimension works on the premise that we trade not the market, but our own belief system. By assessing what your personal biases are, you can determine how they influence your ultimate success-or failure-and then adjust your trading strategies accordingly. Written by an expert in the field who has been featured in Futures, Worth, Success, and other prominent publications, New Trading Dimensions takes the latest in scientific knowledge about human behavior and applies it directly to the fields of stock and commodity investing and trading. With straightforward guidelines, it shows you how to adopt the right attitude toward the behavior of the market and use the right tools (ATTITOLS) for profitable trading. Packed with practice exercises, specific applications to different types of investments, and a detailed review of important market signals, here's where you'll learn how to: * Discover what the market wants and align your own beliefs with the direction of the market * Apply chaos theory to trading and investing * Use Williams' "Market Alligator" for analyzing and profiting from the markets * Employ a multidimensional trading program that includes such tools and techniques as fractals, oscillators, AC signals, psychological zones, and balance lines * Exit trades in a timely fashion to reap high returns Drawing on the author's more than forty years of experience as both a successful trader and seasoned trainer, this invaluable guide offers a breakthrough method that has proven its ability to turn investors into consistent winners.

The Unified Theory of MarketsAka "Big Bertha"Mechanical Trading SystemsThe Fibonacci Vortex HandbookUnlocking The Gift of DiscernmentDavid McCracken Ministries

Provides students with all the tools they need to pass the typical Quantitative Methods course. This title includes chapters that focus on a selection of statistical techniques, illustrated with examples from across business, marketing, economics, finance, and public administration, that may appeal to students across the business spectrum.

Only someone who is both a successful trader and a successful writer could pull off what Constance Brown has accomplished in this book: distilling Fibonacci analysis to two hundred or so comprehensive, clearly written, eminently practical pages. Brown knows exactly what a professional trying to come up to speed on a new trading tool needs and she provides it, covering what Fibonacci analysis is, how it works, where it comes from, pitfalls and dangers, and, of course, how to use it. Basic trading strategies are touched upon in virtually every chapter.

Fibonacci analysis is one of the most popular technical analysis tools, yet it is often used incorrectly. Brown quickly clears up common misconceptions and moves on to show, step by step, the correct way to apply the technique in any market. Those with Fibonacci analysis software will learn how to use it with maximum effectiveness; those without will chart the market the old-fashioned way. All will find answers to the trader's most important questions: Where is the market going? At what level should my stop be entered? Based on the size of my trading account, how much should I leverage into a trading position? Can I tell if I am in trouble before my stop is hit? How much should I buy or sell if given a second or third opportunity?

Occasional references to other tools--including Elliott Wave, W.D. Gann, and candlestick charts--and an extensive bibliography make this book richer for accomplished technical analysts without confounding the less experienced. Plentiful real-life examples and dozens of carefully annotated charts insure every reader will get maximum value from every minute spent with this book. Sentiment Indicators

Course Workbook

In this book, a hedge fund manager and an option trading coach show you how to earn steady, reliable income selling options by managing your option trades and running your option portfolio as a real business with consistent, steady returns. Packed with real-world examples, the authors show you how to manage your own "one man" hedge fund and make consistent profits from selling options by applying the basic framework and fundamental business model and principles of an "insurance company". This framework helps you to apply your option trading strategy to a solid, predictable, business model with consistent returns. For someone who has some knowledge of trading options and wants to become a consistent income earner. The authors provide a complete "operations manual" for setting up your business. Gain pearls of wisdom from both a professional options trader and coach, and from a hedge fund manager focused on managing an options based portfolio.

A practical guide to profiting from the proper use of sentiment indicators In Sentiment Indicators, noted trading expert Abe Cofnas draws on his own trading and training experience as he shares his knowledge about the latest techniques and strategies for using Renko, price break, Kagi, and point and figure tools to successfully analyze all markets. Written with the serious trader in mind, Sentiment Indicators offers key information on these potential-filled tools and how to use each in shaping trading strategies. Along the way, it provides a practical overview of how to implement these little-known indicators and why each can enhance your trading endeavors. Shows how these indicators work in different markets: futures, equities, forex, and others Provides a solid understanding of charting techniques and uses real-world examples to illustrate strategies and tactics Presents new sentiment research that analyzes word mining and what it means for markets From historical context and Robot Trading alerts to the critical factors of a trading system, Sentiment Indicators presents a proven approach to trading that will help you identify conditions that have a high probability of profit.

Have you ever dreamed that you could prophesy, or pray for the sick and see them healed? Grow Your Prophetic And Prayer Gifts is filled with practical tips, inspiration and advice to assist you in developing your spiritual gifts, including prophecy, healing, intercession and discernment. In Grow Your Prophetic And Prayer Gifts, you will discover the six phases of development of prophetic and prayer gifts from desire and birth through to maturity. Learn how to: Identify the season you are currently in for each of your gifts, including a season of wilderness and trial. Find out how to break through to the next level Maximise opportunities in the current stage of growth in your spiritual gift Navigate the challenges and joys unique to the growth of prophetic and prayer gifts Each chapter includes questions for personal reflection and group discussion. This book includes practical tools and the information you need to develop a plan for the next stage of growth in your spiritual gift. (124 pages. Available for download in PDF)

While most books on trading deal with general concepts and shy away from specifics, Forex Patterns and Probabilities provides you with real-world strategies and a rare sense of clarity about the specific mechanics of currency trading. Leading trading educator Ed Ponsi will explain the driving forces in the currency markets and will provide strategies to enter, exit, and manage successful trades. Dozens of chart examples and explanations will guide you each step of the way and allow the reader to "look over the shoulder" of a professional trader hard at work at his craft. This book provides traders with step-by-step methodologies that are based on real market tendencies. The strategies in this book are presented clearly and in detail, so that anyone who wishes to can learn how to trade like a professional. It is written in a style that is easy to understand, so that the reader can quickly learn and use the techniques provided.
