

dignity. I thought about law-abiding citizens and wondered what I could do to earn their forgiveness for the bad decisions I had made during a reckless transition between adolescence and adulthood. Those thoughts led to a three-part plan: I would work to educate myself, I would work to contribute to society, and I would work to build a support network that would have a vested interest in my success upon release. By embarking upon the first prong of the strategy and sticking with it, I earned a bachelor of arts degree from Mercer University and a master's degree from Hofstra University. For the second prong of the strategy, I wrote numerous books to help others understand prisons: the people they hold, how they work, and strategies for growing through confinement. With regard to the third prong, I worked every day to build a support network that would help me succeed upon release as a law-abiding, contributing citizen. To build my support network, I created a document that I called "my portfolio." It was a binder that included copies of my degrees and letters of recommendation that I asked my professors to write on my behalf. Whenever I read of someone whom I thought might have an interest in my work, I reached out by sending a letter and a copy of my portfolio. For every 100 letters I wrote, I received one or two responses. Some of those people were distinguished scholars who wrote extensively about the prison system. People like Norval Morris, from The University of Chicago, John Dilulio, from Princeton, and Joan Petersilia, from Stanford Law School. They became mentors to me, opening numerous opportunities that few would think possible for a man serving a lengthy prison term. It worked so well that I met the love of my life, Carole, while serving a quarter century in prison. We married in a prison visiting room and nurtured our marriage through my final decade of imprisonment. Using blank pages of paper, I drafted a design for a website that I wanted Carole to build. The purpose of the site was to help others understand prisons, the people they hold, and strategies for growing through confinement. I wanted to document my journey, to show others the values-based, goal-oriented approach I took to the adversity of my life. I wanted others to see that with deliberate action steps, an individual could triumph over his environment. Efforts that Carole and I made to live transparently, using the Internet to memorialize our journey, helped to broaden my support network and opened opportunities that I could leverage upon my release. They enabled me to earn an inner freedom, even if I remained in prison. On August 13, 2012, Carole picked me up from prison and drove me to a halfway house in San Francisco. This book tells the story of my journey. The context of my story may be prison, but my message is decidedly human, as we all face adversity of one kind or another. Mine is a message of hope, perseverance, and deliberate action. It shows that regardless of what challenges an individual or business faces today, that individual can set a principled plan to overcome those challenges. That is the essential message of EARNING FREEDOM.

A profound rumination on the concept of freedom from the New York Times bestselling author of Tribe Throughout history, humans have been driven by the quest for two cherished ideals: community and freedom. The two don't coexist easily: we value individuality and self-reliance yet are utterly dependent on community for our most basic needs. In this intricately crafted and thought-provoking book, Sebastian Junger examines the tension that lies at the heart of what it means to be human. For much of a year, Junger and three friends—a conflict photographer and two Afghan war vets—walk the railroad lines of the east coast of the United States. It is an experiment in personal autonomy, but also in interdependence. Dodging railroad cops, sleeping under bridges, cooking over fires and drinking from creeks and rivers, the four men forge a unique reliance on one another. In Freedom, Junger weaves his account of this journey with other topics: primatology and boxing strategy, the history of labour strikes and Apache renegades, the role of women in resistance movements, and the brutal reality of life on the Pennsylvania frontier. Written in exquisite, razor-sharp prose, the result is a powerful examination of the primary desire that defines us.

A unique prison narrative that testifies to the power of books to transform a young man's life At the age of sixteen, R. Dwayne Betts—a good student from a lower- middle-class family-carjacked a man with a friend. He had never held a gun before, but within a matter of minutes he had committed six felonies. In Virginia, carjacking is a "certifiable" offense, meaning that Betts would be treated as an adult under state law. A bright young kid, he served his nine-year sentence as part of the adult population in some of the worst prisons in the state. A Question of Freedom chronicles Betts's years in prison, reflecting back on his crime and looking ahead to how his experiences and the books he discovered while incarcerated would define him. Utterly alone, Betts confronts profound questions about violence, freedom, crime, race, and the justice system. Confined by cinder-block walls and barbed wire, he discovers the power of language through books, poetry, and his own pen. Above all, A Question of Freedom is about a quest for identity—one that guarantees Betts's survival in a hostile environment and that incorporates an understanding of how his own past led to the moment of his crime.
