Family Magic I and II

Requiring No Preparation, No Sleight-of-hand No Skill

This is a collection of professional level card tricks that are extremely easy to do. They require no sleight of hand nor moves to be practiced and remembered. These are tricks that some professional magicians use and that fool basically everyone, including magicians. There exist many easy-to-do card tricks and many professional quality card tricks, but there are very, very few card tricks that are both. It took the author decades to find, assemble, and field test this collection. In addition, tricks were chosen that people find fun and amazing. Volunteers are involved in doing tricks, often as co-magicians. This makes the magic much more entertaining and memorable. Storylines are provided to enhance the experience. FOR THE NOVICE For people new to card magic, everything needed is clearly and simply explained. No prior knowledge or skills are required. You will learn step-by-step what to do. You will quickly learn to

do very good card tricks. You will be given sample storylines for many tricks to help you get started. You will be given basic suggestions for card magic in general, and for the tricks in the booklet. FOR INTERMEDIATE AND ADVANCED CARD MAGICIANS You may recognize some of the tricks and principles of magic, and will profit from the variations and different presentations. You will definitely encounter, perhaps to your surprise, many tricks you have never heard of. It is almost certain that you will find tricks to add to your repertoire. You will learn some largely unknown principles of card magic, including use of an alternating deck and use of a reversed deck. Clearly explained is the Gilbreath principle which is the basis for many card and mentalism tricks. Currently, there is a lot of confusion and misunderstanding about this principle. CONTENTS The first chapter gives an overview of the basic approach of the magic. Each of the next ten chapters either focuses on a specific trick and its variations, or focuses on a general principle of card magic with tricks based on this principle. Counting variations, over two dozen tricks are described. For many of the tricks a detailed storyline is provided, what you might say and do during your presentation to make the trick more involving and entertaining. These storylines can be used as is, as ideas for your own storylines, or not at all. The last chapter contains a discussion of some recommended trick decks. Included are general suggestions for use of these decks plus good tricks with the decks. The booklet also contains the history of many of the tricks, various facts from the world of magic, suggestions for presentations, and resources to learn more. THE AUTHOR William L. Mikulas, Ph.D. is a Professor Emeritus of Psychology at the University of West Florida. As a professor he regularly uses magic in his classes and workshops. As a psychologist he brings in important psychological components to many tricks and to the overall approach. And, as an award-winning teacher and writer, he makes this booklet easy to read and understand. The world of magic is shrouded in mystery...until now! Little Giant ♦ Encyclopedia: Card & Magic Tricks reveals some of the basic secrets of conjuring and illusion. It begins with 30 pages of card handling methods that any beginner will find worthwhile. The magical card section features 83 mathematical tricks using special props and novelties, and you'll also find 66 magical sleights of hand using coins, silks and handkerchiefs, string, rope, and paper. But until now, learning it has never been easy—that's all about to change with Magic, a book that does for close-up magic what How to Grill does for barbecue. Written by charismatic young magician Joshua Jay, Magic combines expertise, photographs, and step-by-step directions showing how to perform 100 tricks. Joshua Jay took home the top prize at the World Magic Seminar (the Olympics of magic) when he was just 16 years old. Now he continues to perform magic, write about magic, eat, sleep, and breathe magic. Here, he brings all his passion and knowledge to teaching magic. Each trick is broken down into the Effect, the Secret, the Set-up, and, most important, the Performance, with lessons on what to say, how to direct the audience's attention, where to keep your hands, and so on. (In other words, how to be smart about the things your audience is surprisingly clueless about.) Here are the Ten Greatest Card Tricks; tricks to dazzle a dinner date; tricks to perform for the boss (poke a hole through his shirt, then magically mend it); tricks especially for kids; and even tricks for an audience in another state—with "Australian Self-Help," you can find a participant's chosen card over the phone. It's the Aha! book for a subject whose time has come.
