

## Ecdl Syllabus 5 0 Windows Vista Office 2007

"The ECDL Advanced" series is about helping people to take full advantage of the broad capabilities of different applications. On completion of the programme, candidates will be certified as experts in the use of these applications.

Covers all modules of the ECDL qualification and all of the underpinning knowledge your students need to complete their assessment.

Screenshots and illustrations using Office 2003 bring the theory to life, making learning easy. Skills practice throughout helps students consolidate what they have learnt. Practice material at the end of each module prepares students for the ECDL assessment. A CD-ROM with the book contains recalled text to save keying-in time, and answers to the exercises in the books.

computer.

New edition of this bestselling, ICS-approved textbook covering all seven modules of the ECDL 5 syllabus. Uses a combination of Microsoft Office 2010 suite of applications with Internet Explorer 8 and Windows Live Mail on the Microsoft Windows 7 operating system platform. Book and work files are also suitable for users of Microsoft Office 2007 suite of applications. Taking a comprehensive yet practical approach, images and screen grabs are used to explain concepts in a step-by-step manner. Clearly defined goals, support exercises and retention exercises are provided throughout the text. WRITTEN FOR: Students taking ECDL 5 modules

Ecdl/Icdl Syllabus 4 Module 7 Information and Communication Using Internet Explorer 5 and Outlook Express

**Brilliant ECDL is the complete fully-accredited guide to passing the ECDL 4.0 examination for self-learners. With close to a million people in the UK alone studying the ECDL syllabus, the benefits of this easy-to-use guide are endless. The ECDL (European Computer Driving Licence) is an internationally-recognised, objective, standardised, and certificate of end-user computing skills. To qualify for the licence, candidates have to pass seven tests of PC knowledge and skill in the common business applications (wordprocessing, database, spreadsheets, presentations and the Internet). With ECDL registrations in the UK increasing monthly, the qualification is becoming more widely recognised as a desirable and mandatory certification of basic entry-level computing, IT skills and knowledge. With this rise in validation, more and more individuals are becoming aware of the need to gain the qualification for themselves, rather than as part of a company training plan or initiative. Traditional training guides can be unwieldy and make it hard to get the information you need right away. Brilliant ECDL allows you to find the information you need easily and with minimal fuss, guiding you through each task using a visual step-by-step approach. Fully-updated to cover all 7 modules of the ECDL 4.0 Syllabus**

**using the most popular business software, Microsoft Windows XP, Microsoft Office XP, and Internet Explorer 6, Brilliant ECDL is the perfect solution to all ECDL students' needs.**
