Following the popularity of his International Baccalaureate books (*Three, I Think Therefore IB, and the Good University Guide for IB Students*) Alexander Zouev has compiled another guide filled with practical tips and easy-to-use advice to achieve success in the IB Diploma program. This guidebook addresses the Internal Assessment component of IB Economics, and what students should do in order to maximize the marks on their commentary portfolios. Chapters include: The Article: how to find the perfect one Structure: planning your commentary the ideal way Diagrams: building exceptional economics diagrams with Microsoft Word Assessment: maximizing your marks with one eye on the grading criterion The remaining majority of the book is packed with more than 25 examples of outstanding economics commentaries all of which have scored the maximum mark of 7 when assessed and moderated. You will see what an excellent portfolio looks like and how you can achieve similar results.

This guide provides crisp revision of all syllabus topics with detailed support for constructing, analysing and labelling diagrams to assist with complete understanding. In addition, students will learn how to design, select and use diagrams to explain concepts while answering examination questions. A 'tips' section provides practical suggestions and a complete glossary provides a much needed teacher and student reference. In addition, there are guidelines on examiner recommendations along with exam practice and a selection of past questions.

This book provides practical support and guidance to help IB Diploma Programme students prepare for their economics SL exams.

The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. This development challenged teachers and students alike, as few Paper 3 practice resources have been available. This is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed easy familiarity throughout their course. With clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. IT is a core resource invaluable to students and teachers alike. Ensure full coverage of the new syllabus with this comprehensive guide written by a highly experienced author, that explores all topics through inquiry, concepts, content and contexts and their interrelationships with each other. - Explore economics through the nine key concepts in the new course with our newly developed acronym for a deeper and more integrated understanding of the subject. - Includes new integrated subtopics of Economics of the environment and Economics of inequality and poverty which helps bring to light the global challenges facing the planet today and how these can be addressed using an Economics lens. - Apply new skills and knowledge to everyday life with examples and case studies. - Foster the attributes of the IB learner profile with explicit reference made throughout, as well as TOK links for every topic. - Prepare for the new assessment model with exam-style questions and review questions. - Avoid common mistakes and aim for the best grades with expert tips and hints.

Essential Economics started off its life as a set of class notes, given to students, to help introduce them to the new subject of Economics. Students often used these notes to help them prepare for final IB Diploma exams. Since then the notes have expanded into the present slim volume Essential Economics. The aim is to cover the key ideas precisely and succinctly, and in a memorable way, in contrast to much longer textbooks which are often unread by students.

Arranged in four sections, provides review exercises and past examination questions for topics in microeconomics, macroeconomics, interantional economics, and development economics.
