

## Eddie Gets Ready For School Hardcover

HOWLY is a tiny puppy, left abandoned in a trash can next to a school. EDDIE is the young girl who finds him . . . Eddie is immediately drawn to the puppy, whose bravery and determination remind her of a very famous person indeed. Eddie's class are learning about Mrs Rosa Parks, whose act of courage on a bus in 1955 started a whole movement against racism in America. Mrs Parks herself soon visits Eddie's school, and when the great lady points out a stark reminder of racism in the school's own playground it's up to Eddie, her friends, and their new school dog Howly to remind everyone how to stay hopeful and stand up for what is right.

As young Eddie goes through his checklist to get ready for school, his mother does not agree with all of his choices.

In *Speak Up!*, radio icon Eddie “Piolín” Sotelo opens up for the first time about his humble beginnings and the long, hard road to finding purpose and achieving triumph. Drawing upon his strong family values and his unflinching work ethic, Piolín recounts his very personal and resilient story—how a once undocumented immigrant rose to become the voice of a generation and a symbol of hope. Through intimate, uplifting and engaging real-life accounts, Piolin shares profound inspiration, wisdom, and guidance with his legions of fans and listeners who are searching for their own paths to success and happiness.

From the critically acclaimed author of *Daddy Needs a Drink*—hailed by the Los Angeles Times as “consistently hilarious”—comes a series of irreverent, wickedly observant essays about what it really means to be a teacher today. With his trademark wit and wisdom, Robert Wilder dissects the world’s noblest profession—whether he’s taming a classroom full of hormonal teenagers or going one-on-one with the school bully. Wilder was twenty-six when he found his true calling. Leaving a lucrative advertising career in New York, he got a job as an assistant first-grade teacher at a Santa Fe alternative school—and never looked back. Now he brings his unique perspective—as a teacher, parent, and former student—to a series of laugh-out-loud essays that show teaching at its most absurd...and most rewarding. With brutal candor he chronicles his own lively adventures in modern education, from navigating cutthroat kindergarten sign-ups to subbing for a class experiment gone wrong—and dares to tell about it. He shares the surprising lessons he’s learned in the trenches of his profession, including how to bribe a four-year-old (his own) to stop swearing in a Lutheran preschool and the best way to teach moody teenagers...manage “helicopter” parents...and cope with bullies—whether of the school-yard, Internet, or parental kind. And he offers tough love for cheaters who log on to [www.SchoolSucks.com](http://www.SchoolSucks.com), then puts to rest forever the question of why new teachers gain weight (hint: the free donuts don’t help). In *Tales from the Teachers’ Lounge*, Robert Wilder charts life’s learning curve with a warmth and humor you don’t find in textbooks. By turns heartwarming, eye-opening, and uproariously funny, these pitch-perfect essays offer priceless lessons in life, family, learning, and teaching from a true

lover of education.

*2021 Mathical Honor Book Why aren't left-handers extinct? What makes a rainbow round? How is a pancreas . . . like a pendulum? Publisher's note: It's a Numberful World was published in Australia under the title Woo's Wonderful World of Maths. These may not look like math questions, but they are—because they all have to do with patterns. And mathematics, at heart, is the study of patterns. That realization changed Eddie Woo's life—by turning the “dry” subject he dreaded in high school into a boundless quest for discovery. Now an award-winning math teacher, Woo sees patterns everywhere: in the “branches” of blood vessels and lightning, in the growth of a savings account and a sunflower, even in his morning cup of tea! Here are twenty-six bite-size chapters on the hidden mathematical marvels that encrypt our email, enchant our senses, and even keep us alive—from the sine waves we hear as “music” to the mysterious golden ratio. This book will change your mind about what math can be. We are all born mathematicians—and It's a Numberful World.*

*Misfortune and rejection shadowed Eddie Brooks in his early years. His birth parents were swept away in the unruly Susquehanna River during an ice storm that paralyzed Stonington, Pennsylvania, in the winter of 1953. After a brief stay in a distant orphanage, Eddie was placed in a dysfunctional foster care arrangement with a childless couple back in Stonington, but the foster plan imploded after a neighborhood tragedy that took the life of Eddie's pal. Ostracized by his community and rescued by a family in Chestnut Ridge, a town far in the distance on the other side of the wide river, Eddie grew and blossomed, but there were still unsettled issues to confront in Stonington. As a young adult, Eddie finally returned to face his demons, and along the way, he discovered the otherworldly assistance that had been at his beck and call all along. By first-time author, Frederick Giel, the book is an emotional rollercoaster, having twists and turns that will leave the reader breathless. With its colorful characters, infectious humor, and constant tug at heartstrings, readers will enjoy the ride!*
