Part of a series which aims to reflect the changing face of the economic climate and business world. The books contain the latest information and thinking in their areas and are specifically focused to the needs of AS, A level and first year undergraduate students.

This book has been written for teachers of business education and economics in the years of their early professional development, including those on PGCE courses, those in their induction year, and those in years two and three of their teaching career. The book will also be suitable for subject leaders with mentor responsibilities and Advanced Skills teachers undertaking specialist inset and teaching support. The book covers the training standards for NQTs and the Induction Standards. But it goes beyond this by fully exploring issues to do with subject knowledge in learning to teach, broadly accepting that an essential element of a secondary teacher's identity is tied up with the subject taught. The book is divided into three sections: framing the subject - which defines subject knowledge and raises questions about business education and economics as school subjects teaching the subject - which looks at pedagogical, curricular and pupil knowledge business, economics and enterprise within the professional community - which focuses on the place of business education and economics within the wider curriculum and the teaching community. This book aims to provide stimulating assistance to subject specialists by helping them find ways of thinking about their specialism, how to teach with it and how to engage with what pupils learn through it.

BTEC National for IT Practitioners: Business Units has been written specifically to cover the business pathway of the BTEC National specifications. This book caters for one of the most popular pathways in the BTEC National specifications, bringing together all the key specialist units for students who have chosen the business route, including the core units specific to this pathway that aren't covered in the core unit book. When used alongside its companions for the core units and systems support pathways, this series delivers the most accessible and usable student textbooks available for the BTEC National. Units covered: Unit 1 – Exploring Business Activity Unit 4 – IT Project Unit 2 – Investigating Business Resources Unit 34 – E Commerce Unit 3 – Introduction to Marketing Unit 35 – Impact of the Use of IT on Business Systems Unit 4 – IT Project Unit 34 – E Commerce Unit 35 – Impact of the Use of IT on Business Systems Written by an experienced tutor, each unit is illustrated with assessment activities, end-of-chapter questions, case studies and practical exercises. The result is a clear, straightforward textbook that encourages independent study and acts as a reference to various topics within the qualification.

Owing to the verbose, flowery and flavourless textbook which is most commonly used, I decided to take a stand; no more shalt the anxious student suffer under the might of monotonous dross! Cease, I say, for it is these very notes which shalt liberate ye poor souls, fashioning many an A with sublime and blissful speed. Remember these notes, and, 'tis true, dear comrade, that thou shalt become like I, King of Kings, and destroy the dragon undert' mountain itself. Thus I beg of ye to make swift purchase of these notes, which were crafted by my own hand, which slaved for many a day to make them as succinct as possible. 'Tis true, my hands are calloused and a fever approaches (such was my determination to overcome mighty forces), and may be said that I, like Prometheus himself, gave the gift of fire itself to those who were previously ignorant. Rejoice, comrade! Help is at hand.*
