Some students just seem to absorb information, effortlessly gliding through revision and exams without the slightest difficulty. The rest of us find revision dull and unproductive. However, surely the info-sponges aren't superhuman? Surely there's no such thing as a revision-friendly gene? So, do they know something that the rest of us don't? Yes - they know *The Rules of Revision*. This guide reveals the secrets to both fruitful exam preparation and successful exam technique. It offers a set of rules that will ensure you maximise your potential by making your revision more focused and productive than it has ever been before. Written by ten students at the universities of Oxford and Cambridge, Liam and his team offer what

no teacher can. Their proven knowledge of exactly how to succeed in both the revision process and the exam room makes this book a must-have for all students.

A Passage To Africa

In an old mansion in Cennethisar (formerly a fishing village, now a posh resort near Istanbul) the old widow Fatma awaits the annual summer visit of her grandchildren: Faruk, a dissipated failed historian; his sensitive leftist sister, Nilgun; and the younger grandson, Metin, a high school student drawn to the fast life of the nouveaux riches, who dreams of going to America. The widow has lived in the village for decades, ever since her husband, an idealistic young doctor, first arrived to serve the poor fishermen. Now mostly bedridden, she is attended by her faithful servant Recep, a dwarf--and the doctor's illegitimate son. Mistress and servant share memories, and grievances, of those early years. But it is Recep's cousin Hassan, a high school dropout, and fervent right-wing nationalist, who will draw the visiting family into the growing political cataclysm, in this spell-binding novel depicting Turkey's tumultuous century-long

struggle for modernity. Translated by Robert Finn Covers the Cambridge IGCSE syllabus (0455) and the Cambridge O Level syllabus (2281), first examination from 2020. This series helps students understand economic theory, terminology and principles. It matches the Cambridge IGCSE and O Level Economics syllabuses. The coursebook helps students apply tools of economic analysis, make judgements on economic issues, use basic economic numeracy and literacy, and take greater part in decision-making processes in everyday life. Sample questions provide opportunities for students to develop their evaluative skills. It provides a foundation for advanced study in Economics such as A Level. Answers to the coursebook and workbook questions are in the teacher's resource.

As a five-year-old, George Alagiah emigrated with his family to Ghana - the first African country to attain independence from the British Empire. A PASSAGE TO AFRICA is Alagiah's shattering catalogue of atrocities crafted into a portrait of Africa that is infused with hope, insight and outrage. In vivid and evocative prose and with a fine eye for detail Alagiah's viewpoint is spiked with the freshness of the young George on his arrival in Ghana, the wonder with which he recounts his first impressions of Africa and the affection with which he dresses his stories of his early family life. A sense of possibility lingers, even

though the book is full of uncomfortable truths. It is a book neatly balanced on his integrity and sense of obligation in his role as a writer and reporter. The shock of recognition is always there, but it is the personal element that gives A PASSAGE TO AFRICA its originality. Africa becomes not only a group of nations or a vast continent, but an epic of individual pride and suffering.

Seminar paper from the year 2006 in the subject Economics - Case Scenarios, grade: A-, , language: English, abstract: Foreign direct investment constitutes a highly important part of contemporary world economy. Globalization of international economic relations have led to the situation in which many countries face the necessity to compete with each other and, thus, to enhance their competitiveness through

attraction of foreign capital. FDI in this respect appears to be the most desirable option for many economies, as they are more stable than other forms of investment. This papers answers the question of why Russia attracted such a small amount of FDI since the beginning of the transition process. This analysis takes into consideration major determinants of FDI inflow to the country as well as factors of their spatial and sectoral distribution within the state.

Resat Nuri Guntekin (1889-1956)

published *Yaprak Dokumu* in 1930. It's a tragicomic novel of bourgeois life in a rapidly changing Istanbul. The novel magnificently and richly depicts Turkish family and work life under stresses caused by the rapid introduction of modern and European norms. The hero, Master Ali Riza, an idealistic ex civil servant who translates business documents for the firm of Goldleaf Limited, leaves the firm out of profound moral scruples, and this leads to extreme financial stresses on his family. This is a new translation, illustrated with caricatures from the satirical weekly "kalem" published in the early 20th century. Discounts are available for volume purchases.
