

Edexcel Linear Maths Past Papers And Mark Schemes

Collins New GCSE Maths Edexcel Linear Teacher's Pack Foundation 1 contains everything you need to deliver effective lessons in mathematics with confidence for students working at Grades G to C. Fully matched to Edexcel's new GCSE Maths Linear specification, these teacher resources offer well-differentiated lesson plans and additional support. The Teacher's Pack allows you to:

- * Capture the essence of chapters at a glance with chapter overviews
- * Easily access learning objectives and references to exam board specifications, KS4 Programme of Study, Functional Skills Standards and Personal Learning and Thinking Skills (PLTS) for each chapter
- * Link maths concepts and help students to access functional and problem-solving scenarios
- * Raise standards by providing the right level of progression for every student by using the well-differentiated lesson plans
- * Involve the whole class in engaging activities and discussions using the Starter
- * Lead students into the main concepts and exercises with the Main Lesson Activity
- * Consolidate and summarise learning using the Plenary
- * Quickly access the answers to all questions in the corresponding Student Book and Homework Book
- * Plan ahead and save time using the ready-made Scheme of Work
- * Customise your lessons using Lesson Plans in Word format on the CD Rom

Collins New GCSE Maths Student Books are the perfect way to help students working at Grades G to C tackle the 2010 EDEXCEL GCSE Maths specification. Packed with functional skills, problem solving and graded maths practice, it will give your students the confidence to take on all aspects of the new curriculum in their exams and own lives. Collins New GCSE Maths EDEXCEL Linear Student Book Higher 1, written by experienced teachers and examiners, is organised exactly according to the 2010 EDEXCEL GCSE Maths specification. It is the ideal resource to help students get the best results:

- * Enable students to monitor their own progress through the GCSE Maths course with Collins' colour-coded grades on every page and a grade booster at the end of every chapter
- * Be confident that students are practising the key elements of the new curriculum in every lesson with functional skills, problem solving and new exam-style questions within every exercise
- * Use the colourful functional skills and problem-solving pages at the end of every chapter to engage students with rich tasks that will develop their process skills and allow them to apply maths in stimulating real-life contexts
- * Show students exactly why each chapter matters to them with new chapter openers that develop the cross-curricular nature of maths
- * Give students the opportunity for self-assessment and guidance for their exam technique by using the comprehensive exam practice and worked exam questions with examiner notes at the end of every chapter
- * Deliver the key facts to students with the comprehensive glossary and mathematics fact sheet, designed to ensure that students understand crucial maths vocabulary and processes

Test questions are provided for each chapter of this textbook, together with detailed mark schemes to make assessment easy. Two versions of each question are provided. One allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organized by unit/chapter is also included in this resource.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Created specifically for the Edexcel GCSE Mathematics Foundation tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Foundation tier students, this resource will stretch the more able and provide support to those who need it. Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

Not sure what to do after your GCSEs? Are you overwhelmed by the options? Choosing Your A Levels is the only impartial guide which will clearly provide you with all your options post-16. Whether you have decided to study A Levels, an advanced diploma or any other further education qualification, this comprehensive guide will help you take the next steps in your education. If you want more advice on which subjects to take or whether you want to learn more about how they are structured, Choosing Your A Levels provides you with all the information you need to make tough choices and continue into further education. Containing the latest information on A5 Levels this book will successfully guide you into further education. Choosing Your A Levels is easy to navigate if you want information about a particular qualification or as a detailed overview of all the major post-16 further education options. Inside you'll find:

- * Guidance on choosing the right qualification for you and indications of what the different qualifications can lead to
- * A directory of subjects by qualification for quick reference
- * Exam tips and preparation to ease the pressure
- * Exam tips to help you succeed when you get there
- * Students all have different strengths, so Choosing Your A Levels explains the involvement and details of each qualification showing how each qualification suits different learning styles. This means you have all the information you need at your fingertips to make a personal and informed choice matching yourself with a qualification that works with your strengths, whether they are practical skills or personal attributes, for a successful post-16 education. For more help and advice on choosing other post-16 qualifications please see other titles in the series; Choosing Your Apprenticeship and Choosing Your Diploma.

This book has been specifically written for the new two-tier Edexcel linear GCSE specification for first examination in 2008 by the highly successful Framework Maths author team. The book is targeted at the B to A* grade range in the Higher tier GCSE, and it comprises units organised clearly into inspiring full-colour spreads. Each unit offers:

- * Prior learning assessed at the start so students are fully prepared for the topic
- * Learning objectives identified so it is clear what students need to know
- * Clear explanations with examples showing the key techniques
- * Plenty of practice with clearly differentiated questions pitched at an appropriate level
- * Summaries and past Edexcel questions to help students gain responsibility for their learning
- * It forms part of a series of four student books at GCSE, in which the other three books cater for grade ranges G to E, E to C and D to B.

Our brand-new resources are written specifically to tackle the demands of the GCSE (9-1) Maths.

Abacus & Mental Arithmetic Course Book

Oxford's best-selling revision Practice books are renowned for their clear explanations and examples supported by a wealth of practice exercises and past examination questions that build students' confidence for the exams ahead. Building on the experience of earlier best-selling titles, David Rayner's new textbook provides valuable practice and challenging revision exercises for all students aiming for higher grades at GCSE. Up-to-date curriculum coverage New non-calculator work in line with curriculum changes Clear explanations and worked examples Numerous carefully constructed exercises and a section of ideas for longer investigations to encourage students to use and apply the mathematics they have learnt Practice exam questions Numerical answers to all questions

This AS Level course has been written for the new 2004 Edexcel modular specification, providing individual board-specific textbooks for each module. The series comprises four illustrated, textbooks covering the compulsory units C1 and C2 and optional units S1 and M1. This book supports students preparing for the Edexcel GCSE exam. The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of GCSE mathematics with an appropriate difficulty. Papers are designed to teach students the most easily applicable, reusable and fastest solutions to typical problems, and utilise problems which target areas of maths which students typically forget under the pressure of an exam. Solutions provided have been reviewed by many students to ensure that they are easily understandable while being the fastest and most re-applicable.
