Endorsed for Edexcel Develop your students' knowledge of the foundations of modern psychological understanding with this detailed textbook for Edexcel AS and A level Psychology, with targeted activities and clear explanations to build practical, mathematical and problem-solving skills Written by experienced author and examiner Christine Brain, this AS and year one A level textbook is fully mapped to the new Edexcel specification. - Helps students build their confidence in practical, mathematical and problem-solving skills through well-presented explanations and activities - Develops understanding and helps each student reach their potential with the essential information covered in a clear, logical format, supported by illustrations, questions and extension tasks - Supports you and your students through the new specification, with accessible coverage of all the key areas of Psychology for AS and year one of A level - Encourages your students to develop their interest in Psychology and its applications, with extension tasks and relevant content

Edexcel AS Psychology covers Units 1 and 2 of the A-level specification. The AS course is made up of five approaches in psychology. Each chapter in this book covers one of these and includes: an introduction, with definitions; methodology; content; detailed studies; key issues; a worked practical; a chapter summary; and definitions of key terms. An important feature of the Edexcel course is that although there is specified material, there are also many areas where choices are available. These include choices of study in each approach, and of key issues. This textbook covers all the specified material and all the suggested examples where choices are offered. Within each chapter there are features to improve students' skills, including: ·Explore --advice on how students can further their interest in an area ·Practice-- allowing students to try out what they have learnt ·Study hint-- advice on how to prepare for examinations ·Practical relevance -- linking students' learning of theory to their practical work ·Key terms -- definitions of important terms Homework questions and extension essays (to stretch and challenge students) are given at the end of each chapter. An accompanying online resource offers guidance on exam technique and sample examination-style questions, together with model answers and detailed commentaries. It also includes additional material on selected studies and key issues. Links to this material are indicated in the textbook. A Teacher Guide containing answers to all questions and exercises in the book, plus PowerPoint presentations and worksheets to assist the teacher, is available for separate purchase.

Edexcel A-level Psychology Student Guide 4: Psychological skills

Pearson Edexcel A-level Psychology Student Guide 3: Psychological skills

The new editions of 'Angles on Psychology' retain all the features that have made them such popular textbooks - plus a host of new features to underpin the delivery of the new specifications.

Exam paper covered: Edexcel GCSE (9-1) Psychology  
First teaching: September 2017  
First exams: Summer 2019  
Specifically designed to support you with the Edexcel GCSE (9-1) Psychology course and assessments. Provides contemporary and engaging examples that students can relate to such as 'why we forget things' and what can affect our memory'. 'Psychology in Action' features show how theories apply to everyday life. Helps students to build practical skills and apply knowledge with features such as 'Apply It', 'Try It' and 'Develop It'. Includes a dedicated chapter on research methods and provides maths tips throughout. Includes 'preparing for your exams' sections at the end of each topic plus lots of practice and guidance throughout, with a focus on the extended writing questions.

Exam Board: AQA, Edexcel, OCR, WJEC Eduqas  
Level: A-level  
Subject: Psychology  
First teaching: September 2015  
First exams: Summer 2017  
Master the skills you need to set yourself apart and hit the highest grades; this year-round course companion develops the higher-order thinking skills that top-achieving students possess, providing step-by-step guidance, examples and tips for getting an A grade. Written by experienced author and teacher Jean-Marc Lawton, *Aiming for an A in A-level Psychology*: - Helps you develop the 'A grade skills' of analysis, evaluation, creation and application - Takes you step by step through specific skills you need to master in A-level Psychology, so you can apply these skills and approach each exam question as an A/A\* candidate - Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A/A\* answers - Helps you practise to achieve the levels expected of top-performing students, using in-class or homework activities and further reading tasks that stretch towards university-level study - Perfects exam technique through practical tips and examples of common pitfalls to avoid - Cultivates effective revision habits for success, with tips and strategies for producing and using revision resources - Supports all exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR, and WJEC/Eduqas specifications

Pearson Edexcel A-level Psychology Student Guide 2: Applications of psychology

PEARSON EDEXCEL A-LEVEL STUDENT GUIDE.

**Despite the obvious importance of eyewitness information in criminal investigation, police receive surprisingly little instruction on how to conduct an effective interview with a cooperative eyewitness. More than half of police departments have no formal training whatsoever for newly appointed investigators. Most texts in police science either completely omit the issue of effective interviewing techniques or provide only superficial coverage. This manual provides guiding principles to effective interviewing, with specific techniques to be used and others to be avoided. There are principles of memory retrieval so that the reader will understand why to employ specific techniques -- for example, when to use open-ended versus direct short-answer questions, effective use**

of pauses, asking follow-up questions, cues to name and number recall, etc. There is the strategy of interview sequential structure -- that is, what to probe for at the beginning, middle, and end of the interview. Also included are practical exercises and real-world experiences. The book will also be helpful for attorneys in conducting investigative interviews.

If you 're studying for a GCSE in Psychology you 'll need a revision guide that tells you everything you need to know. This accessible and interactive book covers all compulsory and all optional topics on the GCSE Edexcel Psychology syllabus introduced in 2017, including development, memory, psychological problems, brain and neuropsychology, social influence and research methods. It summarises the specification material clearly and attractively, enabling you to easily digest and retain the information ready for your exams. Packed full of revision ideas and techniques designed to help you cement your knowledge, the book includes a number of unique and helpful features, such as: Expert tips from an experienced senior examiner to clarify key points and help you avoid making common errors Sample exam questions to aid practice Active learning tasks, such as key definitions and word gaps Double page spreads outlining the studies you need to know, and their strengths and weaknesses Coverage of the new compulsory mathematical element which was brought into the specification in 2017 Perfect for revising psychological concepts, theories and studies in relation to the three critical assessment objectives, Psychology GCSE Revision Guide for Edexcel is an essential resource for anyone taking a psychology GCSE using the Edexcel specification.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will:

- - Develop understanding of key concepts and terminology; this guide covers applications of psychology: clinical, criminological, child and health psychology.
- - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book.

Sample questions and answers will:

- - Build understanding of the different question types, so that students can approach each question with confidence.
- - Enable students to target top grades in Paper 2 with sample answers and commentary explaining exactly why marks have been awarded.

***Skills-focused resources to support the study of Cambridge International AS and A Level Psychology (9990) for first examination in 2018. This vibrant coursebook is tailored to the Cambridge International AS and A Level Psychology (9990) syllabus for first examination in 2018 and is endorsed by Cambridge International Examinations. It contains rigorous, comprehensive coverage at the most appropriate level of depth and detail for the course. The coursebook contains extra focus on the key concepts of research methods and ethics as well as crucial debates such as nature versus nurture. The content encourages the development of necessary skills of analysis, interpretation, application and evaluation and promotes understanding of ethical and moral issues and their implications for psychological research.***

***The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the top of AQA's Paper 3: Relationships, this book is deliberately laid out with the assessment objectives in mind, from AO1: Knowledge and Understanding material, followed by AO2: Application material, to AO3: Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinct within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on the assessment objectives for the paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner-style comments to provide greater insight into how to/how not to answer exam questions. An engaging, relevant and challenging text which broadens student understanding beyond that of the average textbook, this is the***

Explores the relationship between the brain and our motivation to do things, analysing psychological, physiological and combined approaches.

Please note: Specification changes to Unit 3 were announced by Pearson in late May 2021.

These changes will apply to learners sitting Unit 3 exams from January 2022 and onwards.

This means that Unit 3 within this book does not now match the revised specification. Units 4,5,6 and 7 within this book remain unchanged. There is a new Book 2 Revised Edition for the revised Unit 3 specification coming in Spring 2022. / Written by Cara Flanagan and other leading authors, two books support the Pearson BTEC Level 3 National in Applied Psychology and are endorsed for BTEC. / Book 2 covers the Extended Certificate Units and Book 1 covers the Certificate Units. The Extended Certificate comprises of four units - the Certificate Units plus Health Psychology and one optional unit. / Each book provides knowledge and evaluation of theories and studies combined with many engaging activities to deliver the vocational element; / Activities aim to prepare you for internal and external assessments; / A brilliant visual style and tone will encourage you through every step of the course.
