

Edexcel Science Test Papers Year 9

"Australian curriculum science-foundation to year 7 is a series of books written specifically to support the national curriculum. Science literary texts introduce concepts and are supported by practical hands-on activities, predominately experiments."--Foreword. This text is carefully matched to the exam board specification for focused study. Clear explanations and supporting diagrams ensure understanding and help students to prepare for the exam with confidence.

Provides comprehensive revision notes for students studying the Edexcel additional Science specification.

An exact match to the structure and content of the new Edexcel Modular specification. Prepare your students for both the end-of-module tests and the terminal exams. Provide lots of exam style questions to make sure students get plenty of practice. Offer hints and tips to help students prepare for their terminal exams

Nelson GCSE Modular Science

This workbook offers accessible practice to help manage GCSE Science revision and prepare for the exam efficiently. The content is broken into manageable sections and advice is given to help build confidence. Tips and techniques provide support throughout the revision process.

Written by examiners and practising teachers, this work offers study and homework support throughout GCSE. It is useful as a reference source, a lesson back-up and as a revision guide.

The Nelson Modular Science series is made up of three books divided into Single, Double and Triple Award modules. Book 1 covers six Single Award modules and one coursework module, Book 2 contains six Double Award modules whilst Book 3 covers the six Triple Award modules. Each module is covered in self-contained units. The series matches the Edexcel Modular Science (B) specifications. It is fully covered with links throughout to supplementary reading materials and ICT activities on a dedicated website.

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction – includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance – provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers.
