These cat lovers are out and purr-oud! Freddie Mercury, Sylvia Rivera, Alison Bechdel, Dusty Springfield. This book is a celebration of queer icons of the past and present and their furry feline friends. From images of lost legends such as Josephine Baker and James Baldwin, to snapshots of contemporary trailblazers like comedian Tig Notaro and fashion designer Jason Wu—these charming and eccentric photographs capture what it truly means to be a cat purr-son. • PURR-FECT FOR CAT LOVERS: This book celebrates the love between human and cat. What better gift could you get the feline fancier in your life? • AMEWSING ANECDOTES AND IMPAWTENT MOMENTS: Learn about the lives of the queer heroes who came before us and those who are still fighting for equality and inclusion. We're not kitten around—with watershed moments like the Stonewall riots and sweet stories of domestic bliss, this book will both entertain and inspire you. • PHOTOS WITH CATITUDE: In these purr-ecious photographs, you'll get to see your heroes in unguarded moments expressing love for their pets. This collection of images will bring joy to any cat lover's heart. Perfect for: • LGBTQIA+ cat lovers and the people who shop for them • Anyone interested in learning more about influential queer figures—and their pets!

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Database Systems: The Complete Book is ideal for Database Systems and Database Design and Application courses offered at the junior, senior and graduate levels in Computer Science departments. A basic understanding of algebraic expressions and laws, logic, basic data structure, OOP concepts, and programming environments is implied. Written by well-known computer scientists, this introduction to database systems offers a comprehensive approach, focusing on database design, database use, and implementation of database applications and database management systems. The first half of the book provides in-depth coverage of databases from the point of view of the database designer, user, and application programmer. It covers the latest database standards SQL:1999, SQL/PSM, SQL/CLI, JDBC, ODL, and XML, with broader coverage of SQL than most other texts. The

second half of the book provides in-depth coverage of databases from the point of view of the DBMS implementor. It focuses on storage structures, query processing, and transaction management. The book covers the main techniques in these areas with broader coverage of query optimization than most other texts, along with advanced topics including multidimensional and bitmap indexes, distributed transactions, and information integration techniques.

Emily Bronte was an English novelist & poet, who is best known for her only novel, "Wuthering Heights: She has written poems also such as - 'Poems by Currer, Ellis and Action Bell', 'A Death Scene', 'To a Wreath of Snow, and lots Many. 'Wuthering Heights' is a highly imaginative work of passion and hate. Author was interested in mysticism and used to enjoy her solitude outdoors. This novel consists of those elements. It is now considered a classic of English literature. It was published under the pseudonym - "Ellis Bell" The story is full of high creativity and very imaginative. It narrates revenge also. It revolves around the main character, Heathcliff. Wuthering Heights is his farmhouse. Heathcliff is a young orphan, who was brought by Earnshaw at Wuthering Heights, 30 years ago. Earnshaw loves him (Heathcliff) so much, even neglects his own children. After death of Earnshaw, his elder son Hindley becomes the new master of Wuthering Heights and he allows Heathcliff to stay there only as a servant. Catherine is in love with Heathcliff, but doesn't show due to her social statue. The story thus seems very interesting

and it ends with sights of the ghosts of Catherine and Heathcliff. It consists of many ups and downs Readers will Surely going to enjoy the novel. It's Heartthrobing and it's very difficult to getup without reading the novel - fully. Peoples and minorities in many parts of the world assert a right to self-determination, autonomy, and even secession from a state, which naturally conflicts with that state's sovereignty and territorial integrity. The right of a people to self-determination and secession has existed as a concept within international law since the American Declaration of Independence in 1776, but the exact definition of these concepts, and the conditions required for their application, remain unclear. The Advisory Opinion of the International Court of Justice concerning the Declaration of Independency of Kosovo (2010), which held that the Kosovo declaration of independence was not in violation of international law, has only led to further questions. This book takes four conflicts in the post-Soviet Commonwealth of Independent States (CIS) as a starting point for examining the current state of the law of self-determination and secession. Four entities, Transnistria (Moldova), South Ossetia, Abkhazia (both Georgia), and Nagorno-Karabakh (Azerbaijan), claim to be entitled not only to self-determination but also to secession from their mother state. For this entitlement they rely on historic affiliations, and on charges of discrimination and massive human rights violations committed by their mother state. This book sets out its analysis of these critical issue in three parts, providing a detailed understanding of the principles of international law on which they rely: The first part sets out the contours and meaning of self-determination and secession, including an overall assessment of secession within the Commonwealth of Independent States. The second section provides case studies investigating the events in Transnistria, South Ossetia, Abkhazia, and Nagorno-Karabach in greater detail. The third and final section extends the scope of the examination, providing a comparative analysis of similar conflicts involving questions of self-determination and secession in Kosovo, Western Sahara, and Eritrea.

An Invitation to Cultural Psychology looks at the everyday life worlds of human beings through the lens of a new synthetic perspective in cultural psychology – that of semiotic dynamics. Based on historical work from many different fields in the social and behavioural sciences, and the humanities too, this perspective applied to cultural psychology suggests that human beings are constantly creating, maintaining and abandoning hierarchies of meanings within all cultural contexts they experience. It's a perspective that leans heavily on the work of the great French philosopher, Henri Bergson, only now being realised as a core basis for human cultural living. Jaan Valsiner is the founding editor of the major journal in the field, Culture & Psychology, and Editor of the Oxford Handbook of Culture and Psychology. He is the first Niels Bohr Professor of Cultural Psychology at Aalborg University in Denmark, where he leads Europe's first Research Centre on Cultural Psychology.

Considerando que los entrenadores desempeñan un papel importante en todos los niveles del deporte; el estudio y análisis del entrenador y del desarrollo de su pericia representa un objetivo esencial en el entrenamiento de alto rendimiento para la búsqueda de la excelencia deportiva. Encontrar las claves para llegar a la excelencia debe constituir uno de los objetivos principales por parte de los investigadores en todos los campos, no sólo en el deporte. Por ello, con el presente estudio se pretende conocer como han desarrollado su pericia dieciséis entrenadores españoles, expertos, de élite y formación en baloncesto. Para ello, analizaremos las etapas evolutivas en el desarrollo de su pericia, así como estudiaremos los factores y medios de formación que han permitido a estos expertos sobresalir.

Cambridge Global English (1-6) is a six-level Primary course following the Cambridge Primary English as a Second Language Curriculum Framework developed by Cambridge English Language Assessment. Activity Book 4 provides additional practice activities to consolidate language skills and content material introduced in Learner's Book 4. Nine units correspond with the topics, texts and language input of Learner's Book 4 with each lesson of the Learner's Book supported by two pages in the Activity Book. Learning is reinforced through activities clearly framed within the 'I can' objectives of the course, opportunities for personalisation and creative work and a higher level of challenge to support differentiation. Each unit in the Activity Book ends with revision and opportunity for self-assessment. CEFR Level: towards A2.

bookdown: Authoring Books and Technical Documents with R Markdown presents a much easier way to write books and technical publications than traditional tools such as LaTeX and Word. The bookdown package inherits the simplicity of syntax and flexibility for data analysis from R Markdown, and extends R Markdown for technical writing, so that you can make better use of document elements such as figures, tables, equations, theorems, citations, and references. Similar to LaTeX, you can number and cross-reference these elements with bookdown. Your document can even include live examples so readers can interact with them while reading the book. The book can be rendered to multiple output formats, including LaTeX/PDF, HTML, EPUB, and Word, thus making it easy to put your documents online. The style and theme of these output formats can be customized. We used books and R primarily for examples in this book, but bookdown is not only for books or R. Most features introduced in this book also apply to other types of publications: journal papers, reports, dissertations, course handouts, study notes, and even novels. You do not have to use R, either. Other choices of computing languages include Python, C, C++, SQL, Bash, Stan, JavaScript, and so on, although R is best supported. You can also leave out computing, for example, to write a fiction. This book itself is an example of

publishing with bookdown and R Markdown, and its source is fully available on GitHub.
