During the iQSo's, in a frontier atmosphere of enterprise and sharp struggle, an American television system took shape. But even as it did so, itspioneers pushed beyond American borders and became programmers to scores of other nations. In its first decade United States television was already a world phenomenon. Since American radio had for some time had international ramifications, American images and sounds were radiatingfrom transmitter towers throughout the globe. They were called entertainment or news or education but were always more. They were a reflection of a growing United States involvement in the lives of other nationsan involvement of imperial scope. The role of broadcasters in this American expansion and in the era that produced it is the subject matter of The Image Empire, the last of three volumes comprising this study.

The British Empire, the largest empire in history, was fundamentally a maritime one. Britain's imperial power was inextricably tied to the strength of the Royal Navy the ability to protect and extend Britain's political and economic interests overseas, and to provide the vital bonds that connected the metropole with the colonies. This book will examine the intrinsic relationship between the Royal Navy and the empire, by examining not only the navy's expansionist role on land and sea, but also the ideological and cultural influence it exerted for both the coloniser and colonised.

This panoramic reappraisal shows why the Habsburg Empire mattered for so long to so many Central Europeans across divides of language, religion, and region. Pieter Judson shows that creative government—and intractable problems the far-flung empire could not solve—left an enduring imprint on successor states. Its lessons are no less important today.

The Celluloid Empire
A History of Latinos in America
A History of the Ottoman Empire
A History of the Greater United States
Rise and Fall of the Greatest Empires in History
Edge of Empires
Empire and Imperialism

A sweeping history of the Latino experience in the United States- thoroughly revised and updated. The first new edition in ten years of this important study of Latinos in U.S. history, Harvest of Empire spans five centuries-from the first New World colonies to the new millennium. Latinos are now the largest minority group in the United States, and their impact on American popular culture-from food to entertainment-to literature-is greater than ever. Featuring family portraits of real- life immigrant Latino pioneers the events and conditions that compelled them to leave their homelands, Harvest of Empire is required reading for anyone wishing to understand the history and legacy of this increasingly influential group.

The Glory of the Empire is the rich and absorbing history of an extraordinary empire, at one point a rival to Rome. Rulers such as Basil the Great of Onessa, who founded the Empire but whose treacherous ways made him a byword for infamy, and the roman bastard, who dallied in the fleshpots of Egypt, studied Taoism and Buddhism, returned to save the Empire from civil war, and then retired "to learn to die," come alive in The Glory of the Empire, along with generals, politicians, prophets, scoundrels, and other d'Ormesson also goes into the daily life of the Empire, its popular customs, and its contribution to the arts and the sciences, which, as he demonstrates, exercised an influence on the world as a whole, from the East to the West, and whose repercussions as a result of its actions are still felt today. The book is a work of fiction, but it is all fiction, a thought experiment worthy of Jorge Luis Borges, and in the end The Glory of the Empire emerges as a great shimmering mirage, filling us with wonder even as it makes us wonder at the fugitive nature of power and the meaning of history.

An essential starting point for anyone wanting to learn about life in the largest empire in history, this two-volume work encapsulates the imperial experience from the sixteenth to the twenty-first centuries. • Provides primary sources that give voice to the empires that have shaped the world as we know it • Opposed, and were subjects of the British Empire • Consolidates the most up-to-date research from established and emerging scholars in the field in many countries and at many institutions • Includes a detailed introduction that succinctly puts the British Empire in its historical context • Offers a chronology of events and episodes important to both the rise and fall of the British Empire • Provides a broad range of perspectives that focus not only on the white men who controlled the British Empire but also on the many people—such as indigenous peoples, poor Europeans, and Christian missionaries—who formed it • Avoids simplistic assessments of British imperialism as merely "good" or "bad," emanating an objectivity that enables readers to develop their own ideas about the nature of the empire and its impact on the world Discover the remarkable history of the Mughal Empire..For more than two hundred years, the Mughal Empire dominated the Indian subcontinent. It became one of the largest empires on the planet with an army of almost one million men at arms and an economy stronger than any other at the time. The Mughal Empire developed new art and architecture, and some of the things created during this empire are still regarded as iconic representations of India. Although most of its conquests were achieved through the use of military power, this was also a relatively liberal, pluralist empire which successfully assimilated people from varied cultural and religious background into a total population of over one hundred and fifty million. Perhaps that is surprising given that this empire originated by nomadic Mongols from the north; the very first Mughal emperor was a direct descendent of both Genghis Khan and Tamerlane. Then, just when the Mughal Empire seemed to have become invincible, it disintegrated in an astonishingly short space of time. This book tells the story of how the Mughal Empire was able to achieve almost unimaginable power and wealth and how within the nature of that success were the elements which eventually tore the empire apart. This is the complex, exciting story of the rapid rise and even more rapid fall of the mighty, colorful, vibrant, and complex Mughal Empire. Discover a plethora of topics such as The Emergence of Babur The Reign of Akbar the Great Consolidation and Glory Art, Architecture and Science in the Mughal Empire Decline of the Mughal Empire Imperialism and the Mughal Empire British Control And much more! The Habsburg Empire
Empire

The Empire State
Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and provides an analysis of important events from Wounded Knee to Iraq, in a volume created in the format of a graphic novel. Simultaneous. 100,000 first printing.

Eminent historian Paul Strathern opens the story of Empire with the Akkadian civilization, which ruled over a vast expanse of the region of ancient Mesopotamia, then turns to the immense Roman Empire, where we trace back our Western and Eastern roots. Next he tells the narrative describes how a great deal of Western Classical culture was developed in the Abbasid and Umayyid Caliphates. Then, while Europe was beginning to emerge from a period of cultural stagnation, it almost fell to a whirlwind invasion from the East, at which point we meet the Emperors of the Mongol Empire . . . Combining breathtaking scope with masterful narrative control, Paul Strathern traces these connections across four millennia and sheds new light on these major civilizations—from the Mongol Empire and the Yuan Dynasty to the Aztec and Ottoman, through to the most recent and biggest empires: the British, Russo-Soviet, and American. Charting five thousand years of global history in ten lucid chapters, Empire makes comprehensive and inspiring reading to anyone fascinated by the history of the world.

Reproduction of the original: The Foundation of the Ottoman Empire by Herbert Adams Gibbons

Published in association with the New York State Historical Association, a richly illustrated history of New York retraces the fascinating story of this important state, from its origins in Native American culture and early seventeenth-century colonization by Dutch and English Europeans to the mid-1990s. Rise and Fall

For nearly two hundred years, Great Britain had an empire on which the sun never set. This is the story of its rise and fall

Rise and Fall opens with the Akkadian Empire, which ruled over a vast expanse of the region of ancient Mesopotamia, then turns to the immense Roman Empire, where we trace back our western and eastern roots. Next he tells the story of the Roman Empire. Strathern describes how a great deal of western classical culture was developed in the Abbasid and Umayyid Caliphates. Then, while Europe was beginning to emerge from a period of cultural stagnation, it almost fell to a whirlwind invasion from the East, at which point we meet the Emperors of the Mongol Empire . . . Combining breathtaking scope with masterful concision, Paul Strathern traces connections across four millennia and sheds new light on these major civilizations - from the Mongol Empire and the Yuan Dynasty to the Aztec and Ottoman, through to the most recent and biggest Empires: the British, Russo-Soviet and American. Charting 5,000 years of global history in ten succinct chapters, Rise and Fall makes comprehensive and inspiring reading to anyone fascinated by the history of the world.

Located at the crossroads of Western Asia and Eastern Europe, Georgia is a country of rainforests and swamps, snow and glaciers, and semi-arid plains. It has ski resorts and mineral springs, monuments and an oil pipeline. It also has one of the longest and most turbulent histories in the Christian or Near Eastern world, but no comprehensive, up-to-date account has been written about this little-known country—until now. Remediying this omission, Donald Rayfield accesses a mass of new material from recently opened archives to tell Georgia’s absorbing story. Beginning with the first intimations of the existence of Georgians in ancient Anatolia and ending with the volatile presidency of Mikheil Saakashvili, Rayfield deals with the country’s internal politics and swings between disintegration and unity, and divulges Georgia’s complex struggles with the empires that have tried to control, fragment, or even destroy it. He describes the country’s conflicts with Xenophon’s Greeks, Arabs, invading Turks, the Crusades, Genghis Khan, the Persian Empire, the Russian Empire, and Soviet totalitarianism. A wide-ranging examination of this small but colorful country, its dramatic state-building, and its tragic political mistakes, Edge of Empires draws our eyes to this often overlooked nation.

Discover the remarkable history of the Persian Empire...The history of the Persian Empire (or Empires) stretches from ancient times well into the twentieth century. Through biblical events, to the dawn and spread of Islam, to the revolutions of the twentieth century, Persia-or Iran-has played an integral role in nearly all major events of world history. Uncover the fascinating story of this influential and unique civilization.

A History of the American Movie Industry

The Ottoman Empire was one of the largest and longest-lasting empires in history—and one of the most culinarily inclined. In this powerful and complex concoction of politics, culture, and cuisine, the production and consumption of food reflected the lives of the empire's citizens from sultans to soldiers. Food bound people of different classes and backgrounds together, defining identity and serving symbolic functions in the social, religious, political, and military spheres. In Bountiful Empire, Priscilla Mary İşın examines the changing meanings of the Ottoman Empire's foodways as they evolved over more than five centuries. İşın begins with the essential ingredients of this fascinating history, examining the earlier culinary traditions in which Ottoman cuisine was rooted, such as those of the Central Asian Turks, Abbasids, Seljuks, and Byzantines. She goes on to explore the diverse aspects of this rich culinary culture, including etiquette, cooks, restaurants, military food, food laws, and food trade. Drawing on everything from archival documents to poetry and featuring more than one hundred delectable illustrations, this meticulously researched, beautiful volume offers fresh and lively insight into an empire and cuisine that until recent decades have been too narrowly viewed through the lens of orientalist spectacles.

This illustrated textbook covers the full history of the Ottoman Empire, from its genesis to its dissolution.

Not an aesthetic approach. Concentrates on the business aspects of motion picture production and distribution. Within each historical chapter, generally deals with one major studio at a time.

Discover the remarkable history of the Inca Empire...In the space of less than one hundred years, the Inca people expanded from being a small kingdom in the highlands of Peru to becoming one of the largest and most powerful empires in the Americas. At the height of its power, the Inca Empire stretched for more than one thousand miles down the Andes Mountains and the west coast of South America. It incorporated more than two hundred distinct ethnic groups and somewhere around fourteen million people were ruled by a much smaller number of Incas. Inca engineers designed and built an extensive and sophisticated system of roads and created buildings and walls from massive blocks of worked stone. Inca temples were opulent and featured the abundant use of gold, silver, and precious stones. Massive Inca armies won victory after victory as they steamrolled potential competitors. The Inca government controlled every aspect of the lives of its subjects, from the food that they ate to the clothes that they wore. By around 1500 CE, the Inca Empire had reached its greatest extent and looked set to persist for a very long time indeed. Instead, within little more than thirty years, it had been reduced to a small rump state, and within seventy years, it had vanished entirely. This is the story of the rapid rise and sudden fall of the mighty Inca Empire. Discover a plethora of topics such as Origin of the Incas The Kingdom of Cuzco The Rise of the Empire Life in the Inca Empire The Spanish Conquest The Fall of the Inca Empire And much more! So if you want a concise and informative book on the Inca Empire, simply scroll up and click the "Buy now" button for instant access!

How to Hide an Empire
A Novel, a History

"Paul Hirsch's revelatory book opens the archives to show the complex relationships between comic books and American foreign relations in the mid-twentieth century. Scourged and repressed on the one hand, yet co-opted and deployed as propaganda on the other, violent, sexist comic books were both vital expressions of American freedom and upsetting depictions of the American id. Hirsch draws on previously classified material and newly available personal records to weave together the perspectives of government officials, comic-book publishers and creators, and people in other countries who found themselves on the receiving end of American culture"--

From one of the most significant contemporary Japanese writers, a haunting, dazzling novel of loss and rebirth "Yuko Tsushima is one of the most important Japanese writers of her generation." —Foumiko Kometani, The New York Times I was puzzled by how I had changed. But I knew I had. I could no longer go back . . . It is spring. A young woman, left by her husband, starts a new life in a Tokyo apartment. Territory of Light follows her over the course of a year, as she struggles to bring up her two-year-old daughter alone. Her new home is filled with light streaming through the windows, so bright she has to squint, but she finds herself plummeting deeper into darkness, becoming unstable, unethered. As the months come and go and the seasons turn, she must confront what she has lost and what she will become. At once tender and lacerating, luminous and unsettling, Yuko Tsushima's Territory of Light is a novel of abandonment, desire, and transformation. It was originally published in twelve parts in the Japanese literary monthly Gunzo, between 1978 and 1979, each chapter marking the months in real time. It won the inaugural Noma Literary Prize.

How to Hide an EmpireA History of the Greater United StatesFarrar, Straus and Giroux

The Holy Roman Empire lasted a thousand years, far longer than ancient Rome. Its continuity rested on the ideal of a unified Christian civilization. As Peter Wilson shows, the Empire tells the story of Europe better than histories of individual nation-states, and its legacy can be seen today in debates over the nature of the European Union.

A History of the British Empire

Starting with the Roman army’s first foray beyond its borders and ending with Hadrian’s death (138 CE), David Potter’s panorama of the early Empire recounts the wars, leaders and social transformations that lay the foundations of imperial success. As today’s parallels reveal, the Romans have much to teach us about power, governance and leadership.

A new history of the United States that turns American exceptionalism on its head American Empire is a panoramic work of scholarship that presents a bold new global perspective on the history of the United States. Taking readers from the colonial era to today, A. G. Hopkins shows how, far from diverging, the United States and Western Europe followed similar trajectories throughout this long period, and how America's dependency on Britain and Europe extended much later into the nineteenth century than previously understood. A sweeping narrative spanning three centuries, American Empire goes beyond the myth of American exceptionalism to place the United States within the wider context of the global historical forces that shaped Western empires and the world.

War. Famine. Conquest. Death. Explore the rise and fall of history’s greatest empires. History Of Empires: Rise and Fall of the Greatest Empires in History! Understanding The Roman Empire, American Empire, British Empire, & Much More is a thrilling study of empires whose leaders lost sight of their civic obligations, leading to revolts, social disruption, and inescapable destruction. Explore the rise and fall of dynasties in Imperial China including the Mandate of Heaven and the dawn of the Zhou dynasty; the rise of China’s First Emperor, Qin Shi Huang; brutal civil war, and the reign of the Han; and the First Opium War and the Qing Empire. Investigate the rise of Sparta and its culture of courage and discipline, the defeat of Athens, the helot revolts that eroded Sparta's might and Sparta's decline into backwater obscurity following defeat by Thebes in the Battle of Leuctra. Witness the faith and folly of the Ottoman Empire as it grew into one of the most powerful states in the world, reigned supreme for over 600 years, and fell into stagnation and decline because of degenerate, lackadaisical or incompetent rulers. Glimpse the growth, consolidation, repeated defeat, and eventual dissolution of the Roman Empire. Examine Hammurabi's elevation of Babylon, The Gate of the Gods, to peace and prosperity and centuries of conflict that led to the city repeatedly being sacked, rebuilt, razed, and reborn, and eventually buried beneath the sands of time, literally and figuratively. Watch the sun rise and set on the British Empire as it rose to a dominant world superpower then plunged into war and financial ruin. Observe the colonization of North America and America's growth from humble beginnings, through civil unrest and socio-economic upheaval, to emerge somehow stronger. Journey through war, famine, conquest, and death with History Of Empires: Rise and Fall of the Greatest Empires in History! Understanding The Roman Empire, American Empire, British Empire, & Much More. Scroll up to get your copy now.

This illuminating guide to the night opens up an entirely new vista on early modern Europe. Using diaries, letters, legal records and representations of the night in early modern religion, literature and art, Craig Koslofsky explores the myriad ways in which early modern people understood, experienced and transformed the night.

The Origin of Empire

Mughal Empire

A history of American expansionism chronicles the country's accumulation of territory and global intervention from the Revolutionary War to the present day, examining the tension between the U.S. acting as both a republic and an empire. Empires and Colonies provides a thoroughgoing and lively exploration of the expansion of the seaborne empires of western Europe from the fifteenth century and how that process of expansion affected the world, including its successor, the United States. Whilst providing special attention to Europe, the book is careful to highlight the ambivalence and contradiction of that expansion. The book also illuminates connections between empires and colonies as a theme in history, concentrating on culture while also discussing the rich social, economic and political dimensions of the story. Furthermore, Empires and Colonies recognizes that whilst a study of the expansion of Europe is an important part of world history, it is not a history of the world per se. The focus on culture is used to assert that areas and peoples that lack great economic power at any given time also deserve attention. These alternative voices of slaves, indigenous peoples and critics of empire and colonization are an important and compelling element of the book. Empires and Colonies will be essential reading not only for students of imperial history, but also for anyone interested in the makings of our modern world.

From acclaimed historian Barbara Stollberg-Rilinger, an incomparable introduction to this momentous period in the history of Europe The Holy Roman Empire emerged in the Middle Ages as a loosely integrated union of German states and city-states under the supreme rule of an emperor, and would endure until its dissolution in 1806 during the Napoleonic Wars. Barbara Stollberg-Rilinger provides a concise history of the empire, presenting an interpretation of its unique political culture and remarkably durable institutions. In a narrative spanning three turbulent centuries, Stollberg-Rilinger shows how it was a political body unlike any other, bound together by personal loyalty and reciprocity, tradition and shared purpose, and constantly reenacted by solemn rituals.

'A brilliant reconstruction of the saga of power, glory, invasion and decay that is the one-thousand year story of Constantinople. A truly marvellous book.' - Simon Winchester In 2014, Richard Fidler and his son Joe made a journey to Istanbul. Fired by Richard's passion for the rich history of the dazzling Byzantine Empire - centred around the legendary Constantinople - we are swept into some of the most extraordinary tales in history. The clash of civilisations, the fall of empires, the rise of Christianity, revenge, lust, murder. Turbulent stories from the past are brought vividly to life at the same time as a father navigates the unfolding changes in his relationship with his son. GHOST EMPIRE is a revelation: a beautifully written ode to a lost civilization, and a warmly observed father-son adventure far from home.

Liberalism in Empire

While the need for a history of liberalism that goes beyond its conventional European limits is well recognized, the agrarian backwaters of the British Empire might seem an unlikely place to start. Yet specifically liberal preoccupations with property and freedom evolved as central to agrarian policy and politics in colonial Bengal. Liberalism in Empire explores the generative crisis in understanding property's role in the constitution of a liberal polity, which intersected in Bengal with a new politics of peasant independence based on practices of commodity exchange. Thus the conditions for a new kind of vernacular liberalism were created. Andrew Sartori's examination shows the workings of a section of liberal policy makers and agrarian leaders who insisted that norms governing agrarian social relations be premised on the property-constituting powers of labor, which opened a new conceptual space for appeals to both political economy and the normative significance of property. It is conventional to see liberalism as traveling through the space of empire with the extension of colonial institutions and intellectual networks. Sartori's focus on the Lockeanism of agrarian discourses of property, however, allows readers to grasp how liberalism could serve as a normative framework for both a triumphant colonial capitalism and a critique of capitalism from the standpoint of peasant property.

Focusing on the most prominent and wide-ranging empire in world history, the British Empire, Jeremy Black provides not only a history of that empire, but also a perspective from which to consider the issues of its strengths and weaknesses, and rights and wrongs. The book addresses global decline, decolonisation, and the complex nature of post-colonialism and different imperial activity in modern and contemporary history.

A bestselling historian shows how the British Empire created the modern world, in a book lauded as "a rattling good tale" (Wall Street Journal) and "popular history at its best" (Washington Post) The British Empire was the largest in all history: the nearest thing to global domination ever achieved. The world we know today is in large measure the product of Britain's Age of Empire. The global spread of capitalism, telecommunications, the English language, and institutions of representative government -- all these can be traced back to the extraordinary expansion of Britain's economy, population and culture from the seventeenth century until the mid-twentieth. On a vast and vividly colored canvas, Empire shows how the British Empire acted as midwife to modernity. Displaying the originality and rigor that have made Niall Ferguson one of the world's foremost historians, Empire is a dazzling tour de force -- a remarkable reappraisal of the prizes and pitfalls of global empire.

Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In How to Hide an Empire, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics, transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, How to Hide an Empire is a major and compulsively readable work of history.
