

Encyclopedia Of The American Presidency

The President's Daughter, America's first major kiss-and-tell political biography, caused a sensation when it was published in 1928. Nan Britton described her six-year affair with the late Warren G. Harding, most famously including trysts in a White House coat closet. President Harding's paternity of Britton's daughter Elizabeth Ann, born in 1919, was proved by DNA testing in 2015.

The life and long political career of the fifth president of the United States, whose Monroe Doctrine proclaimed opposition to further European control in the western hemisphere.

Unleashing the Power of Paradox

America's 5th President

President Encyclopedia 2001-2008

Some leaders fundamentally alter the status quo whilst others guide quietly. Most leadership books emphasise specific rules, but Tom Cronin and Michael Genovese see leadership as filled with paradox. Leadership Matters offers a different view of leadership - one that builds community and responds creatively to new situations. Cronin and Genovese argue that leadership is about more than just charisma and set leaders on to a different path - to unleash the power of paradox.

Discover the history and personal stories of 46 US Presidents in this beautifully illustrated volume. From the first president, George Washington, to the forty-sixth, Joe Biden, the United States has seen a host of extraordinary men take office. Their stories are all included in this fourth edition of The Complete Book of US Presidents by journalist and historian Bill Yenne. This book features short, biographical essays about the lives of 46 presidents, jam-packed with unusual details and commentary on the significant roles each commander-in-chief played in the shaping of the United States and its relations with the world. Lavishly illustrated, including the presidents' official White House portraits, sidebars about each and every vice president and first lady, and intriguing anecdotes, this book is accessible to a broad audience and will captivate any history lover. The Complete Book of US Presidents is an expansive collection that reflects on America's rich presidential history, telling the story of a nation through the biographies of some of its greatest political leaders.

Contains a brief biography and analysis of all forty-four presidents, from George Washington to Barack Obama, and discusses the history and major events of the United States, explaining how each president impacted history.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Internationalism in the Balance

The Complete Book of US Presidents, Fourth Edition

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

American Presidents and the United Nations: Internationalism in the Balance offers a fresh look at the U.S.-UN relationship. The current discourse regarding America's linkage with the UN—and particularly about the President's influence on the world body—has metamorphosed well beyond the conventional conversation of the post-World War II generation. This book places the UN-U.S. relationship within the evolving fabric of international affairs and American political developments through the 2020 presidential election, into the early Biden administration. The text integrates analyses of individual presidential politics and presidential foreign policy preferences from Franklin Roosevelt through Donald Trump, with congressional responses, and seemingly ever-accelerating, troublesome, and often unanticipated international crises. Readers will find the latest scholarship, primary sourcing, as well as synthesis, and a fresh analysis of the ongoing and increasingly multifaceted political and intellectual debate about America's role in the world. The book spotlights one of the most creative, complex, and inspired global institutions ever devised by human beings—the United Nations—and puts it in context with the powerful role of the American presidency. Essential for students, scholars, and general readers alike.

The Presidents Fact Book is a compendium of all things presidential and a sweeping survey of American history through the biography of every president from George Washington to Donald Trump. Organized chronologically by president, each entry covers the major accomplishments and events of the presidential term; cabinet members, election results, groundbreaking legislation, and Supreme Court appointments; personality and personal habits; career before the presidency; a behind-the-scenes look at the wives, families, friends, and foes; and much more, including hobbies, odd behaviors, and outlandish penchants. Major primary documents from each administration -- from the Bill of Rights to Barack Obama's speech on race in America -- provide a glimpse into the crucial moments of America's storied past in the words of those who led the nation. Perfect for students, history buffs, and political junkies, The President's Fact Book is at once an expansive collage of our nation's 45 individual presidents and a comprehensive view of American history.

The American President is an enthralling account of American presidential actions from the assassination of William McKinley in 1901 to Bill Clinton's last night in office in January 2001. William Leuchtenburg, one of the great presidential historians of the century, portrays each of the presidents in a chronicle sparkling with anecdote and wit. Leuchtenburg offers a nuanced assessment of their conduct in office, preoccupations, and temperament. His book presents countless moments of high drama: FDR hurling defiance at the "economic royalists" who exploited the poor; ratcheting tension for JFK as Soviet vessels approach an American naval blockade; a grievously wounded Reagan joking with nurses while fighting for his life. This book charts the enormous growth of presidential power from its lowly state in the late nineteenth century to the imperial presidency of the twentieth. That striking change was manifested both at home in periods of progressive reform and abroad, notably in two world wars, Vietnam, and the war on terror. Leuchtenburg sheds light on presidents battling with contradictory forces. Caught between maintaining their reputation and executing their goals, many practiced deceits that shape their image today. But he also reveals how the country's leaders pulled off magnificent achievements worthy of the nation's pride.

The Daily Show (The Book)

Contains 1,011 articles by 335 contributors from all regions of the country, representing many disciplines and institutions, captures the origin, evolution, and constant unfolding of the American presidency.

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

The American public hungers for a heroic leader. From John F. Kennedy to George W. Bush, every American president has left office either under a cloud or as a failed leader. Michael A.

Genovese argues that presidents are set up for failure; it is not specific presidents but the presidency itself that is the problem. The presidency was designed to prevent tyranny through a system of separation of powers that inhibits presidents from exercising sufficient power to meet the demands and expectations that developed over time. Each new president dreams of success, only to be crushed by the paralytic weight of vetoes and roadblocks. As they fail to meet expectations, Americans turn on them, making their already precarious position much worse. Given the perilous nature of the office, Genovese examines the skills required to achieve success and the roles of power and persuasion. He also examines how globalization and the rapid pace of change contribute to the decline of presidential power. This accessible synthesis of scholarship is geared toward an audience that is hungry to unravel the dilemmas of presidential leadership. Students of the presidency will find it insightful; general readers will find it illuminating.

"An interactive and empowering book" to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to the federal Office of Minority Health, African Americans "are affected by serious diseases and health conditions at far greater rates than other Americans." In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. Reclaiming Our Health begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, "I wrote this book to empower our community to solve our own health problems and save our own lives."
