movement. It thus reflects the revolution brought about in the conception of Nepalese history, which is now commonly presented as a series of uprisings. Bears have fascinated people since ancient times. The relationship between bears and humans dates back thousands of years,

during which time we have also competed with bears for shelter and food. In modern times, bears have come under pressure through encroachment on their habitats, climate change, and illegal trade in their body parts, including the Asian bear bile market. The IUCN lists six
