**The English republican tradition and eighteenth-century France offers the first full account of the role played by seventeenth- and eighteenth-century English republican ideas in eighteenth-century France. Challenging some of the dominant accounts of the republican tradition, it revises conventional understandings of what republicanism meant in both Britain and France during the eighteenth century, offering a distinctive trajectory as regards ancient and modern constructions and highlighting variety rather than homogeneity within the tradition. Hammersley thus offers a new and fascinating perspective on both the legacy of the English republican tradition and the origins and thought of the French Revolution. The book focuses on a series of case studies, featuring such colourful and influential characters as John Toland, Viscount Bolingbroke, John Wilkes and the Comte de Mirabeau. This book will thus be of value to all those interested in the fields of intellectual history and the history of political thought, seventeenth and eighteenth-century British history, eighteenth-century French history and French Revolution studies.**

*Galileo's Dialogue Concerning the Two Chief World Systems, published in Florence in 1632, was the most proximate cause of his being brought to trial before the Inquisition. Using the dialogue form, a genre common in classical philosophical works, Galileo masterfully demonstrates the truth of the Copernican system over the Ptolemaic one, proving, for the first time, that the earth revolves around the sun. Its influence is incalculable. The Dialogue is not only one of the most important scientific treatises ever written, but a work of supreme clarity and accessibility, remaining as readable now as when it was first published. This edition uses the definitive text established by the University of California Press, in Stillman Drake's translation, and includes a Foreword by Albert Einstein and a new Introduction by J. L. Heilbron.*

*This pack consists of the Basic English Grammar B Student Book and the Workbook B. Blending communicative and interactive approaches with tried-and-true grammar teaching, Basic English Grammar, Third Edition, by Betty Schramper Azar and Stacy A. Hagen, offers concise, accurate, level-appropriate grammar information with an abundance of exercises, contexts, and classroom activities. Features of Basic English Grammar, Third Edition: Increased speaking practice through interactive pair and group work. New structure-focused listening exercises. More activities that provide real communication opportunities. Added illustrations to help students learn vocabulary, understand contexts, and engage in communicative language tasks. New Workbook solely devoted to self-study exercises. New Audio CDs and listening script in the back of the Student Book.*

The Journal of International Students (JIS), an academic, interdisciplinary, and peer-reviewed publication (Print ISSN 2162-3104 & Online ISSN 2166-3750), publishes narrative, theoretical, and empirically-based research articles, student and faculty reflections, study abroad experiences, and book reviews relevant to international students and their cross-cultural experiences and understanding in international education. more at [www.ojed.org/jis](http://www.ojed.org/jis)

Understanding the dynamics of the illiberal practices of liberal states is increasingly important in Europe today. This book examines the changing relationship between immigration, citizenship and integration at the European and national arenas. It studies some of the main effects and questions the comprehensiveness of the exchange and coordination of public responses to the inclusion of third country nationals in Europe, as well as their compatibility with a common European immigration policy driven by a rights-based approach and the respect of the principles of fair and equal treatment of third country nationals. The volume reviews key national experiences of immigration and citizenship laws, the use of integration and the 'moving of ideas' between national arenas. The framing of integration in immigration and citizenship law and the ways in which policy convergence is being achieved through the EU framework on integration raises a number of conceptual dilemmas and a set of definitional premises in need of reflection and consideration.

There is little doubt that the '45 rebellion was the greatest challenge to the eighteenth-century British state. The battle of Culloden in which it culminated was certainly one of the most dramatic of the century. This study, based on extensive archival research, examines the political and military context of the uprising and highlights the seriousness of the challenge posed by the Jacobites. The result is an illuminating account of an episode often obscured by the perspectives of Stuart romance.

Culloden and the '45

Allen's Indian mail and register of intelligence for British and foreign India

**How does professional education for future social workers and social pedagogues in one country compare with other countries? What happened in Germany, Denmark and French-speaking Belgium during the years 1989-2004, starting with the year when an EU Directive laid down common rules for the mutual recognition of higher education qualifications? And which lessons may English and British academics, policy-makers, employers and unionists draw from this European material? Are social work and social pedagogy bound to converge as they did in Germany? Or are there Alternatives to Convergence? Did professional education in the countries examined show signs of Europeanisation? These are some of the questions which readers will be able to explore in this book.**  
**After working in the European Commission (Sport Unit) (2001-14) Jacob Kornbeck recently joined the Secretariat of the European Data Protection Supervisor (Policy and Consultation Unit). His part-time research interests cover a range of policy areas, often involving transnational comparisons. Apart from social work and social pedagogy he has written and lectured on various aspects of sports policy, in particular anti-doping and athletes' rights, as well as health-enhancing physical activity (HEPA). Jacob holds degrees from German and British universities. This book is the slightly reworked text of his doctoral thesis (University of London). Following Inspiration from Brussels: the European Union and Sport (published by EHV Academic Press in 2013), this is his second book.**

**Queneau uses a variety of literary styles and forms in ninety-nine exercises which retell the same story about a minor brawl aboard a bus**

**Looking at key questions of how companies are held accountable under private law, this book presents a succinct and accessible framework for analysing and answering corporate attribution problems in private law. Corporate attribution is the process by which the acts and states of mind of human individuals are treated as those of a company to establish the company's rights, duties, and liabilities. But when and why are acts and states of mind attributed in private law?**

**Drawing on a wide range of material from across the disparate areas of company law, agency law, and the laws of contract, tort, unjust enrichment, and equitable obligations, this book's central argument is that attribution turns on the allocation and delegation of the company's own powers to act. This approach allows for a much greater and clearer understanding of attribution. A further benefit is that it shows attribution to be much more united and coherent than it is commonly thought to be. Looking at corporate attribution across the broad expanse of the common law, this book will be of interest to lawyers across the common law world, including the United Kingdom, Australia, Canada, and Singapore.**
