Suitable for college and high school students and those learning on their own, this fully illustrated coursebook provides comprehensive instruction in the history and practical techniques of Chinese calligraphy. No previous knowledge of the language is required to follow the text or complete the lessons. The work covers three major areas: 1) descriptions of Chinese characters and their components, including stroke types, layout patterns, and indications of sound and meaning; 2) basic brush techniques; and 3) the social, cultural, historical, and philosophical underpinnings of Chinese calligraphy—all of which are crucial to understanding and appreciating this art form. Students practice brush writing as they progress from tracing to copying to free-hand writing. Model characters are marked to indicate meaning and stroke order, and well-known model phrases are shown in various script types, allowing students to practice different calligraphic styles. Beginners will find the author's advice on how to avoid common pitfalls in writing brush strokes invaluable.
