

English Grammar For Students Of German

English Grammar for International Studies is designed for students taking international programmes in higher vocational education, such as Business and Management Studies, International Marketing, International Finance, Business Administration, International Communication and Media, Finance and Banking, Hotel and Facility, and Tourism. Such programmes often have an international student body and therefore the language of instruction is English. English Grammar for International Studies caters precisely for these programmes since the instruction, examples and exercises are offered in English. Offering grammar instruction based on problem-oriented learning, the grammatical principles in the book are rehearsed in a variety of exercises and assignments using primary source texts, such as newspaper headlines, advertisements and internet texts. This book is eminently suitable for self-study, because of its step-by-step approach to English grammar, its transparent instruction, wide range of exercises and the possibility to check answers to questions on the accompanying website

(www.englishgrammarforinternationalstudies.noordhoff.nl) which also provides a self-assessment test allowing students to monitor their grammar deficiencies.

Unlike other textbooks, it helps students to understand grammar rather than see it as a set of facts and rules.

Previously published by Routledge, 2012.

A short resource of English grammatical terms explained for students of biblical Greek and Hebrew to help them become more familiar with the grammatical terminology that is necessary for success in these languages.

A Student's Introduction to English Grammar

Standard English and the Dialects

Put theory into practice with with exercises which test your knowledge and challenge your understanding

This innovative grammar text is an ideal resource for writers, language students, and classroom teachers who need an accessible refresher in a step-by-step guide to essential grammar. Rather than becoming mired in overly detailed linguistic definitions, Nancy Sullivan helps writers and students understand and apply grammatical concepts and develop the skills they need to enhance their writing. Along with engaging discussions of both contemporary and traditional terminology, Sullivan's text provides clear explanations of the basics of English grammar and a practical, hands-on approach to mastering the use of language. Complementing the focus on constructing excellent sentences, every example and exercise set is contextually grounded in language themes. This updated edition includes new sections in each chapter on Writing Matters (addressing key tools and concerns for writers) and Language Varieties (addressing issues of social and regional dialect variation). This is an ideal textbook for any writing course across disciplines where grammatical precision is important. Online resources including additional exercises, links, and an answer key are available at [Routledge.com/9780367148683](https://www.routledge.com/9780367148683). Instructor materials accompanying the text provide teachers with activities designed for face-to-face, hybrid, and online instruction to enliven these basic grammar lessons as well as writing activities to integrate these concepts into students' own writing.

English Grammar for Students of Spanish. The study guide for those learning Spanish.

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses,

commentaries and key readings - all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections - introduction, development, exploration and extension -which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. English Grammar: provides a wide-ranging introduction to English grammar, drawing on a variety of international authentic texts, including newspapers, novels and academic texts, to help learners understand concepts and theories in more depth; is written in clear, concise prose in order to present basic concepts and key terms in an accessible way to learners with little or no background in grammar instruction; emphasises the autonomy of the learner through activities and exercises which are suited to both native speakers and learners of English alike; includes a selection of readings from key academics in the field including Michael Halliday, Michael McCarthy, Caroline Coffin and John Sinclair. Drawing on the strengths of the original textbook, this second edition features: new readings from Christian Jones, Daniel Waller and Thomas E. Payne; revised questions, suggestions and issues to consider; and a brand new companion website featuring interactive audio files of authentic spoken English, links to further reading and new grammar tasks. Written by an experienced teacher and researcher, this accessible textbook is an essential resource for all students of English language and linguistics.

English Grammar For Dummies

A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation. The winning entry? "I teach English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom." Why does grammar make everyone so nervous? Probably because English teachers, for decades – no, for centuries – have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy. Happily, you don't have to learn all those technical terms of English grammar – and you certainly don't have to diagram sentences – in order to speak and write correct English. So rest assured – English Grammar For Dummies will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With English Grammar For Dummies, you won't have to memorize a long list of meaningless rules (well, maybe a couple in the punctuation chapter!),

because when you understand the reason for a particular word choice, you'll pick the correct word automatically. English Grammar For Dummies covers many other topics as well, such as the following: Verbs, adjectives, and adverbs – oh my! Preposition propositions and pronoun pronouncements Punctuation: The lowdown on periods, commas, colons, and all those other squiggly marks Possession: It's nine-tenths of grammatical law Avoiding those double negative vibes How to spice up really boring sentences (like this one) Top Ten lists on improving your proofreading skills and ways to learn better grammar Just think how improving your speaking and writing skills will help you in everyday situations, such as writing a paper for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!

A new edition of a successful undergraduate textbook on contemporary international Standard English grammar, based on Huddleston and Pullum's earlier award-winning work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. Intended for students in colleges or universities who have little or no background in grammar or linguistics, this teaching resource contains numerous exercises and online resources suitable for any course on the structure of English in either linguistics or English departments. A thoroughly modern undergraduate textbook, rewritten in an easy-to-read conversational style with a minimum of technical and theoretical terminology.

English Grammar for Students of French

A self-study handbook for English speakers learning Latin introducing them to English grammar and pointing out the similarities and differences with Latin grammar. An elementary comparative grammar which complements any textbook and any method.

To assist in mastering Italian grammar, this text explains a concept as it applies to English and presents the same concept as it applies to Italian. It illustrates the differences between the two languages and guides the selection of the correct form.

Explains the basic terminology and concepts of English grammar, focusing on material which will most benefit students of Japanese.

Are there evidence-based answers to the broad question "What explicit

knowledge about language in teachers and/or students appears to enhance literacy development in some way"? Distinguished by its global perspective, its currency, and its comprehensiveness, Beyond the Grammar Wars: provides an historical overview of the debates around grammar and English/literacy teaching in four settings: the US, England, Scotland and Australia offers an up-to-date account of what the research is telling (and not telling) us about the effectiveness of certain kinds of grammar-based pedagogies in English/literacy classrooms takes readers into English/literacy classrooms through a range of examples of language/grammar-based pedagogies which have proven to be successful addresses metalinguistic issues related to changes in textual practices in a digital and multimodal age, and explores the challenges for educators who are committed to finding a "usable grammar" to contribute to teaching and learning in relation to these practices. All of the contributors are acknowledged experts in their field. Activities designed for use in language and literacy education courses actively engage students in reflecting on and applying the content in their own teaching contexts.

This practical and research-based introduction to current and effective English grammar instruction gives pre-service and in-service teachers and teacher educators a strong foundation for teaching second language grammar and helps them develop their professional knowledge and skills. Written in a highly readable style for an international audience, it provides a thorough and rounded overview of the principles, strategies, techniques, and applications currently dominant in teaching L2 grammar in a range of instructional settings around the world. Chapter authors are world-class authorities in grammar and grammar teaching and learning. All chapters are based on theoretical frameworks and/or research foundations with a strong emphasis on practical applications and implications for classroom teaching, and highlight teaching methods, key concepts, and terminology associated with grammar instruction. Illuminating the options and choices in grammar teaching from a contemporary perspective, *Teaching English Grammar to Speakers of Other Languages* is ideal as key text for students in undergraduate and graduate MA-TESOL programs and as a resource for practicing ESL/EFL teachers, teacher educators, and teaching faculty.

English Grammar for Students of Languages Series

For students who want to learn the nuts and bolts of English grammar A generation ago, the United States public school system stopped formal instruction in English grammar and consequently created a legion of students and professionals notoriously weak in writing and language skills. English Grammar for the Utterly Confused is a must-have for anyone who gets that "deer-in-the-headlights" look when asked to recognize a misplaced modifier or even find the verb in a sentence. This user-friendly, witty guide helps everyone—from students taking the GED to professionals writing business plans—learn the structures of English grammar and how to use them easily and proficiently. Demystifying grammar once and for all, this handbook will help all readers acquire the ability to speak and write competently, correctly, and confidently. Key features include: Exercises throughout to develop facility in writing skills Clear explanations of complex concepts Handy icons More than 200 solved problems and examples Test Yourself section in each chapter

Thousands of students have found this book the ideal way to master and upgrade their Spanish grammar.

This text for ESL and ELT pedagogy courses around the world describes English grammar from a World Englishes perspective including a discussion of grammatical theory, language acquisition, and pedagogy using examples from academic writers.

The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using 'real' texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, which contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language. A Resource for Teachers and Students on Developing Language Knowledge in the English/Literacy Classroom
