to the limits of widely used valuation techniques. The most important of these limits is the inability to forecast cash flows and to determine the appropriate discount rate. Another important limit is the inability to determine absolute value. Widely used valuation techniques such as market multiples - the price-to-earnings ratio, firm value multiples or a use of multiple ratios, for example - capture only relative value, that is, the value of a firm's stocks related to the

value of comparable firms (assuming that comparable firms can be identified). The study underlines additional problems when it comes to valuing IPOs and private equity: Both are sensitive to the timing of the offer, suffer from information asymmetry, and are more subject to behavioral elements than is the case for shares of listed firms. In the case of IPOs in particular, the authors discuss how communication strategies and media hype play an important role in the IPO valuation/pricing

Paul, but Frederick Douglass, confidant to the Great Emancipator himself and conscience of the Republican Party, was denied a hotel room because he was black. This was Minnesota in 1873, four years after the state had approved black suffrage—a state where “freedom” meant being unshackled from chains but not social restrictions, where “equality” meant access to the ballot but not to a hotel or restaurant downtown. Spanning the half century after the Civil War,
