Do you know what your John James Audubon bird and mammal prints are worth? Do you even know if they are authentic or cheap reproductions? Noted Audubon expert, Ron Flynn, has researched and compiled this important reference resource for the Audubon collector. Information about each Audubon edition is given in individual chapters, along with detailed Price Guide tables with market values for every print in the following original antique Audubon editions: Havell, Bien, Imperial Folio, Octavo Birds and Octavo Quads, plus the modern Amsterdam, Abbeville, Leipzig and Loates Editions. Realized eBay auction prices are included in the Price Guides for those editions commonly sold on that Internet site. Other chapters deal with: identifying and authenticating prints, buying and selling Audubon prints, and buying and selling on eBay. Mr. Flynn provides a list of his recommended Audubon dealers. Finally, there are chapters covering: matting and framing, print storage and care, and print conservation and restoration. Computer science departments at universities in the U.S.A. are world renowned. This handy reference guide gives detailed profiles of 40 of the best known among them. The profiles are organized in a uniform layout to present basic information, faculty, curriculum, courses for graduate students, affiilated institutions, facilities, research areas, funding, selected projects, and collaborations. Two full alphabetical listings of professors are included, one giving their universities and the other their research areas. The guide will be indispensible for anyone - student or faculty, not only in the U.S.A. - interested in research and education in computer science in the U.S.A.
