From the world's most repressive state comes rare good news: the escape to freedom of a small number of its people. It is a crime to leave North Korea. Yet increasing numbers of North Koreans dare to flee. They go first to neighboring China, which rejects them as criminals, then on to Southeast Asia or Mongolia, and finally to South Korea, the United States, and other free countries. They travel along a secret route known as the new underground railroad. With a journalist's grasp of events and a novelist's ear for narrative, Melanie Kirkpatrick tells the story of the

North Koreans' quest for liberty. Travelers on the new underground railroad include women bound to Chinese men who purchased them as brides, defectors carrying state secrets, and POWs from the Korean War held captive in the North for more than half a century. Their conductors are brokers who are in it for the money as well as Christians who are in it to serve God. The Christians see their mission as the liberation of North Korea one person at a time. Just as escaped slaves from the American South educated Americans about the evils of slavery, the North Korean fugitives are informing the world about the secretive country they fled. *Escape from North Korea* describes how they also are sowing the seeds for change within North Korea itself. Once they reach sanctuary, the escapees channel news back to those they left behind. In doing so, they are helping to open their information-starved homeland, exposing their countrymen to liberal ideas, and laying the intellectual groundwork for the transformation of the totalitarian regime that keeps their fellow citizens in chains.

“Terrific.” -Timothy Egan, The New York Times “A riveting investigation of both American myth-making and the real history that lies beneath.” -Claudio Saunt, author of Unworthy Republic From the New York Times bestselling author of Escape From Camp 14, a “terrifically readable” (Los Angeles Times) account of one of the most persistent “alternative facts” in American history: the story of a missionary, a tribe, a massacre, and a myth that shaped the American West In 1836, two missionaries and their wives were among the first Americans to cross the Rockies by covered wagon on what would become the Oregon Trail. Dr. Marcus Whitman and Reverend Henry Spalding were headed to present-day Washington state and Idaho, where they aimed to convert members of the Cayuse and Nez Perce tribes. Both would fail spectacularly as missionaries. But Spalding would succeed as a propagandist, inventing a story that recast his friend as a hero, and helped to fuel the massive westward migration that would eventually lead to the devastation of those they had

purportedly set out to save. As Spalding told it, after uncovering a British and Catholic plot to steal the Oregon Territory from the United States, Whitman undertook a heroic solo ride across the country to alert the President. In fact, he had traveled to Washington to save his own job. Soon after his return, Whitman, his wife, and eleven others were massacred by a group of Cayuse. Though they had ample reason - Whitman supported the explosion of white migration that was encroaching on their territory, and seemed to blame for a deadly measles outbreak - the Cayuse were portrayed as murderous savages. Five were executed. This fascinating, impeccably researched narrative traces the ripple effect of these events across the century that followed. While the Cayuse eventually lost the vast majority of their territory, thanks to the efforts of Spalding and others who turned the story to their own purposes, Whitman was celebrated well into the middle of the 20th century for having "saved Oregon." Accounts of his heroic exploits appeared in congressional

documents, *The New York Times*, and *Life* magazine, and became a central founding myth of the Pacific Northwest. Exposing the hucksterism and self-interest at the root of American myth-making, *Murder at the Mission* reminds us of the cost of American expansion, and of the problems that can arise when history is told only by the victors.

An extraordinary memoir by a North Korean woman who defied the government to keep her family alive. Born in the 1970s, Lucia Jang grew up in a common, rural North Korean household—her parents worked hard, she bowed to a photo of Kim Il-Sung every night, and the family scraped by on rationed rice and a small garden. However, there is nothing common about Jang. She is a woman of great emotional depth, courage, and resilience. Happy to serve her country, Jang worked in a factory as a young woman. There, a man she thought was courting her raped her. Forced to marry him when she found herself pregnant, she continued to be abused by him. She managed to convince her family to let her return home, only to have her in-laws and parents sell

her son without her knowledge for 300 won and two bars of soap. They had not wanted another mouth to feed. By now it was the beginning of the famine of the 1990s that resulted in more than one million deaths. Driven by starvation—her family's as well as her own—Jang illegally crossed the river to better-off China to trade goods. She was caught and imprisoned twice, pregnant the second time. She knew that, to keep the child, she had to leave North Korea. In a dramatic escape, she was smuggled with her newborn to China, fled to Mongolia under gunfire, and finally found refuge in South Korea before eventually settling in Canada. With so few accounts by North Korean women and those from its rural areas, Jang's fascinating memoir helps us understand the lives of those many others who have no way to make their voices known. With a New Foreword The heartwrenching New York Times bestseller about the only known person born inside a North Korean prison camp to have escaped. Soviet gulags and twelve times as long as the Nazi concentration camps. No one born and raised in these camps is known to have escaped. No one, that is, except Shin Dong-hyuk. In *Escape From Camp 14*, Blaine Harden unlocks the secrets of the world's most repressive totalitarian state through the story of Shin's shocking imprisonment and his astounding getaway. Shin knew nothing of civilized existence—he saw his mother as a competitor for food, guards raised him to be a snitch, and he witnessed the execution of his mother and brother. The late “Dear Leader” Kim Jong Il was recognized throughout the world, but his country remains sealed as his third son and chosen heir, Kim Jong Eun, consolidates power. Few foreigners are allowed in, and few North Koreans are able to leave. North Korea is hungry, bankrupt, and armed with nuclear weapons. It is also a human rights catastrophe. Between 150,000 and 200,000 people work as slaves in its political prison camps. These camps are clearly visible in satellite photographs, yet North Korea's government denies they exist.

"I am most grateful for two things: that I was born in North Korea, and that I escaped from North Korea." - Yeonmi Park "One of the most harrowing stories I have ever heard - and one of the most inspiring." -

The Bookseller “Park’s remarkable and inspiring story shines a light on a country whose inhabitants live in misery beyond comprehension. Park’s important memoir showcases the strength of the human spirit and one young woman’s incredible determination to never be hungry again.”

—Publishers Weekly In In Order to Live, Yeonmi Park shines a light not just into the darkest corners of life in North Korea, describing the deprivation and deception she endured and which millions of North Korean people continue to endure to this day, but also onto her own most painful and difficult memories. She tells with bravery and dignity for the first time the story of how she and her mother were betrayed and sold into sexual slavery in China and forced to suffer terrible psychological and physical hardship before they finally made their way to Seoul, South Korea—and to freedom. Park confronts her past with a startling resilience. In spite of everything, she has never stopped being proud of where she is from, and never stopped striving for a better life. Indeed, today she is a human rights activist working determinedly to bring attention to the oppression taking place in her home country. Park’s testimony is heartbreaking and unimaginable, but never without hope. This is the human spirit at its most indomitable.

The powerful and the powerless are here in dramatic narratives that explain a land swept up in change, lurching between an unworkable Western present and a collapsing African past. By focusing on individuals, Blaine Harden uncovers an Africa that endures behind the sum of its statistics.

A true story of love, murder, and the end of the world's "great hush." In *Thunderstruck*, Erik Larson tells the interwoven stories of two men—Hawley Crippen, a very unlikely murderer, and Guglielmo Marconi, the obsessive creator of a seemingly supernatural means of communication—whose lives intersect during one of the greatest criminal chases of all time. Set in Edwardian London and on the stormy coasts of Cornwall, Cape Cod, and Nova Scotia, *Thunderstruck* evokes the dynamism of those years when great shipping companies competed to build the biggest, fastest ocean liners; scientific advances dazzled the public with visions of a world transformed; and the rich outdid one another with ostentatious displays of wealth. Against this background, Marconi races against incredible odds and relentless skepticism to perfect his invention: the wireless, a prime catalyst for the emergence of the world we know today. Meanwhile, Crippen, "the kindest of men," nearly commits the perfect murder. With his unparalleled narrative skills, Erik Larson guides us through a relentlessly suspenseful chase over the waters of the North Atlantic. Along the way, he tells of a sad and tragic love affair that was described on the front pages of newspapers around the world, a

“courageous” (The Washington Post) memoir of survival, a former captive of the Islamic State tells her harrowing and ultimately inspiring story. Nadia Murad was born and raised in Kocho, a small village of farmers and shepherds in northern Iraq. A member of the Yazidi community, she and her brothers and sisters lived a quiet life. Nadia had dreams of becoming a history teacher or opening her own beauty salon. On August 15th, 2014, when Nadia was just twenty-one years old, this life ended. Islamic State militants massacred the people of her village, executing men who refused to convert to Islam and women too old to become sex slaves. Six of Nadia’s brothers were killed, and her mother soon after, their bodies swept into mass graves. Nadia was taken to Mosul and forced, along with thousands of other Yazidi girls, into the ISIS slave trade. Nadia would be held captive by several militants and repeatedly raped and beaten. Finally, she managed a narrow escape through the streets of Mosul,

finding shelter in the home of a Sunni Muslim family whose eldest son risked his life to smuggle her to safety. Today, Nadia's story—as a witness to the Islamic State's brutality, a survivor of rape, a refugee, a Yazidi—has forced the world to pay attention to an ongoing genocide. It is a call to action, a testament to the human will to survive, and a love letter to a lost country, a fragile community, and a family torn apart by war.

Escape from Hat tells the epic story of Leek, a particularly lucky rabbit in a particularly unlucky situation. After a fateful magic trick sends Leek tumbling into the land of Hat, the rabbit must find his way through deadly peril back to the boy he is sworn to protect. But the land of Hat belongs to the black cats, whose job it is to spread ill luck to their hapless humans. When Millikin discovers his nemesis, Leek, is wandering through his own backyard, he makes it the top priority of all the cats of Hat to rout out Leek and his companions with the help of their unlucky wits and the terrible destruction of the Dimmer-Dammers. Meanwhile, in the land where there is a sun, the boy Cecil is left without the luck - good or ill - of his unseen companions, Leek and Millikin. On his own journey to retrieve both his rabbit and his luck, Cecil must discover the truth behind the unfortunate magic trick, or face a future without any luck at all. From rickety caravans to sea monsters, the parallel journeys of rabbit and boy are a reminder that love and friendship are the greatest magics of all. From master storyteller and critically acclaimed screenwriter Adam Kline comes a classic story brought brilliantly to life with illustrations from Brian Taylor (creator of Rustboy) that manage to evoke both traditional fantasy and pop art fandom. This is a book to keep and give away, to read curled up in a corner and aloud at bedtime, for children and for the child at heart.

To survive, Sungju creates a gang and lives by thieving, fighting, begging, and stealing rides on cargo trains. Sungju richly recreates his scabrous story, depicting what it was like for a boy alone to create a new family with his gang, "his brothers," to daily be hungry and to fear arrest, imprisonment, and even execution. But there is a little-known drama connected to the crisis: six Americans escaped. And a top-level CIA officer named Antonio Mendez devised an ingenious yet incredibly risky plan to rescue them before they were detected. Disguising himself as a Hollywood producer, and supported by a cast of expert forgers, deep cover CIA operatives, foreign agents, and Hollywood special effects artists, Mendez traveled to Tehran under the guise of scouting locations for a fake science fiction film called Argo. While pretending to find the perfect film backdrops, Mendez and a colleague succeeded in contacting the escapees, and smuggling them out of Iran. Antonio Mendez finally details the extraordinarily complex and dangerous operation he led more than three decades ago. Stupid is the new smart—but it wasn't always so Popular culture has divorced itself from the life of the mind. Who has time for great books or deep thought when there is Jersey Shore to watch, a txt 2 respond 2, and World of Warcraft to play? At the same time, those who pursue the life of the mind have insulated themselves from popular culture. Speaking in insider jargon and writing unread books, intellectuals have locked themselves away in a ghetto of their own creation. It wasn't always so. Blue Collar Intellectuals vividly captures a time in the twentieth century when the everyman aspired to high culture and when intellectuals descended from the ivory tower to speak to the everyman. Author Daniel J. Flynn profiles thinkers from working-class backgrounds who played a prominent role in American life by addressing their intellectual work to a mass audience. Blue Collar Intellectuals shows us how much everyone—intellectual and everyman alike—has suffered from mass culture's crowding out of higher things and the elite's failure to engage the masses.

bestselling author Blaine Harden (Escape from Camp 14) that explores the worlds most repressive state through the intertwined lives of two North Koreans, one infamous, one obscure: Kim Il Sung, the former North Korean leader and No Kum Sok, once the state's youngest jet fighter pilot. Shortly before the Korean War ended, No Kum Sok met Kim Il Sung, who congratulated him for his flying skill and his courage. A few months later, No Kum Sok stole a Soviet-made MiG-15 and flew it to a US airfield in South Korea. Beginning with the arbitrary division of Korea in 1945 and ending two months after the shaky armistice that halted combat in the Korean War, The Great Leader & the Fighter Pilot is an ambitious and gripping book which digs deeply into the character of the Kim family dictatorship. At once an irresistible adventure story and an authoritative guide to the notorious state, it explains why North Korea remains so isolated, why it created and maintains a vast gulag of concentration camps, and why it is still so angry at the western world.

Washington Post, NPR • “Fox unspools Jones and Hill’s delightfully elaborate scheme in nail-biting episodes that advance like a narrative Rube Goldberg machine.”—The New York Times Book Review *Imprisoned in a remote Turkish POW camp during World War I, having survived a two-month forced march and a terrifying shootout in the desert, two British officers, Harry Jones and Cedric Hill, join forces to bamboozle their iron-fisted captors. Word gets around, and one day an Ottoman official approaches Jones with a query: Could Jones contact the spirit world to find a vast treasure rumored to be buried nearby? Jones, a trained lawyer, and Hill, a brilliant magician, use the Ouija board—and their keen understanding of the psychology of deception—to build a trap for their captors that will ultimately lead them to freedom. British lord, and Hill, a mechanic on an Australian sheep ranch, would never have met. But in pain, loneliness, hunger, and isolation, they formed a powerful emotional and intellectual alliance that saved both of their lives. Margalit Fox brings her “nose for interesting facts, the ability to construct a taut narrative arc, and a Dickens-level gift for concisely conveying personality” (Kathryn Schulz, New York) to this tale of psychological strategy that is rife with cunning, danger, and moments of high farce that rival anything in Catch-22.

The New York Times bestselling author of *Escape from Camp 14* returns with the untold story of one of the most powerful spies in American history, shedding new light on the U.S. role in the Korean War, and its legacy In 1946, master sergeant Donald Nichols was repairing jeeps on the sleepy island of Guam when he caught the eye of recruiters from the army's Counter Intelligence Corps. After just three months' training, he was sent to Korea, then a backwater beneath the radar of MacArthur's Pacific Command. Though he

lacked the pedigree of most U.S. spies—Nichols was a 7th grade dropout—he quickly metamorphosed from army mechanic to black ops phenomenon. He insinuated himself into the affections of America’s chosen puppet in South Korea, President Syngman Rhee, and became a pivotal player in the Korean War, warning months in advance about the North Korean invasion, breaking enemy codes, and identifying most of the targets destroyed by American bombs in North Korea. But Nichols's triumphs had a dark side. Immersed in a world of torture and beheadings, he became a spymaster with his own secret base, his own covert army, and his own rules. He recruited agents from refugee camps and prisons, sending many to their deaths on reckless missions. His closeness to Rhee meant that he witnessed—and did nothing to stop or even report—the slaughter of tens of thousands of South Korean civilians in anticommunist purges. Nichols’s clandestine reign lasted for an astounding eleven years. In this riveting book, Blaine Harden traces Nichols's unlikely rise and tragic ruin, from his birth in an operatically dysfunctional family in New Jersey to his sordid postwar decline, which began when the U.S. military sacked him in Korea, sent him to an air force psych ward in Florida, and subjected him—against his will—to months of electroshock therapy. But King of Spies is not just the story of one American spy. It is a groundbreaking work of narrative history that—at a time when North Korea is threatening the United States with long-range nuclear missiles—explains the origins of an intractable foreign policy mess.

In May 2009, the Sri Lankan army overwhelmed the last stronghold of the Liberation Tigers of Tamil Eelam—better known as the Tamil Tigers—officially bringing an end to nearly three decades of civil war. Although the war has ended, the place of minorities in Sri Lanka remains uncertain, not least because the lengthy conflict drove entire populations from their homes. The figures are jarring: for example, all of the roughly 80,000 Muslims in northern Sri Lanka were expelled from the Tamil Tiger-controlled north, and nearly half of all Sri Lankan Tamils were displaced during the course of the civil war. Sharika Thiragama's *In My Mother's House* provides ethnographic insight into two important groups of internally displaced people: northern Sri Lankan Tamils and Sri Lankan Muslims. Through detailed engagement with ordinary people struggling to find a home in the world, Thiragama explores the dynamics within and between these two minority communities, describing how these relations were reshaped by violence, displacement, and authoritarianism. In doing so, she illuminates an often overlooked intraminority relationship and new social forms created through protracted war. *In My Mother's House* revolves around three major themes: ideas of home in the midst of profound displacement; transformations of familial experience; and the impact of the political violence—carried out by both the Tamil Tigers and the Sri Lankan state—on ordinary lives and public speech. Her rare focus on the effects and responses to LTTE political regulation and violence demonstrates that envisioning a peaceful future for post-conflict Sri Lanka requires taking stock of the new Tamil and Muslim identities forged by the civil war. These identities cannot simply be cast away with the end of the war but must be negotiated anew.

This book explores the creation of imperial identities in Britain and several of its colonies - South Africa, India, Australia, Wales - and the ways in which the Victorian press around the world shaped and reflected these identities. The concept of co-histories, borrowed from Edward Said and Frantz Fanon, helps explain how the press shaped the imperial and national identities of Britain and of the colonies into co-histories that were thoroughly intertwined and symbiotic. Exploring a variety of press media, this book argues that the press was a site of resistance and revision by colonized authors and publishers, as well as a force of colonial authority for the British government. editors, and publishers, who projected a view of the empire to their British, colonial, and colonized readers. Topics include The Journal of Indian Art and Industry produced by the British art schools in India, women's periodicals, Indian writers in the British press, The Imperial Gazetteer published in Scotland, the rise of telegraphic news agencies, the British press's images of China seen through exhibitions of its art, the Tory periodical Blackwood's Magazine, and the Imperial Press Conference of 1909.

"Superbly reported and written with clarity, insight, and great skill." —Washington Post Book World After two decades, Washington Post journalist Blaine Harden returned to his small-town birthplace in the Pacific Northwest to follow the rise and fall of the West's most thoroughly conquered river. To explore the Columbia River and befriend those who collaborated in its destruction, he traveled on a monstrous freight barge sailing west from Idaho to the Grand Coulee Dam, the site of the river's harnessing for the sake of jobs, electricity, and irrigation. *A River Lost* is a searing personal narrative of rediscovery joined with a narrative of exploitation: of Native Americans, of endangered salmon, of nuclear waste, and of a once-wild river. Updated throughout, this edition features a new foreword and afterword.
