*Classic story of self-discovery, told in a unique manner by Kafka.*

*From Ismail Kadare, winner of the inaugural Man Booker International Prize – a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie – the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow – of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.*

*An extraordinary epic, brilliantly-imagined, new novel from a world-class writer and author of The Name of the Rose. Discover the Middle Ages with Baudolino - a wondrous, dazzling, beguiling tale of history, myth and invention. It is 1204, and Constantinople is being sacked and burned by the knights of the fourth Crusade. Amid the carnage and confusion Baudolino saves a Byzantine historian and high court official from certain death at the hands of the crusading warriors, and proceeds to tell his own fantastical story.*

*'Jean-Jacques Lecercle's remarkable Philosophy of Nonsense offers a sustained and important account of an area that is usually hastily dismissed. Using the resources of contemporary philosophy - notably Deleuze and Lyotard - he manages to bring out the importance of nonsense' - Andrew Benjamin, University of Warwick Why are we, and in particular why are philosophers and linguists, so fascinated with nonsense? Why do Lewis Carroll and Edward Lear appear in so many otherwise dull and dry academic books? This amusing, yet rigorous new book by Jean-Jacques Lecercle shows how the genre of nonsense was constructed and why it has proved so enduring and enlightening for linguistics and philosophy.*

The tender plant of Albanian literature grew in a rocky soil. It was late to evolve and its development, indeed its very existence, was threatened in many periods. "Albanian Literature: A Short History" tells the story of the survival and growth of Albanian creative writing beginning with the earliest thirteenth century texts of Theodor of Shkodra, tracing the development of the modern literature of Buzuku, Budi and Bogdani, the incorporation of the Muslim influences of Frakulla and Kycyku and continuing with the works of Cajupi and Kadare during the reign of King Zog and the Hoxha administration. A unique book that illuminates an under-researched subject, "Albanian Literature" is an essential reference guide for all those interested in Balkan cultures, in comparative literature and in European cultural history in general.

This is the third essay of Stefan Zweig's Three Masters: Balzac, Dickens, Dostoevsky, written in the early 20th century. Part biography, part literary criticism, part cultural history, the essay offers a window onto how a Central European regarded the Russian master, who died in 1881, the year Zweig was born. Dostoevsky's genius, in Zweig's view, owed a debt to his illness, as Tolstoy's did to his radiant health. Illness "enabled Dostoevsky to soar upward into a sphere of such concentrated feeling as is rarely experienced by normal men; it permitted him to penetrate into the underworld of the emotions, into the submerged regions of the psyche." This essay is one of the best examples of Zweig's psychologically-informed literary criticism.

"Eugene Onégin" is an epic poem by Alexander Pushkin. The story revolves around a Russian dandy and his dalliances with women. While visiting his newly inherited estate, Eugene meets Tatyana, who soon falls passionately in love with him. Tatyana writes Eugene a letter proclaiming her love, but Eugene flatly rejects her. Eugene instead flirts with Tatyana's sister, Olga. He challenges Lensky, Olga's fiancé, to a duel, and ends up killing him. Years pass, and when Eugene meets Tatyana for a second time, he realizes what an accomplished woman she has become. Though he vies for her heart, Tatyana rejects Eugene and remains married to her husband.

Masterful in its simplicity, Chronicle in Stone is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

"The Crescent and the Eagle" examines the awakening of Albanian national identity from the end of the 19th century to the outbreak of the First World War - a period of intense nationalism in the Balkans - from an Ottoman perspective. Drawing on Ottoman and European archival material, the book undermines the customary negative stereotypes of Ottoman rule, offering a more nuanced interpretation. Gawrych provides a critical but objective examination of the evolution of government policies toward Albanians, from attempts to mould them into an "iron barrier" to the establishment of a uniform system of administration. He argues that this was a result of a complicated set of conflicting allegiances and identities, rather than a simply adversarial struggle between government imposition of policy and Albanian resistance. The author also analyses the general problems of endemic violence and misadministration at the provincial level, and examines Albanian efforts to gain nationality rights and maintain local privileges

and tribal autonomy. Weaving his analysis of these events into a chronological framework, he concludes that Albanian independence resulted from a confluence of foreign and domestic developments rather than from the design and will of the Albanians themselves. This stimulating study offers many fresh insights into the dynamics of power within the Ottoman Empire and contributes a new perspective to the study of the development of Albanian nationalism.

Egypt in the twenty-sixth century BC. The young pharaoh Cheops wants to forgo the construction of a pyramid in his honor, but his court sages hasten to persuade him otherwise. The pyramid, they tell him, is not a tomb but a paradox, designed to appease the masses by oppressing them. It is a symbol of nothing, a useless and infinite project designed to waste the country's wealth and keep security and prosperity, ever the fonts of sedition, constantly at bay. And so the greatest pyramid in the world has ever seen begins to rise. Rumors multiply. A secret police is formed. Conspiracies—real and imagined—swirl around the rising edifice.

The most drastic purges follow. By the time the first stone is laid, Cheops's subjects are terrified enough to yield to his most murderous whims. Each time one of the massive stones is hoisted into place, dozens of men are crushed, and there are tens of thousands of stones. . . .

Translated from the Jusef Vrioni's French version of the Albanian original, this is the author's own vision of totalitarianism. Albania is not well known by outsiders; it was deliberately closed to the outside world during the communist era. Now it has thankfully become free again, its borders are open and it can be visited, and it is increasingly integrating with the rest of Europe and beyond. Unfortunately, Albania has had its share of problems in the post-communist era; it's a land of destitution and despair, thanks in part to the Albanian mafia, which has turned the country into one of blood-feuds, kalashnikovs, and eternal crises. Yet, Albania is, in essence, a European nation like any other and will soon, it is to be hoped, advance and take its proper place in Europe and the world. The second edition of the Historical Dictionary of Albania relates the history of this little-known country through a detailed chronology, an introduction, a bibliography, appendixes, and over 700 cross-referenced dictionary entries on significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinnocchio. It includes 40 illustrations.

Northern Albania and Montenegro are the only regions in Europe to have retained a true tribal society up to the mid-twentieth century. This book provides the first scholarly investigation of this tribal society, a pioneer work that offers a detailed survey of all the major Albanian-speaking tribes in Albania, Montenegro and Kosovo. Robert Elsie provides comprehensive material on the 69 different tribes, including data on their locations, religious affiliations, tribal structures and relations, population statistics, tribal folklore, legends and history. Also included are excerpts from the works of prominent nineteenth and early-twentieth century writers, such as Edith Durham and Johann Georg von Hahn, who travelled through the tribal regions, as well as short biographies on prominent figures linked to the tribes. As the first book of its kind, The Tribes of Albania will be of interest to scholars and students of the Balkans, of southeastern European anthropology, ethnography and history.

The Sources of Catholic Dogma is a translation of the Enchiridion Symbolorum. It contains dogmatic pronouncements and decisions of the Councils of the Church and the Roman Pontiffs. This is a valuable tool for anyone who wants to know what the Catholic Church truly teaches. This edition has been corrected, as some slight errors made it into the original English translation. These are noted on the pages and the correction page is appended at the end.

The idea of translating Gerdil into English is brilliant, the translation is very good and the introduction of William Frank precise and inspiring. ... Rousseau proposes a complete break with tradition. A new man will arise who is severed from the whole heritage of the past. With him the history of mankind begins anew. In one sense we have here a transposition in the field of philosophy of education of the Cartesian cogito. The subject begins with himself. To this philosophical (and political) project Gerdil opposes the idea of tradition. We have not made ourselves. Our parents have procreated us. The parents do not only procreate their offspring, they also introduce them into the natural and social reality, that is they educate. No education is possible without a lively dialogue with history and society. Since the beginning man stands in a close relationship to others, is made for the human society. ... In these our times one form of modernity (that based largely on Rousseau) is collapsing and the mood of the day is an unclear postmodernity that in some of its versions could well be a return to barbarianism. All the more important is then that another form of modernity be rediscovered and brought

to the attention of the American public. - Rocco Buttiglione, University of St. Pius V, Rome A timely translation of a compelling 18th century critique of Rousseau by the neglected Italian author, Hyacinth S. Gerdil (1718-1802). Gerdil's Anti-Emile may have been written as a critique of Rousseau's Emile, but it can equally be read as a critique of the philosophy embraced by the American educational establishment. Through the influence of John Dewey, Rousseau came to inform much of the educational theory regnant in the United States, with disastrous consequences, now acknowledged by nearly all. In a valuable preface to his translation, Professor Frank, drawing upon his experience both here and abroad, not only places Emile in context, but defends Gerdil's time-transcending, classical view of education against its modern detractors. "Gerdil," Frank tells us, "addressed his Anti-Emile to elders responsible for education, be they parents, teachers, or political authorities, who might find themselves swayed by the powerful rhetoric of Rousseau's Emile." The same may be said of this translation and its informative prefatory material, for it is clearly a study that will be valued by anyone interested in principled education. - Jude P. The author suggests that in this era following the postmodern we have entered a new, monist epoch in which aesthetically mediated belief replaces endless irony as the dominant force in culture. The book documents the "new monism" through an examination of popular films and novels such as American beauty, Life of Pi, and Middlesex as well as in the work of major architects and artists such as Sir Norman Foster, Andreas Gursky, and Vanessa Beecroft. --book cover.

*"This manual closes a circle which began almost thirty-five years ago (November, 1954) with the beginning of work on a doctoral dissertation defended at the Pontifical Biblical Institute in April, 1957 (published in Spanish in 1962). During three decades of teaching and writing the author has kept an active interest in poetics and stylistics and the resulting accumulated knowledge has been concentrated in the present manual. The primary purpose of the book is not to serve as a source of information about facts and authors but rather to initiate the reader into the stylistic analysis of poetry. To obtain information and to classify it the reader can turn to recent works (Watson), earlier works (Knig, Hempel), or reprinted works (Bullinger). Among the poetic techniques discussed are sound and sonority, rhythm, imagery, figures of speech, dialogue and monologue, development and composition"--Page 4 of cover.*

Professor Skendi, a native of Albania, traces the progress and setbacks of Albania's long struggle for national unity during this least-known period of its intricate history. He discusses the heritage of its people and examines in detail the developments that led to Albanian independence: national resistance to the decisions of the Congress of Berlin, later opposition to Turkey, and the struggle between the Albanians and the Young Turks. Consideration is given to such internal problems as geographic configuration, religious and political division, and to such external problems as Italo-Austrian rivalry, political interference from neighboring states, and the involvement of great powers.
