

Essay Paper On Death Penalty

Two distinguished social and political philosophers take opposing positions in this highly engaging work. Louis P. Pojman justifies the practice of execution by appealing to the principle of retribution: we deserve to be rewarded and punished according to the virtue or viciousness of our actions. He asserts that the death penalty does deter some potential murderers and that we risk the lives of innocent people who might otherwise live if we refuse to execute those deserving that punishment. Jeffrey Reiman argues that although the death penalty is a just punishment for murder, we are not morally obliged to execute murderers. Since we lack conclusive evidence that executing murderers is an effective deterrent and because we can foster the advance of civilization by demonstrating our intolerance for cruelty in our unwillingness to kill those who kill others, Reiman concludes that it is good in principle to avoid the death penalty, and bad in practice to impose it.

The skills required to deliver successful research papers have never been more important. This authoritative book provides young readers with a solid foundation to help them formulate their ideas, embark on their research, complete the writing process, and properly cite sources. It aligns with the Common Core standards of being able to provide logical arguments based on solid reasoning and evidence. The text also pays special attention to the pitfalls of plagiarism and the skill of balancing traditional research with new digital tools. Helpful sidebars and full-color imagery drive home the importance of strong research paper skills.

The death penalty is contested across modern social, political, academic, and legal institutions, and this interdisciplinary text helps readers analyze that debate. It begins with *Furman v. Georgia*, which doubles as the Supreme Court's only decision striking down the death penalty and as the origin of the modern American death penalty. The text explores the legal rules and moral reasoning behind the principle that the death penalty be reserved for the worst offenders, as well as the most uncomfortable realities of American capital punishment--the likelihood of wrongful executions and the undeniable influence of race on death penalty practice. Discussion of law and theory is always supplemented with appropriate empirical studies, and is connected to the practice of lawyers on the ground. The text concludes with a glimpse to the future of the death penalty, and situates the increasingly exceptional American experience in an international context. This legal material is carefully presented so as to remain accessible to non-lawyers, and it is intended for anyone with an interest in capital punishment.

NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas--and what it tells us about crime and punishment in America "If you're one of those people who despair that nothing changes, and dream that something can, this is a story of how it does."--Anand Giridharadas, *The New York Times Book Review* WINNER OF THE J. ANTHONY LUKAS AWARD In 1972, the United States Supreme Court made a surprising ruling: the country's death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty's decline, a trend so durable that even in Texas the punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcala, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation's death penalty capital, before becoming a judge on the state's highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners--many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker--along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

Debating the Death Penalty

A Lawyer's Reflections on Dealing with the Death Penalty

Michael Perlin shows how the administration of the death penalty deprives persons with mental disabilities of their constitutional rights, and how trial courts and prosecutors consciously flaunt the law. Using real life examples, he brings this often overlooked situation to light and calls for immediate change.

Taking a unique approach that emphasizes careful reasoning, this cutting-edge reader is structured around twenty-seven landmark arguments that have provoked heated debates on current ethical issues.

Today, death sentences in the U.S. are as rare as lightning strikes. Brandon Garrett shows us the reasons why, and explains what the failed death penalty experiment teaches about the effect of inept lawyering, overzealous prosecution, race discrimination, wrongful convictions, and excessive punishments throughout the criminal justice system.

Over the past three decades, the United States has embraced the death penalty with tenacious enthusiasm. While most of those countries whose legal systems and cultures are normally compared to the United States have abolished capital punishment, the United States continues to employ this ultimate tool of punishment. The death penalty has achieved an unparalleled prominence in our public life and left an indelible imprint on our politics and culture. It has also provoked intense scholarly debate, much of it devoted to explaining the roots of American exceptionalism. America's Death Penalty takes a different approach to the issue by examining the historical and theoretical assumptions that have underpinned the discussion of capital punishment in the United States today. At various times the death penalty has been portrayed as an anachronism, an inheritance, or an innovation, with little reflection on the consequences that flow from the choice of words. This volume represents an effort to restore the sense of capital punishment as a question caught up in history. Edited by leading scholars of crime and justice, these original essays pursue different strategies for unsettling the usual terms of the debate. In particular, the authors use comparative and historical investigations of both Europe and America in order to cast fresh light on familiar questions about the meaning of capital punishment. This volume is essential reading for understanding the death penalty in America. Contributors: David Garland, Douglas Hay, Randall McGowen, Michael Meranze, Rebecca McLennan, and Jonathan Simon.

America's Death Penalty

The Death Penalty

An Eye for an Eye

Explores differing views on the death penalty and uses the opposing viewpoints format to increase proficiency in writing critical essays, with emphasis on organizing ideas and arguments in both the five-paragraph essay and in longer pieces of writing.

This book synthesizes scholarly reflections with personal accounts from prison administrators and inmates to show the harsh reality of life on death row.

This volume provides up-to-date and nuanced analysis across a wide spectrum of capital punishment issues. The essays move beyond the conventional legal approach and propose fresh perspectives, including a unique critique of the abolition sector. Written by a range of leading experts with diverse geographical, methodological and conceptual approaches, the essays in this volume challenge received wisdom and embrace a holistic understanding of capital punishment based on practical experience and empirical data. This collection is indispensable reading for anyone seeking a comprehensive and detailed understanding of the complexity of the death penalty discourse.

Reprint of the fourth edition, which contains an additional text attributed to Voltaire. Originally published anonymously in 1764, *Dei Delitti e Delle Pene* was the first systematic study of the principles of crime and punishment. Infused with the spirit of the Enlightenment, its advocacy of crime prevention and the abolition of torture and capital punishment marked a significant advance in criminological thought, which had changed little since the Middle Ages. It had a profound influence on the development of criminal law in Europe and the United States.

Why does the United States continue to employ the death penalty when fifty other developed democracies have abolished it? Why does capital punishment become more problematic each year? How can the death penalty conflict be resolved? In *The Contradictions of American Capital Punishment*, Frank Zimring reveals that the seemingly insoluble turmoil surrounding the death penalty reflects a deep and long-standing division in American values, a division that he predicts will soon bring about the end of capital punishment in our country. On the one hand, execution would seem to violate our nation's highest legal principles of fairness and due process. It sets us increasingly apart from our allies and indeed is regarded by European nations as a barbaric and particularly egregious form of American exceptionalism. On the other hand, the death penalty represents a deeply held American belief in violent social justice that sees the hangman as an agent of local control and safeguard of community values. Zimring uncovers the most troubling symptom of this attraction to vigilante justice in the lynch mob. He shows that the great majority of executions in recent decades have occurred in precisely those Southern states where lynchings were most common a hundred years ago. It is this legacy, Zimring suggests, that constitutes both the distinctive appeal of the death penalty in the United States and one of the most compelling reasons for abolishing it. Impeccably researched and engagingly written, *Contradictions in American Capital Punishment* casts a clear new light on America's long and troubled embrace of the death penalty.

The death penalty issue has become the epitome of the unresolvable issue, the question which people answer on the basis of gut reactions rather than logical arguments. In the second edition of *An Eye for an Eye?* Stephen Nathanson evaluates arguments for and against the death penalty, and ultimately defends an abolitionist position to the controversial practice, including arguments that show how and why the death penalty is inconsistent with respect for life and a commitment to justice. A timely new postscript and an updated bibliography accompany the volume.

Why does the United States, alone among Western democracies, still have the death penalty? It's not a new question, but David Garland provides fresh answers from a multilayered analysis...The title hints at the most provocative part of Garland's answer. In American history, the "peculiar institution" is slavery. Anyone who thinks its vestiges were wiped out by the Emancipation Proclamation or civil rights laws should read this book and think again.

The American Debate Over the Death Penalty

A Life for a Life

Will the Public Tolerate Abolition?

Experts on both side of the issue speak out both for and against capital punishment and the rationale behind their individual beliefs.

Upon receiving his execution date, one of the thousands of men living on death row in the United States had an epiphany: "All there ever is, is this moment. You, me, all of us, right here, right now, this minute, that's love." *Right Here, Right Now* collects the powerful, first-person stories of dozens of men on death rows across the country. From childhood experiences living with poverty, hunger, and violence to mental illness and police misconduct to coming to terms with their executions, these men outline their struggle to maintain their connection to society and sustain the humanity that incarceration and its daily insults attempt to extinguish. By offering their hopes, dreams, aspirations, fears, failures, and wounds, the men challenge us to reconsider whether our current justice system offers actual justice or simply perpetuates the social injustices that obscure our shared humanity.

Capital Punishment: The Defining Issues for the Next Generation, comprised of original chapters authored by nationally distinguished scholars, is an ambitious effort to identify the most critical issues confronting the future of capital punishment in the United States and the steps that must be taken to gather and analyze the information that will be necessary for informed policy judgments. Contributors will articulate the most pressing issues of administration, litigation, legislation, and executive action confronting the future of capital punishment, and identify research strategies designed to supply answers to those questions. The book represents a valuable academic contribution, particularly within criminal justice and law, and promises to be of interest as well to policymakers and practitioners. It will be published a generation after the Supreme Court's landmark decision in *Gregg v. Georgia* (1976) heralded the "modern era" of capital punishment, and at a time when the efficacy and operation of the death penalty are under intensive scrutiny by governmental study commissions throughout the country. The book is organized into six sections: (A) *Institutional and Disciplinary Perspectives on the Death Penalty*; (B) *Capital Punishment: Public Policy Perspectives*; (C) *The Death Penalty as Applied*; (D) *Participants in the Capital Punishment Process*; (E) *The Punishment of Death*; and (F) *Interdisciplinary Perspectives: Toward a Research Agenda for the Future*.

The American Death Penalty and the Founders' Eighth Amendment

The death penalty arouses our passions as does few other issues. Some view taking another person's life as just and reasonable punishment while others see it as an inhumane and barbaric act. But the intensity of feeling that capital punishment provokes often obscures its long and varied history in this country. Now, for the first time, we have a comprehensive history of the death penalty in the United States. Law professor Stuart Banner tells the story of how, over four centuries, dramatic changes have taken place in the ways capital punishment has been administered and experienced. In the seventeenth and eighteenth centuries, the penalty was standard for a laundry list of crimes--from adultery to murder, from arson to stealing horses. Hangings were public events, staged before audiences numbering in the thousands, attended by women and men, young and old, black and white alike. Early on, the gruesome spectacle had explicitly religious purposes--an event replete with sermons, confessions, and last minute penitence--to promote the salvation of both the condemned and the crowd. Through the nineteenth century, the execution became desacralized, increasingly secular and private, in response to changing mores. In the twentieth and twenty-first centuries, ironically, as it has become a quiet, sanitary, technological procedure, the death penalty is as divisive as ever. By recreating what it was like to be the condemned, the executioner, and the spectator, Banner moves beyond the debates, to give us an unprecedented understanding of capital punishment's many meanings. As nearly four thousand inmates are now on death row, and almost one hundred are currently being executed each year, the furious debate is unlikely to diminish. The Death Penalty is invaluable in understanding the American way of the ultimate punishment. Table of Contents: Abbreviations Introduction 1. Terror, Blood, and Repentance 2. Hanging Day 3. Degrees of Death 4. The Origins of Opposition 5. Northern Reform, Southern Retention 6. Into the Jail Yard 7. Technological Cures 8. Decline 9. To the Supreme Court 10.

Resurrection Epilogue Appendix: Counting Executions Notes Acknowledgments Index Reviews of this book: [Banner] deftly balances history and politics, crafting a book that will be valuable to anyone interested in knowing more about capital punishment, no matter what his or her views are on the ethical issues surrounding the topic. --David Pitt, Booklist Reviews of this book: In this well-researched and clear account...Banner charts how and why this country went from having one of the world's mildest punitive systems to one of its harshest. --Publishers Weekly Reviews of this book: Stuart Banner's book is fine and balanced and important. His lucid history of this grim subject is scrupulously accurate...It is refreshingly free of the tendentiousness and the sensationalism that this subject invites. --Richard A. Posner, New Republic Reviews of this book: [The] contrast between the past and the present can now be seen with great clarity thanks to...Stuart Banner and his comprehensive book, The Death Penalty...American historians have been slow to undertake anything like a full-scale study of the subject...Banner's book does much to fill [the gaps]. His book is an important and comprehensive...treatment of the topic. --Hugo Adam Bedau, Boston Review Reviews of this book: Despite the gruesome nature of the book's topic, it is difficult to stop reading. Banner's research is fascinating, his writing style compelling. Given the emotional nature of the subject (few people known to me are wishy-washy about whether the death penalty is moral or immoral), Banner walks the line of neutrality skillfully, without seeming evasive. --Steve Weinberg, Legal Times Reviews of this book: Stuart Banner's The Death Penalty is a tour de force, remarkable for its neutrality as it traces the ways in which the death penalty has been applied, and for what kinds of crimes, from the Colonial era to the present. Banner...writes like a historian who believes perspective is best gained by dispassionately setting out what happened and letting everyone come to his or her own conclusions. I think, in this book, that works wonderfully. On a subject in which emotions run so high, it seems awfully useful to have a dispassionate voice. After all, if Banner allowed his own feelings on the death penalty--pro, con or somewhere in the middle--to be known, the book easily could be dismissed as a diatribe. He doesn't, and it can't. --Judith Neuman Beck, San Jose Mercury News Reviews of this book: Law professor Banner...offers a persuasive examination of the evolution of capital punishment from Colonial times onward. He makes clear that the death penalty has possessed generally consistent support from the US populace, although changes in the sensibilities of juries, executioners, legal theoreticians, and judges have occurred...Highly recommended. --R. C. Cottrell, Choice Reviews of this book: Stuart Banner aptly illustrates in The Death Penalty, like the nation, the death penalty has changed with the times...Banner's account spotlights a number of interesting trends in American history...Mostly evenhanded in the tour he provides through the history of the death penalty and its role in and reflection of American society, he has managed to provide an accessible look at what is a profoundly controversial and complicated subject. --Steven Martinovich, Ft. Lauderdale Sun-Sentinel Reviews of this book: "For centuries," Stuart Banner tells us, "Americans had been proud to possess a criminal-justice system that made less use of the death penalty than just about any other place on the globe, including the countries of western Europe." But no longer. Now we possess "one of the harshest criminal codes in the world." The Death Penalty helps explain that turnaround, but only in the course of a complicated story in which different factors emerge at different times to play often unforeseeable roles...[This is a] superbly told history. --Paul Rosenberg, Denver Post and Rocky Mountain News Reviews of this book: Stuart Banner's lucid, richly researched book brings us, for the first time, a comprehensive history of American capital punishment from colonial times to the present. He describes the practices that characterized the institution at different periods, elucidates their ritual purposes and social meanings, and identifies

the forces that led to their transformation. The book's well-ordered narrative is interspersed with individual case histories, that give flesh and blood to the account. --David Garland, *Times Literary Supplement* Reviews of this book: [An] informative, even-handed, chillingly fascinating account of why and how the U.S. government and many state governments decided to sponsor executions of criminals--even though innocent defendants might die, too. --Jane Henderson, *St. Louis Post-Dispatch* Reviews of this book: Stuart Banner's *The Death Penalty* is a splendidly objective achievement. Delightfully written, free of academic pretense, liberally sprinkled with apt references from contemporary sources, the book exhaustively explores the multifaceted evolution of America's penal practices. --Elsbeth Bothe, *Baltimore Sun* The *Death Penalty* is certain to be the definitive account of the American experience with capital punishment, from its beginnings in the seventeenth century, to the execution of Timothy McVeigh in 2001. This is a first rate piece of scholarship: well written, deeply researched, fascinating to read, and full of insights and good common sense. It is, in my view, one of the finest books to deal with this troubled and troubling subject. Historical and legal scholarship owe a debt of gratitude to Stuart Banner. --Lawrence Friedman, *Stanford Law School* A masterful book. This is a long overdue account which fills a huge gap in our understanding of America's long and complex relationship to state killing. With meticulous scholarship and lucid prose, Banner has written a compelling account of the place of capital punishment in our society. It sets the standard for all future scholarship on the history of the death penalty in America. --Austin Sarat, author of *When the State Kills: Capital Punishment and the American Condition* The *Death Penalty*, a study we have badly needed, is the first history of the nation's engagement--as well as its disengagement--with capital punishment from the country's earliest days to the present. With a sure grasp of the constitutional issues, Stuart Banner greatly advances a conversation at last underway about the rightness of putting people to death for having inflicted a death. Banner's greatest and most useful feat is remaining dispassionate on a subject that he cares deeply about--as do a growing number of his fellow Americans. --William S. McFeely, author of *Proximity to Death* The *Death Penalty* beautifully explains the changing paths traveled by supporters and opponents of capital punishment over the years. It explores a subject of enormous symbolic importance to Americans today, linking our views about the death penalty to our larger concerns about crime. --David Oshinsky, author of "Worse Than Slavery": *Parchman Farm and the Ordeal of Jim Crow Justice* Banner's book is a superbly detailed and textured social history of a subject too often treated in legal abstractions. It demonstrates how capital punishment has gnawed at the conscience and imagination of Americans, and how it has challenged their efforts to define themselves culturally, politically, and racially. --Robert Weisberg, *Stanford Law School*

A landmark dissenting opinion arguing against the death penalty Does the death penalty violate the Constitution? In *Against the Death Penalty*, Justice Stephen G. Breyer argues that it does: that it is carried out unfairly and inconsistently, and thus violates the ban on "cruel and unusual punishments" specified by the Eighth Amendment to the Constitution. "Today's administration of the death penalty," Breyer writes, "involves three fundamental constitutional defects: (1) serious unreliability, (2) arbitrariness in application, and (3) unconscionably long delays that undermine the death penalty's penological purpose. Perhaps as a result, (4) most places within the United States have abandoned its use." This volume contains Breyer's dissent in the case of *Glossip v. Gross*, which involved an unsuccessful challenge to Oklahoma's use of a lethal-injection drug because it might cause severe pain. Justice Breyer's legal citations have been edited to make them understandable to a general audience, but the text retains the full force of his powerful argument that the time has come for the Supreme Court to revisit the constitutionality of the death penalty. Breyer was joined in his dissent from the bench by Justice Ruth Bader Ginsburg. Their passionate argument has been cited by many legal experts - including fellow Justice Antonin Scalia - as signaling an eventual Court ruling striking down the death penalty. A similar dissent in 1963 by Breyer's mentor, Justice Arthur J. Goldberg, helped set the stage for a later ruling, imposing what turned out to be a four-year moratorium on executions.

The increase in the number of countries that have abolished the death penalty since the end of the Second World War shows a steady trend towards worldwide abolition of capital punishment. This book focuses on the political and legal issues raised by the death penalty in "countries in transition", understood as countries that have transitioned or are transitioning from conflict to peace, or from authoritarianism to democracy. In such countries, the politics that surround retaining or abolishing the death penalty are embedded in complex state-building processes. In this context, Madoka Futamura and Nadia Bernaz bring together the work of leading researchers of international law, human rights, transitional justice, and international politics in order to explore the social, political and legal factors that shape decisions on the death penalty, whether this leads to its abolition, reinstatement or perpetuation. Covering a diverse range of transitional processes in Asia, Africa, Latin America, Europe, and the Middle East, *The Politics of the Death Penalty in Countries in Transition* offers a broad evaluation of countries whose death penalty policies have rarely been studied. The book would be useful to human rights researchers and international lawyers, in demonstrating how transition and transformation, 'provide the catalyst for several of interrelated developments of which one is the reduction and elimination of capital punishment'.

TCR Singles Contains one featured essay from a previous issue of *The Concord Review* (TCR). TCR contains essays from a unique international journal of exemplary history research papers by secondary students of history. This issue features: "Capital Punishment" was written by Benjamin Patrick Chiacchia while attending Lincoln High School in Lincoln, Rhode Island Abstract: Capital punishment has served a unique function in the American penal system, and its 400-year history in the United States has been surrounded by controversy. While the death penalty has a complicated history of influence, including religious norms, social sentiments, and political fervor, its exercise has often fallen to the will of the people. Activism on both sides, coupled with the normal political processes that influence this contentious facet of criminal justice, has led to a nationwide struggle over the continuation and methods used to carry out capital punishment. In the absence of a constitutional provision regarding the death penalty, debate has and continues to

revolve around how and if this form of punishment will continue to be employed by the United States. This paper explores the relationship between the people and the death penalty, as well as the general history of capital punishment and the arguments posed by both sides of the debate.

A Brief Statement of the Argument for the Abolition of the Death Punishment

Annotation In the US, murderers, particularly those sentenced to death, are usually considered as entirely different from the rest of us. Sociologist Susan F. Sharp challenges perspective by reminding us that those facing a death sentence, in addition to being murderers, are brothers or sisters, mothers or fathers, daughters or sons. America's leading writer about the law takes a close, incisive look at one of society's most vexing legal issues Scott Turow is known to millions as the author of peerless novels about the troubling regions of experience where law and reality intersect. In "real life," as a respected criminal lawyer, he has been involved with the death penalty for more than a decade, including successfully representing two different men convicted in death-penalty prosecutions. In this vivid account of how his views on the death penalty have evolved, Turow describes his own experiences with capital punishment from his days as an impassioned young prosecutor to his recent service on the Illinois commission which investigated the administration of the death penalty and influenced Governor George Ryan's unprecedented commutation of the sentences of 164 death row inmates on his last day in office. Along the way, he provides a brief history of America's ambivalent relationship with the ultimate punishment, analyzes the potent reasons for and against it, including the role of the victims' survivors, and tells the powerful stories behind the statistics, as he moves from the Governor's Mansion to Illinois' state-of-the-art 'super-max' prison and the execution chamber. Ultimate Punishment, this gripping, clear-sighted, necessary examination of the principles, the personalities, and the politics of a fundamental dilemma of our democracy has all the drama and intellectual substance of Turow's celebrated fiction.

Norma Herrera lived her brother's personal hell as he waited on Death Row for the courts to decide if the new evidence that proved Leonel Herrera's innocence would save his life. Her book fulfills her last promise to Leo: to tell his story, to tell the truth. "Federal habeas courts do not sit to correct errors of fact but to ensure the individuals are not imprisoned in violation of the Constitution," it said. In other words, being falsely imprisoned is not a violation of your rights. Herrera was executed four months after the ruling. In his final statement he said: "I am innocent, innocent, innocent. I am an innocent man, and something very wrong is taking place tonight." Norma Herrera's book documents court events and press coverage. She recounts the tribulations she and her family suffered as they worked to free Leonel Herrera from his fate. If the all the court proceedings, including the Supreme Court's decision prior to Leo's execution represent the visible tip of the death penalty iceberg, LAST WORDS FROM DEATH ROW exposes the enormous human tragedy that resides below the surface. Her questions drive a powerful wedge between the legal process in capital cases and the truth. Why do the guilty go unpunished? When is innocence not enough to free a convicted man? Does Truth not prevail in the American Justice system? Who pays? We all do. Who is next?

Seminar paper from the year 2007 in the subject History - America, University of North Florida, 12 entries in the bibliography, language: English, abstract: According to the NAACP Legal Defense and Educational Fund Fall 2006 report, the total number of death row inmates amounts to 3,344. There are roughly 41 percent black and 45 percent white prisoners awaiting their execution. Since the reinstatement of capital punishment in 1976, 1047 people have been executed. (Death Row 1, 5). Among all U.S. states allowing the death penalty, California, Texas and Florida have the most criminals on death row (Death Row 29). Normally, major reasons in favor of capital punishments are retribution, deterrence, and the general protection of society. Many people experience poetic justice and indemnification when murderers receive their death sentences. They disregard the unproportional, high cost of the capital punishment process which evolves due to repeated appeals and prisoners spending years or even decades on death row (Banner 295).

"This book explores the various trends in public opinion that influence crime prevention efforts, create public policy, and reform criminal law. It discusses three core issues: the role of free will and determination; the search for the root cause or causes of crime; and the effects of studying crimes versus studying criminals"--Provided by publisher.

Powerful, wry essays offering modern takes on a primitive practice, from one of our most widely read death penalty abolitionists As Ruth Bader Ginsburg has noted, people who are well represented at trial rarely get the death penalty. But as Marc Bookman shows in a dozen brilliant essays, the problems with capital punishment run far deeper than just bad representation. Exploring prosecutorial misconduct, racist

judges and jurors, drunken lawyering, and executing the innocent and the mentally ill, these essays demonstrate that precious few people on trial for their lives get the fair trial the Constitution demands. Today, death penalty cases continue to capture the hearts, minds, and eblasts of progressives of all stripes—including the rich and famous (see Kim Kardashian's advocacy)—but few people with firsthand knowledge of America's "injustice system" have the literary chops to bring death penalty stories to life. Enter Marc Bookman. With a voice that is both literary and journalistic, the veteran capital defense lawyer and seven-time Best American Essays "notable" author exposes the dark absurdities and fatal inanities that undermine the logic of the death penalty wherever it still exists. In essays that cover seemingly "ordinary" capital cases over the last thirty years, Bookman shows how violent crime brings out our worst human instincts—revenge, fear, retribution, and prejudice. Combining these emotions with the criminal legal system's weaknesses—purposely ineffective, arbitrary, or widely infected with racism and misogyny—is a recipe for injustice. Bookman has been charming and educating readers in the pages of *The Atlantic*, *Mother Jones*, and *Slate* for years. His wit and wisdom are now collected and preserved in *A Descending Spiral*.

An in-depth examination of what life under a sentence of death is like.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1890 edition. Excerpt: ...said Mr. Fogg. "Well, your honor," replied the pilot, "I can risk neither my men, nor myself, nor yourself, in so long a voyage on a boat of scarcely twenty tons, at this time of the year. Besides, we would not arrive in time, for it is sixteen hundred and fifty miles from Hong Kong to Yokohama." "Only sixteen hundred," said Mr. Fogg. "It is the same thing." Fix took a good long breath. "But," added the pilot, "there might perhaps be a means to arrange it otherwise." Fix did not breathe any more. "How?" asked Phileas Fogg. "By going to Nagasaki, the southern extremity of Japan, eleven hundred miles, or only to Shanghai, eight hundred miles from Hong Kong. In this last journey, we would not be at any distance from the Chinese coast, which would be a great advantage, all the more so that the currents run to the north." "Pilot," replied Phileas Fogg, "I must take the American mail steamer at Yokohama, and not at Shanghai or Nagasaki." "Why not?" replied the pilot. "The San Francisco steamer does not start from Yokohama. She stops there and at Nagasaki, but her port of departure is Shanghai." You are certain of what you are saying? "Certain." "And when does the steamer leave Shanghai?" "On the 11th, at seven o'clock in the evening. We have then four days before us. Four days, that is ninety-six hours, and with an average of eight knots an hour, if we have good luck, if the wind keeps to the southeast, if the sea is calm, we can make the eight hundred miles which separate us from Shanghai." "And you can leave—" "In an hour, time enough to buy my provisions and hoist sail." "It is a bargain—you are the master of the boat?" "Yes, John Bunsby, master of the *Tankadere*." "Do you wish some earnest money?" "If it does not inconvenience..."

Essay from the year 2008 in the subject English Language and Literature Studies - Linguistics, grade: 1, University of Marburg (Fremdsprachliche Philologien), course: Academic Writing, language: English, abstract: The question whether capital punishment should be practiced as a penalty for criminals has for a long time been a controversial topic because it concerns people worldwide. It is debatable whether methods of punishment such as the death penalty are an ethical solution to crime.

This book examines public attitudes to the death penalty in Japan, focusing on knowledge and trust-based attitudinal factors relating to support for, and opposition to, the death penalty. A mixed-method approach was used. Quantitative and qualitative surveys were mounted to assess Japanese death penalty attitudes. The main findings show that death penalty attitudes are not fixed but fluid. Information has a significant impact on reducing support for the death penalty while retributive attitudes are associated with support. This book offers a new conceptual framework in understanding the death penalty without relying on the usual human rights approach, which can be widely applied not just to Japan but to other retentionist countries.

From 1965 until 1980, there was a virtual moratorium on executions for capital offenses in the United States. This was due primarily to protracted legal proceedings challenging the death penalty on constitutional grounds. After much *Sturm und Drang*, the Supreme Court of the United States, by a divided vote, finally decided that "the death penalty does not invariably violate the Cruel and Unusual Punishment Clause of the Eighth Amendment." The Court's decisions, however, do not moot the controversy about the death penalty or render this excellent book irrelevant. The ball is now in the court of the Legislature and the Executive. Legislatures, federal and state, can impose or abolish the death penalty, within the guidelines prescribed by the Supreme Court. A Chief Executive can commute a death sentence. And even the Supreme Court can change its mind, as it has done on many occasions and did, with respect to various aspects of the death penalty itself, during the moratorium period. Also, the people can change their minds. Some time ago, a majority, according to reliable polls, favored abolition. Today, a substantial majority favors imposition of the death penalty. The pendulum can swing again, as it has done in the past.

Many studies during the past few decades have sought to determine whether the death penalty has any deterrent effect on homicide rates. Researchers have reached widely varying, even contradictory, conclusions. Some studies have concluded that the threat of capital punishment deters murders, saving large numbers of lives; other studies have concluded that executions actually increase homicides; still others, that executions have no effect on murder rates. Commentary among researchers, advocates, and policymakers on the scientific validity of the findings has sometimes been acrimonious. Against this backdrop, the National Research Council report *Deterrence and the Death Penalty* assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates. This new report from the Committee on Law and Justice

concludes that research to date on the effect of capital punishment on homicide rates is not useful in determining whether the death penalty increases, decreases, or has no effect on these rates. The key question is whether capital punishment is less or more effective as a deterrent than alternative punishments, such as a life sentence without the possibility of parole. Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates. The report recommends new avenues of research that may provide broader insight into any deterrent effects from both capital and noncapital punishments.
