

## Essentials Pediatric Nursing Lippincott Williams Wilkins

This study guide is designed to accompany Kyle's primary essentials textbook intended specifically as the course text for the standard, increasingly shortened Pediatrics course in Associate Degree programs.

This helpful study aid is designed to accompany Essentials of Pediatric Nursing, Third Edition, by Terri Kyle and Susan Carman. Exercises and practice questions are designed to help students retain information and succeed in the classroom. Each chapter contains three sections that, in total, include over 1240 review questions, along with Learning Objectives to ensure students master content from each chapter.

Master Need-to-Know Psychiatric Nursing Information with Ease Gain the basic knowledge and patient interaction skills you need to confidently prepare for psychiatric nursing practice with this concise, engaging text. Essentials of Psychiatric Nursing is easy to understand and rich with clinical examples and explanations that clarify challenging concepts and help you build the unique therapeutic communication capabilities necessary to excel in the care of patients with common mental health disorders. New! Unfolding Patient Stories, written by the National League for Nursing, immerse you in commonly encountered clinical scenarios and equip you for successful patient interactions. Concept Mastery Alerts drawn from the Lippincott@PrepU adaptive learning system clarify the most challenging mental health nursing concepts. NCLEX Notes keep you focused on important application areas for success on the NCLEX®. Case Studies interwoven in the mental health disorder chapters help you apply theory to nursing care for specific disorders, supported by online videos that reveal symptoms and procedures in greater detail. Emergency Care Alerts help you recognize situations that may require immediate or specialized care. Nursing Management of Selected Disorders sections familiarize you with the most common major psychiatric disorders. Research for Best Practice boxes reinforce the latest evidence and implications from relevant studies to guide and validate interventions. Therapeutic Dialogue features compare and contrast therapeutic and nontherapeutic conversations to help you hone your patient communication skills. Psychoeducation Checklists help you develop effective patient and family teaching plans. Clinical Vignette features and accompanying questions challenge you to identify solutions to commonly encountered patient scenarios. Drug Profile boxes reinforce your understanding of commonly prescribed medications for patients with mental health problems. Key Diagnostic Characteristics summaries provide fast access to diagnostic criteria, target symptoms, and associated findings for select disorders as described in the DSM-5 by the American Psychiatric Association. Available on the book's companion website, Nursing Care Plans based on case scenarios guide you through the diagnostic stages and plan of care for patients with a particular diagnosis.

***Immerse Yourself in the Role of a Pediatric Nurse Develop the clinical judgment and critical thinking skills needed to excel in pediatric nursing with this innovative, case-based text. Pediatric Nursing: A Case-Based Approach brings the realities of practice to life and helps you master essential information on growth and development, body systems, and pharmacologic therapy as you apply your understanding to fictional scenarios based on real clinical cases throughout the pediatric nursing experience. Accompanying units leverage these patient stories to enrich your understanding of key concepts and reinforce their clinical relevance, giving you unparalleled preparation for the challenges you'll face in your nursing career. Powerfully written case-based patient scenarios instill a clinically relevant understanding of essential concepts to prepare you for clinicals. Nurse's Point of View sections in Unit 1 help you recognize the nursing considerations and challenges related to patient-based scenarios. Unfolding Patient Stories, written by the National League for Nursing, foster meaningful reflection on commonly encountered clinical scenarios. Let's Compare boxes outline the differences between adult and pediatric anatomy and physiology. Growth and Development Check features alert you to age and developmental stage considerations for nursing care. The Pharmacy sections organize medications by problem for convenient reference. Whose Job is it Anyway? features reinforce the individual responsibilities of different members of the healthcare team. Analyze the Evidence boxes compare conflicting research findings to strengthen your clinical judgment capabilities. How Much Does It Hurt? boxes clarify the principles of pediatric pain relevant to specific problems. Hospital Help sections alert you to specific considerations for the hospitalization of pediatric patients. Priority Care Concepts help you confidently assess patients and prioritize care appropriately. Patient Teaching boxes guide you through effective patient and parent education approaches. Patient Safety alerts help you quickly recognize and address potential safety concerns. Interactive learning resources, including Practice & Learn Case Studies and Watch & Learn Videos, reinforce skills and challenge you to apply what you have learned. Learning Objectives and bolded Key Terms help you maximize your study time. Think Critically questions instill the clinical reasoning and analytical skills essential to safe patient-centered practice. Suggested Readings point you to further research for more information and clinical guidance.***

***Lippincott CoursePoint is the only integrated digital curriculum solution for nursing education. CoursePoint provides a completely integrated and adaptive experience, all geared to help students understand, retain, and apply their course knowledge and be prepared for practice. CoursePoint is structured in the way that students study, providing them the content exactly where and when they need it for a more effective learning experience.
