to apply these principles to your own creative endeavours. Any chord progression can be seen as a combination of tonic, dominant and subdominant chords. We employ 12 frequently used combinations which we call the core progressions. The first chapter demonstrates the core progressions in their simplest form using three major chords. Chapters 2-7 show which chords can be used as substitutes for the three majors to widen the range of expressive possibilities. This is similar to the way a painter uses a wider palette of colours beyond the primary colours of red, yellow and blue to achieve visual effects. Chapters 8 and 9 are about cyclic progressions and Chapter 10 details how to change keys. Each

At Gymnastiar's Islamic school, television studios, and MQ Training complex, Hoesterey observed this charismatic preacher developing a training regimen called Manajemen Qolbu into Indonesia's leading self-help program via nationally televised sermons, best-selling books, and corporate training seminars. Hoesterey's analysis explains how Gymnastiar articulated and mobilized Islamic idioms of ethics and affect as a way to offer self-help solutions for Indonesia's
