'Holiness and Ministry' is a response to the call of the World Council of Churches for renewed theological reflection on the biblical roots of ordination to strengthen the vocational identity of the ordained and to provide a framework for ecumenical dialogue.

Why does a denomination prohibiting women clergy support parishes run by women? Why does a denomination opt to ordain women when there are few women seeking to join that clergy? And why have some denominations ordained women so much earlier than others? In a revealing examination of the complex relationship among religion, social forces, and organizational structure, Ordaining Women draws examples and data from over 100 Christian denominations to explore the meaning of institutional rules about women's ordination. Combining historical and sociological perspectives, Mark Chaves deftly shows that formal institutional rules about ordination often diverge from the actual roles of women and are best understood as symbolic gestures in favor of--or in opposition to--gender equality. Ordaining Women concludes that external pressures from the women's movement and ecumenical pressure expressed through interdenominational organizations such as the National Council of Churches influence ordination practices. At the same time, internal factors such as having a source of religious authority that is considered superior to modern principles of equal rights also explain why some denominations ordain women much earlier than others. Surprisingly, "the Bible forbids it" does not account for policies even among fundamentalists and other biblical inerrantists. Chaves' historical and comparative approach offers a revealing analysis of how the internal denominational debates have changed over time, becoming more frequent, more politicized, and more contentious. The skillful delineation of forces affecting debates and policies about women's ordination makes this book an important contribution to our understanding of religious organizations and of gender equality.

Confessions of a Jewish Priest

This book is concerned with religious revivalism in the United States since 1825. It attempts to explain the part which revivalism has played, and is playing today, in the social, intellectual, and religious life of America. The aim has been, in describing the development of modern revivalism and the men who devoted their lives to it, to look below the surface phenomenon in an effort to discover why revivals have constantly recurred, what their effects have been, and what they meant not only to those directly concerned but to all Americans. If the revivals of the past century and a quarter have not always been the crucial factors in the course of American history that their devout exponents claimed, they have nevertheless been more significant than the social historians have yet acknowledged. from the Preface

Ministers and their ministries are the means by which we hold government accountable for providing vital public services such as adequate health, education, and social security benefits. In this provocative book the author systematically examines the persisting and changing features ofWhitehall ministries since 1945. Three case studies - the Scottish Office, the Welsh Office, and the Northern Ireland Office - provide detailed illustrations of the complexity of the issues involved.Professor Rose's analysis raises fresh questions about the priorities of politicians as individuals, and about public priorities involving tens of billions of pounds and millions of public servants. His concluding chapter argues that Mrs Thatcher's attempt to introduce techniques of businessmanagement into government is based upon a fundamental misunderstanding of the priorities of ministers and ministries.

This book presents a timely study of a neglected British Christian women's movement. Jenny Daggars charts the inception of the movement in the exciting times of the post-sixties decades, amid new currents generated in the British denominational churches, and the wider current of Women's Liberation. Focusing on Christian women's concern with the position of women in the church, this book identifies a core Christian women's theology which affirms a (rehabilitated) 'new Eve in Christ', and so contrasts with a concurrent paradigm shift taking shape in North American feminist theology. Daggars argues that this divergence is primarily due to the effect of the prolonged Church of England women's ordination debate upon the ethos of the British Christian women's movement.

Winner of the 1964 Pulitzer Prize in Nonfiction Anti-Intellectualism in American Life is a book which throws light on many features of the American character. Its concern is not merely to portray the scorners of intellect in American life, but to say something about what the intellectual is, and can be, as a force in a democratic society. "As Mr. Hofstadter unfolds the fascinating story, it is no crude battle of eggheads and fatheads. It is a rich, complex, shifting picture of the life of the mind in a society dominated by the ideal of practical success." —Robert Peel in the Christian Science Monitor

Published in 1817, The Doctrines and Discipline of the African Methodist Episcopal Church was the first definitive guide to the history, beliefs, teachings, and practices of the African Methodist Episcopal Church. Beginning with a brief history, the book moves into a presentation of the "Articles of Religion," including the Trinity, the Word of God, Resurrection, the Holy Spirit, scripture, original sin and free will, justification, works, the church, purgatory, the sacraments, baptism, the Lord's Supper, marriage, church ceremonies, and government. Immediately following the articles is an extended four-part catechism that more fully explicates the meanings and implications of the doctrinal statements. A DOCSOUTH BOOK. Baptist churches and their members have encompassed a range of theological interpretations and a variety of social and political viewpoints. At first glance, Baptist theology seems classically Protestant in its emphasis on the Trinity, the incarnation of Jesus Christ, the authority of Scripture, salvation by faith alone, and baptism by immersion. Yet the interpretation and implementation of these beliefs have made Baptists one of the most fragmented denominations in the United States, often characterized as a people who "multiply by dividing." In Baptists in America, Bill J. Leonard traces the history of Baptists, beginning with their origins in seventeenth-century Holland and England. He examines the development of Baptist beliefs and practices, offering an overview of the various denominations and fellowships within Baptism, and considers the disputes surrounding the question of biblical authority, the ordinances (baptism and the Lord's Supper), congregational forms of church governance, and religious liberty. Leonard also examines the role of Baptists in the Fundamentalist and Social Gospel movements of the early twentieth century, the Civil Rights movement, and the growth of the Religious Right. Leonard explores the social and religious issues currently dividing Baptists, including race, the ordination of women, the separation of church and state, and sexuality. He concludes with a discussion of the future of Baptist identity in America.

"This new essay might well be read before tackling the biblical passages, for here the air is cleared over traditional habits of thought which may obscure the witness of Scripture itself. . .its gentle and straightforward style can do much to move the discussion along." -- Theology Today In this book, Jewett argues that on the basis of the Christian ideal of the partnership of the sees, women ought to share fully with men the privileges and responsibilities of church ministry. Paul K. Jewett (1919-1991) was professor of systematic theology at Fuller Theological Seminary in Pasadena, California. He also wrote Man as Male and Female and God, Creation, and Revelation.

In-depth, illustrated exploration of how early North African Christians lived out their faith Using a combination of literary and archeological evidence, this in-depth, illustrated book documents the development of Christian practices and doctrine in Roman Africa -- contemporary Libya, Tunisia, Algeria, and Morocco -- from the second century through the Arab conquest in the seventh century. Robin Jensen and Patout Burns, in collaboration with Graeme W. Clarke, Susan T. Stevens, William Tabbernee, and Maureen A. Tilley, skillfully reconstruct the rituals and practices of Christians in the ancient buildings and spaces where those practices were performed. Numerous site drawings and color photographs of the archeological remains illuminate the discussions. This work provides valuable new insights into the church fathers Tertullian, Cyprian, and Augustine. Most significantly, it offers a rich, unprecedented look at early Christian life in Roman Africa, including the development of key rituals and practices such as baptism and eucharist, the election and ordination of leaders, marriage, and burial. In exploring these, Christianity in Roman Africa shows how the early African Christians consistently fought to preserve the holiness of the church amid change and challenge.

A critical look at the ways in which religion has both empowered and hindered women in their attempts to serve God in the Church since 1700. The author examines the significant, but hitherto neglected, contributions women have made to the history of Anglicanism.

Silenced for 1,600 years, the "heretics" speak for themselves in this account of the Priscillianist controversy that began in fourth-century Spain. In a close examination of rediscovered texts, Virginia Burrus provides an unusual opportunity to explore heresy from the point of view of the followers of Priscillian and to reevaluate the reliability of the historical record. Her analysis takes into account concepts of gender, authority, and public and private space that informed established religion's response to this early Christian movement. Priscillian, who began his career as a lay teacher with particular influence among women, faced charges of heresy along with accusations of sorcery and sexual immorality following his ordination to the episcopacy. He was executed along with several of his followers circa 386. His purportedly "gnostic" doctrines produced controversy and division within the churches of Spain, dissension that continued into the early decades of the fifth century. Burrus's thorough and wide-ranging study enlarges upon previous scholarship, particularly in bringing a feminist perspective to bear on the gendered constructions of religious orthodoxies, making a valuable contribution to the recent commentary that explores new ways of looking at early Christian controversies.

Confessions of a Jewish Priest comprises the reminiscences of Weinreich, a secular Jew who was born in Poland and moved to the U.S. as a young adolescent during World War II, thus narrowly escaping the Holocaust. The book follows Weinreich as he becomes an American, twice-husband, father, and an award-winning scientist, and shows how his subsequent journey toward Christianity and ordination to the Episcopal priesthood

do nothing to impair his sense of Jewishness. In addition to telling a compelling life story, the book discusses Christianity as perceived by a Jew who began as a complete atheist but realizes toward the end of his life that he never really was one.

Debate over women's public ministry tends to focus on biblical and theological issues without grappling with the historical questions. Janette Hassey counters the popular but misleading claim that evangelical feminism (the movement for women's equality rooted in Scripture and evangelical Christian faith) is simply an accommodation to recent secular feminist and theologically liberal movements for women's rights. Rather, evangelical feminism in America first surfaced in the mid-nineteenth century and accelerated at the turn of the century. Those who endorsed women's public ministry were convinced that a literal approach to the Bible, and especially prophecy, demanded such leadership by women.
