Growing Up America brings together new scholarship that considers the role of children and teenagers in shaping American political life during the decades following the Second World War. Growing Up America places young people¶and their representations¶at the center of key political trends, illuminating the dynamic and complex roles played by youth in the midcentury rights revolutions, in constructing and challenging cultural norms, and in navigating the vicissitudes of American foreign policy and diplomatic relations. The authors featured here reveal how young people have served as both political actors and subjects from the early Cold War through the late twentieth-century Age of Fracture. At the same time, Growing Up America contends that the politics of childhood and youth extends far beyond organized activism and the ballot box. By unveiling how science fairs, breakfast nooks, Boy Scout meetings, home economics classrooms, and correspondence functioned as political spaces, this anthology encourages a reassessment of the scope and nature of modern politics itself.

Presents the history of the Boy Scouts of America paintings series, including the full collection of Norman Rockwell's and Joseph Csatari's works for the organization.

This second part presents a comprehensive overview of fundamental optical properties of the III Nitride Semiconductor. All optoelectronic applications based on III-nitrides are due to their unique optical properties and characterizations of III-nitrides. Much information, which is critical to the design and improvement of optoelectronic devices based on III-nitrides has been obtained in the last several years. This is the second of a two part Volume in the seriesOptoelectronic Properties of Semiconductors and Superlattices. Part II consists of chapters with emphasis on the optical spectroscopy of highly excited group III-nitrides, theoretical calculations and experimental measurements of optical constants of III-nitrides. The remaining five chapters focus on the relationships and properties of GaN and InGaN as relating to III Nitrides. This unique volume provides a comprehensive review and introduction of the defects and structural properties of GaN and related compounds for newcomers to the field and will be a stimulus to further advances for experienced researchers. The chapters contained in this volume constitutes a representative sampling of the broad range of research on nitride semiconductor materials and defect issues currently being pursued in academic, government, and industrial laboratories worldwide.

The Eagle Court of Honor Book

The Complete Guide to Scouting's Greatest Moment

An extraordinary journey alongside America's new generation of Eagle Scouts, who are discovering their purpose and bringing the values of Scouting to the world. Over the past century, Scouts have helped to guide the course of American history. But what does Scouting and the Eagle badge mean to the Scouts of today? How will they shape the future of Scouting and America itself? In Spirit of Adventure, Scouting expert and Eagle Scout Alvin Townley finds the answer. Townley traveled across the country and to the far corners of the globe to meet these young Eagle Scouts. He found them everywhere, continuing the life of adventure and service that they had begun in Scouting. He discovered them in Afghanistan providing medical care to villagers, in Australia saving coral reefs, at the Super Bowl and Olympic venues striving for victory, on desert cliffs and at inner-city schools teaching new lessons, in Africa bringing hope to children, and on the windswept deck of the aircraft carrier USS Nimitz preparing for takeoff. Whether doctors, activists, servicemen, entrepreneurs, or teachers, these young men are changing the world through bold actions that capture the essence of the Scouting tradition. In Spirit of Adventure, Townley answers important questions about the future of Scouting and America, while revealing stories of service, courage, and pure excitement that introduce our nation to an inspiring new generation of leaders.

Citizenship in the Community

Published by the Boy Scouts of America for all BSA registered adult volunteers and professionals, Scouting magazine offers editorial content that is a mixture of information, instruction, and inspiration, designed to strengthen readers' abilities to better perform their leadership roles in Scouting and also to assist them as parents in strengthening families.

A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping, signs and signaling, first aid, chivalry, and games.

Kingsley Amis was one of the great masters of comic prose, and no subject was dearer to him than the art and practice of imbibing. This new volume brings together the best of his three out-of-print works on the subject: Kingsley Amis in Drink, Everyday Drinking and How's Your Glass? In one handsome package, the book covers a full shelf of the master's riotous and erudite thoughts on the drinking arts: Along with a series of well-tested recipes (including a cocktail called the Lucky Jim) are Amis's musings on The Hangover, The Boozing Man's Diet, The Mean Sod's Guide, and (presumably as a matter of speculation) How Not to Get Drunk - all leavened with fun quizzes on the making and drinking of alcohol all over the world. Mixing practical know-how and hilarious opinionation, this is a delightful cocktail of wry humour and distilled knowledge, served by one of our great gimlet wits.

Running Toward Danger is the first book that tells the extraordinary saga of Scouting's Honor Medal recipients — and how the award itself transformed American life. It is the product of extensive original research into the BSA's national archives, vintage newspaper accounts, and interviews of recent recipients. The narrative includes more than 150 accounts of the most remarkable — and hair-raising — Honor Medal rescues of the last century. Also, it uncovers the crisis in the early days of the award that ultimately changed the direction of Scouting and brought intensive first aid, lifesaving, and safety training to the nation's youth. Running Toward Danger is filled with extraordinary characters. First among equals is the buckskinned sophisticate, co-founder of Scouting, and friend of U.S. presidents, Daniel Carter Beard, who created the Honor Medal — and then nearly drove it to disaster. But there also are hundreds of young men and women who find themselves in the most terrifying situations imaginable, fly into action, and not only to survive but also to save others in the process. It is a narrative that swings from a lonely, lightning-scorched mountain top to an isolated farmhouse, to crowded urban neighborhoods, to shark-filled waters — each story presenting its own dangers that demands a clear-minded and smart strategy, requiring an abundance of bravery from its young rescuers.For Scouts and their families these stories are the best lesson imaginable on what makes Scouting great — and what the character-building training programs of the Boy Scouts of America develop in young people. But this also is a book for all Americans that celebrates the courage and resourcefulness of our nation's youth. You never will forget these remarkable stories of young people who, when met with the ultimate challenge, don't hesitate to run toward danger to help others.

Mischa Honeck’s Our Frontier Is the World is a provocative account of how the Boy Scouts echoed and enabled American global expansion in the twentieth century. The Boy Scouts of America (BSA) has long been a standard bearer for national identity. The core values of the organization have, since its founding in 1910, shaped what it means to be an American boy and man. As Honeck shows, those masculine values had implications that extended far beyond the borders of the United States. Writing the global back into the history of one of the country’s largest youth organizations, Our Frontier Is the World details how the BSA operated as a vehicle of empire from the Progressive Era up to the countercultural moment of the 1960s. American boys and men wearing the Scout uniform never simply hiked local trails to citizenship; they forged ties with their international peers, camped in foreign lands, and started troops on overseas military bases. Scouts traveled to Africa and even sailed to icy Antarctica, hoisting the American flag and standing as models of loyalty, obedience, and bravery. Through scouting America’s complex engagements with the world were presented as honorable and playful masculine adventures abroad. Innocent fun and earnest commitment to doing a good turn, of course, were not the whole story. Honeck argues that the good-natured Boy Scout was a ready means for soft power abroad and gentle influence where American values, and democratic capitalism, were at stake. In other instances the BSA provided a pleasant cover for imperial interventions that required coercion and violence. At Scouting’s global frontiers the stern expression of empire often lurked behind the smile of a boy.

When Hank Paulson, the former CEO of Goldman Sachs, was appointed in 2006 to become the nation's next Secretary of the Treasury, he knew that his move from Wall Street to Washington would be daunting and challenging. But Paulson had no idea that a year later, he would find himself at the very epicenter of the world's most cataclysmic financial crisis since the Great Depression. Major institutions including Bear Stearns, Fannie Mae, Freddie Mac, Lehman Brothers, AIG, Merrill Lynch, and Citigroup, among others—all steeped in rich, longstanding tradition—literally teetered at the edge of collapse. Panic ensnared international markets. Worst of all, the credit crisis spread to all parts of the U.S. economy and grew more ominous with each passing day, destroying jobs across America and undermining the financial security millions of families had spent their lifetimes building. This was truly a once-in-a-lifetime economic nightmare. Events no one had thought possible were happening in quick succession, and people all over the globe were terrified that the continuing downward spiral would bring unprecedented chaos. All eyes turned to the United States Treasury Secretary to avert the disaster. This, then, is Hank Paulson's first-person account. From the man who was in the very middle of this perfect economic storm, ON THE BRINK is Paulson's fast-paced retelling of the key decisions that had to be made with lightning speed. Paulson puts the reader in the room for all the intense moments as he addressed urgent market conditions, weighed critical decisions, and debated policy and economic considerations with of all the notable players—including the CEOs of top Wall Street firms as well as Ben Bernanke, Timothy Geithner, Sheila Bair, Nancy Pelosi, Barney Frank, presidential candidates Barack Obama and John McCain, and then-President George W. Bush. More than an account about numbers and credit risks gone bad, ON THE BRINK is an extraordinary story about people and politics—all brought together during the world's impending financial Armageddon.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Until the fall of 2006 I was one of four Eagle Advancement Committee members of Pioneer District of Lincoln Heritage Council of Louisville, KY. Over the past 8 years I had the pleasure of assisting Scoutmasters with their Life Scouts making the Eagle rank. I evaluated 52 Eagle Proposals and sat on 44 Eagle Boards of Review. Moreover, I served as Scoutmaster of Troop 147 for 10 years, and before that I was Cubmaster of Pack 147. Being part of this District, I also served as Chairman of several Fall and Winter District Camporees and Merit Badge Fairs.

There are other events too numerous to mention.As a former Scoutmaster, I well remember the uncertainties I once had of the procedures in assisting Life Scouts with the formulation and completion of their Eagle Projects and all the required paperwork dictated by the district, council, and national office. Therefore, I have put together a guide that I believe will assist Scoutmasters, other leaders, and the Life Scouts in attaining the rank of Eagle. Through research, I have learned that most Boy Scout Councils and their Districts go about the process in about the same way. However, I was not able to find documentation that specifically outlined each and every step of this process and which specifically listed all the documentation that this affords. I have made use of my Councils web site (http://www.lhbsa.org/) and have made it accessible for you to download several required documents in PDF form. You will also have to substitute the names of your Council and District for the ones I have listed. I hope that you will find that this guideline offers a consistent approach that if followed will eliminate so many confusing approaches to the process. The biggest problem appeared to be the completion of the Eagle Scout Leadership Project Workbook, No. 18-927A, giving many leaders problems. There was considerable ambiguity in deciding exactly what the Reviewers of the Proposals might want included. Some wanted more detail in one part and not in another. For example, some insisted on letters of need for a project whereas some did not. Sections 1 and 2 of this guide address all the concerns in the Workbook with examples and clarification for the Life Scout and Scoutmaster. Also, I have purposely omitted any reference to NESA (National Eagle Scout Association) or any possible scholarship that may arise from a Scout earning Eagle. I leave this up to the Scoutmasters and other leaders to cover this with the Eagle candidate. The Lincoln Heritage Council gives its permission for you to duplicate and use any of its forms. I quote, This section of the Lincoln Heritage Council web site contains various forms from the Council and BSA National offices. Feel free to download them, print them, and use them elsewhere. (http://www.lhbsa.org/)Lastly, thank you for trying this approach, and I sincerely hope that it proves useful to you. Accidents and Foolhardiness in the First National Park

Our Frontier Is the World

The chilling tome that launched an entire genre of books about the often gruesome but always tragic ways people have died in our national parks, this updated edition of the classic includes calamities in Yellowstone from the past sixteen years, including the infamous grizzly bear attacks in the summer of 2011 as well as a fatal hot springs accident in 2000. In these accounts, written with sensitivity as cautionary tales about what to do and what not to do in one of our wildest national parks, Whittlesley recounts deaths ranging from tragedy to folly—from being caught in a freak avalanche to the goring of a photographer who just got a little too close to a bison. Armchair travelers and park visitors alike will be fascinated by this important book detailing the dangers awaiting in our first national park. This authoritative and anecdote-filled biography of Michael Bloomberg—2020 presidential candidate and one of the richest and famously private/public figures in the country—is a “masterful work...[and] an absolutely first-rate study of leadership in business, politics, and philanthropy” (Doris Kearns Goodwin, Pulitzer Prize-winning author) from a veteran New York Times reporter. Michael

Bloomberg’s life sounds like an exaggerated version of The American Story, except his adventures are real. From modest Jewish middle class (and Eagle Scout) to Harvard MBA to Salomon Brothers hot shot (where he gets “sent upstairs” and later fired) to creator of the Bloomberg terminal, a machine that would change Wall Street and the financial universe and make him a billionaire, to presidential candidate in 2020, Randolph’s account of Bloomberg’s life reads almost like a novel. “A vivid, timely study of Bloomberg’s brand of plutocracy” (Publishers Weekly), this engaging and insightful biography recounts Mayor Bloomberg’s vigorous approach to New York City’s care—including his attempts at education reform, anti-smoking and anti-obesity campaigns, climate control, and new developments across the city. After he engineered a surprising third term as Mayor, Bloomberg returned to his business and philanthropies that focused increasingly on cities. The chapter that describes this is one of the most revealing of his temperament and energy and vision as well as how he spends his “private” time that was virtually off-limits even when he was mayor. Bloomberg promised to give away his money before he died, and his giving has focused on education, gun control, and a fighting climate change. He joined the 2020 presidential campaign as a moderate liberal and spent his millions focused on ousting President Donald Trump.
