There were many little-known challenges to racial segregation before the landmark Supreme Court decision in *Brown v. Board of Education* (1954). The author's oral history interviews highlight civil rights protests seldom considered significant, but that help us understand the beginnings of the civil rights struggle before it became a mass movement. She brings to light many important but largely forgotten events, such as the often overlooked 1950s Oklahoma sit-in protests

that provided a model for the better-known Greensboro, North Carolina, sit-ins. This book's significance lies in its challenge to perspectives that dominate scholarship on the civil rights movement. The broader concepts illustrated-including agency, culture, social structure, and situations-throughout this book open up substantially more of the complexity of the civil rights struggle. This book employs a methodology for analyzing not just the civil rights movement but other social movements and, indeed, social change in general.

the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed

The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Denied the full privileges and protections of democracy at home, they prepared to defend it abroad in hopes that their service would be rewarded with equal citizenship at war’s end. Bringing together both Native and non-Native scholars who have a wide range of experience in the practice and theory of indigenous education, editors Dorothy Aguilera–Black Bear and John Tippeconnic III focus on the theoretical foundations of indigenous leadership, the application of leadership theory to community contexts, and the knowledge necessary to prepare leaders for decolonizing education. The contributors draw on

The South has been the standard focus of Reconstruction, but reconstruction following the Civil War was not a distinctly Southern experience. In the post-Civil War West, American Indians also experienced reconstruction through removal to reservations and assimilation to Christianity, and Latter-day Saints—Mormons—saw government actions to force the end of polygamy under threat of disestablishing the church. These efforts to bring nonconformist Mormons into the American mainstream figure in the more familiar scheme of the federal government's reconstruction—aimed at rebellious white Southerners and uncontrolled American

Indians. In this volume, more than a dozen contributors look anew at the scope of the reconstruction narrative and offer a unique perspective on the history of the Latter-day Saints. Marshaled by editors Clyde A. Milner II and Brian Q. Cannon, these writers explore why the federal government wanted to reconstruct Latter-day Saints, when such efforts began, and how the initiatives compare with what happened with white Southerners and American Indians. Other contributions examine the effect of the government's policies on Mormon identity and sense of history. Why, for example, do Latter-day Saints not have a Lost Cause? Do they share a resentment with American Indians over the loss of sovereignty? And were nineteenth-century Mormons

Together, and in dialogue with one another, their work suggests a new way of understanding the regional, racial, and religious dynamics of reconstruction—and, within this framework, a new way of thinking about the creation of a Mormon historical identity.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the

intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched

an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations

into its risk-benefit framework for opioid approval and monitoring.

The Budget of the United States Government

FEMA's Hazard Mitigation Grant Program is a powerful resource in the combined effort by Federal, State, and local government, as well as private industry and homeowners, to end the cycle of repetitive disaster damage. The Robert T. Stafford Disaster Relief and Emergency Assistance Act was passed on November 23, 1988, amending Public Law 93-288, the Disaster Relief Act of 1974. The Stafford Act included Section 404, which

established the Hazard Mitigation Grant Program. In 1993, the Hazard Mitigation and Relocation Act amended Section 404 to increase the amount of HMGP funds available and the cost-share to 75 percent Federal. This amendment also encouraged the use of property acquisition and other non-structural flood mitigation measures. In an effort to streamline HMGP delivery, FEMA encourages States to develop their mitigation programs before disaster strikes. States are adopting a more active HMGP management role. Increased capabilities

Download File PDF Executive Order 2015 46
Oklahoma Secretary Of State

may include: Conducting comprehensive all-hazard mitigation planning prior to disaster events; Providing applicants technical assistance on sound mitigation techniques and hazard mitigation policy and procedures; Coordinating mitigation programs through interagency teams or councils. Conducting benefit-cost analyses; and Preparing National Environmental Policy Act reviews for FEMA approval. States that integrate the HMGP with their frequently updated State Administrative and Hazard Mitigation Plans will create

cohesive and effective approaches to loss reduction. This type of coordinated approach minimizes the distinction between “predisaster” and “post-disaster” time periods, and instead produces an ongoing mitigation effort. Hazard mitigation is any sustained action taken to reduce or eliminate long-term risk to people and property from natural hazards and their effects. A key purpose of the HMGP is to ensure that the opportunity to take critical mitigation measures to protect life and property from future disasters is not lost

during the recovery and reconstruction process following a disaster. Program grant funds available under Section 404 of the Stafford Act provide States with the incentive and capability to implement mitigation measures that previously may have been infeasible. The purpose of this Desk Reference is to: Provide comprehensive information about FEMA's Hazard Mitigation Grant Program (HMGP); Increase awareness of the HMGP as an integral part of statewide hazard mitigation efforts; and Encourage deeper

commitments and increased responsibilities on the part of all States and communities to reduce damage and losses from natural disasters. This Desk Reference is organized to simplify program information and assist the reader with practical guidance for successful participation in the program. Lists of program-related acronyms and definitions are included, along with appendices that amplify selected aspects of the HMGP. This Desk Reference is organized into 14 sections, each of which presents a major HMGP subject area. In each section,

information is presented on the right side of the page. In several sections, job aids containing supplemental material are provided. The job aids for each section can be found at the end of the section. At the front of each section, there is a detailed table of contents to help you locate specific information.

The contributors to this volume assert the importance of queer kinship to queer and trans theory and to kinship theory. In a contemporary moment marked by the rising tides of neoliberalism, fascism, xenophobia,

and homo- and cis-nationalism, they approach kinship as both a horizon and a source of violence and possibility. The contributors challenge dominant theories of kinship that ignore the devastating impacts of chattel slavery, settler colonialism, and racialized nationalism on the bonds of Black and Indigenous people and people of color. Among other topics, they examine the “blood tie” as the legal marker of kin relations, the everyday experiences and memories of trans mothers and daughters in Istanbul, the outsourcing of reproductive

labor in postcolonial India, kinship as a model of governance beyond the liberal state, and the intergenerational effects of the adoption of Indigenous children as a technology of settler colonialism. Queer Kinship pushes the methodological and theoretical underpinnings of queer theory forward while opening up new paths for studying kinship. Contributors. The role of formal and informal institutional forces in changing three areas of U.S. public policy: privacy rights, civil rights and climate policy There is no finality to the public policy process. Although it's often assumed that once a law is enacted it is implemented faithfully, even policies believed to be stable can change or drift in unexpected directions. The Fourth Amendment, for example, guarantees

Americans' privacy rights, but the 9/11 terrorist attacks set off one of the worst cases of government-sponsored espionage. Policy changes instituted by the National Security Agency led to widespread warrantless surveillance, a drift in public policy that led to lawsuits challenging the constitutionality of wiretapping the American people. Much of the research in recent decades ignores the impact of large-scale, slow-moving, secular forces in political, social, and economic environments on public policy. In Policy Drift, Norma

Riccucci sheds light on how institutional forces collectively contributed to major change in three key areas of U.S. policy (privacy rights, civil rights, and climate policy) without any new policy explicitly being written. Formal levers of change—U.S. Supreme Court decisions; inaction by Congress; Presidential executive orders—stimulated by social, political or economic forces, organized permutations which ultimately shaped and defined contemporary public policy. Invariably, implementations of new policies are

embedded within a political landscape. Political actors, motivated by social and economic factors, may explicitly employ strategies to shift the direction of existing public policies or derail them altogether. Some segments of the population will benefit from this process, while others will not; thus, “policy drifts” carry significant consequences for social and economic change. A comprehensive account of inadvertent changes to privacy rights, civil rights, and climate policy, Policy Drift demonstrates how unanticipated levers of

change can modify the status quo in public policy.

Oklahoma, the forty-sixth state admitted to the union, has a history much more interesting and extensive than its relatively recent statehood indicates. Roy Gittinger's classic study begins in 1803, the year of the Louisiana Purchase, which brought the region into the United States and closes in 1906, when Indian Territory was poised to become the state of Oklahoma. The territory became the home of the Five "Civilized" Tribes—Cherokee, Chickasaw, Creek, Choctaw, and Seminole—in the years

Download File PDF Executive Order 2015 46 Oklahoma Secretary Of State

following the Indian Removal Act of 1830. Through treaties and Indian removals later in the century, lands were reserved to Plains Indian tribes—the Kiowa, Comanche, and Apache in the southwest; Cheyenne and Arapahoe in the west; Iowa, Kickapoo, Pottawatomie, and Shawnee in the central portion; Osage and other tribes in the north and east. The Panhandle was public land and the central region was the Oklahoma District, not open to settlement by whites or possessed by any Indian tribe. In 1889, the Oklahoma District was thrown open to settlement, and the “land run” allowed

thousands of home seekers to settle a portion of the vast territory. It set the stage for subsequent openings, for a territorial government, and finally for Oklahoma statehood in 1907. The Formation of the State of Oklahoma gives a definitive account of the original Indian land grant, the treaties that settled tribes in Indian Territory, developments after the tribes settled, the problems raised by white settlement, and the dynamic events that led to the establishment of the commonwealth of Oklahoma. In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice;

Download File PDF Executive Order 2015 46 Oklahoma Secretary Of State

community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are

part of communities or support them, as well as the root causes and structural barriers that need to be overcome. This public domain book is an open and compatible implementation of the Uniform System of Citation.

At the close of the Civil War, it was clear that the military conflict that began in South Carolina and was fought largely east of the Mississippi River had changed the politics, policy, and daily life of the entire nation. In an expansive reimagining of post-Civil War America, the essays in this volume explore these profound changes not only in the South but also in the Southwest, in the Great Plains, and abroad. Resisting the tendency to use Reconstruction as a catchall, the contributors instead present diverse histories of a postwar nation that stubbornly refused to adopt a

unified ideology and remained violently in flux. Portraying the social and political landscape of postbellum America writ large, this volume demonstrates that by breaking the boundaries of region and race and moving past existing critical frameworks, we can appreciate more fully the competing and often contradictory ideas about freedom and equality that continued to define the United States and its place in the nineteenth-century world. Contributors include Amanda Claybaugh, Laura F. Edwards, Crystal N. Feimster, C. Joseph Genetin-Pilawa, Steven Hahn, Luke E. Harlow, Stephen Kantrowitz, Barbara Krauthamer, K.
