While everyone knows the new *White Star* liner was the most glamorous and was full of millionaires when she sank, few appreciate just how luxurious she was. Even in *Third Class*, the accommodation was better than on *First Class* on many older ships. For the first time, Bruce Beveridge, Steve Hall and Scott Andrews look at the ship itself, and at her interior design and fittings. From cobalt blue Spode china and Elkington plate silverware in the a la carte restaurant to the design of the boilers and fixturesand fittings onboard the world's most luxurious vessel, they tell the story of a liner built at the peak of the race between the British, French and Germans to build bigger and better ships. *—from publisher description*

"This is a fascinating book that will educate and enthrall. Schwartz has done some extraordinary reporting." —*The New York Times Book Review*
“*In this highly entertaining but deeply disturbing book, Erick Schwartz demonstrates the extent of our cultural thrall to China. His depiction of the crew characters, American and Chinese, who have enabled this situation represents a significant feat of investigative journalism. His narrative is about not merely the movie business, but the new world order.*”—Andrew Solomon, author of *Far from the Tree* and *The Noonday Demon*
An eye-opening and deeply reported narrative that details the surprising role of the movie business in the high-stakes contest between the U.S. and China. From trade to technology to military might, competition between the United States and China dominates the foreign policy landscape. But this battle for global influence is also playing out in a strange and unexpected arena: the movies. The film industry, Wall Street Journal reporter Erick Schwartz explains, is the latest battleground in the tense and complex rivalry between these two world powers. In recent decades, as China has grown into a giant of the international economy, it has become a crucial source of revenue for the American film industry. Hollywood studios are now heading over backward to make movies that will appeal to China's citizens—and gain approval from severe Communist Party censors. At the same time, and with America's unwitting help, China has built its own film industry into an essential arm of its plan to export its national agenda to the rest of the world. The competition between these two movie businesses is a Cold War for this century, a clash that determines whether democratic or authoritarian values will be broadcast most powerfully around the world. *Red Carpet* is packed with memorable characters who have—knowingly or otherwise—played key roles in this tangled industry web: not only A-list stars like Matt Damon, Angelina Jolie, and Richard Gere but also eccentric Chinese billionaires, zany exevate filmmakers, and starlets who disappear from public life without explanation or trace. Schwartz combines original reporting, political history, and show-biz intrigue in an exhilarating tour of global entertainment, from propaganda film sets in Beijing to the boardrooms of Hollywood studios to the living rooms in Kenya where families decide whether to watch an American or Chinese movie. Alarming, occasionally absurd, and wildly entertaining, *Red Carpet* will not only alter the way we watch movies but also offer essential new perspective on the power struggle of this century.

A History Book for New Readers

On the 100th anniversary of Titanic's sinking, National Geographic revisits the romance, glory, and tragedy of this tremendous ship and presents an insider's look at the new findings about the passengers and scientific study of the wreck site. For 100 years the great ship Titanic has rested in its final grave on the ocean floor, lost to deep ocean darkness until its 1985 discovery by National Geographic's Bob Ballard. Relive the spell-binding tragic final hours of the ship in a detailed retelling of the famous story and learn the personal stories of lesser-known passengers, including the "guarantees." For the first time since its discovery, Ballard travels to Belfast to interview descendants of the ship builders and the "guarantee group"—the ill-fated men who traveled on the ship's first voyage to assure its seaworthiness. Understand underwater mapping techniques that have brought Titanic's debris field into high resolution, and get a glimpse of current deep ocean scientific research on the wreckage and the future of underwater exploration.

Describes the tragic voyage of the world's largest ocean liner, its collision with an iceberg during its maiden voyage, and the amazing underwater discovery that followed.

From the New York Times bestselling author of *The Downstairs Girl* comes the richly imagined story of Valora and Jamie Luck, twin British-Chinese acrobats traveling aboard the Titanic on its ill-fated maiden voyage. Valora Luck has two things: a ticket for the biggest and most luxurious ocean liner in the world, and a dream of leaving England behind and making a life for herself as a circus performer in New York. Much to her surprise though, she's turned away at the gangway; apparently, Chinese aren't allowed into America. But Val has to get on that ship. Her twin brother Jamie, who has spent two long years at sea, is there, as is an American circus owner Val hopes to audition for. Thank fully, there's not much to trained acrobat like Val can't overcome when she puts her mind to it. As a stowaway, Val should keep her head down and stay out of sight. But the clock is ticking and she has just seven days as the ship makes its way across the Atlantic to find Jamie, perform for the circus owner, and convince him to help get them both into America. Then one night the unthinkable happens, and suddenly Val's dreams of a new life are crushed under the weight of the only thing that matters: survival.

The Titanic Remembered and Re-Discovered
The disaster holds secrets and stories of love and bravery, cowardice and greed. Explore these and other themes that surround the sinking of the grand ship, Titanic.

The new Titanic has become synonymous with catastrophe, the story of this luxurious liner legendary. Wrecked after colliding with an iceberg on her maiden voyage, the loss of around 1,500 lives among her passengers and crew has gone down in history as one of the most motive and tragic disasters in history. In this evocative collection of photographs the full story of Titanic is told, set against the backdrop of the great race to build the biggest and best passenger liner. From her genesis in the shippard of Harland & Wolff to the anticipation of her launch and through her fitting out and sea trials, the excitement of Titanic's maiden voyage is keenly evident in the many rare and unusual images in this book. Looking at her departure from Southampton and her stops at Cherbourg and Queenstown, and including many photos never before published, this book follows the story to its tragic conclusion, the role of Carpathia and the aftermath of this shattering disaster.

Do you know how many miles beneath the surface of the waves the wreck of the titanic lies? What do scientists and historians now believe led to the iceberg only being seen at the last minute? The flares that were sent up by the crew were supposed to signal 'distress' - but what did they actually say? All these questions and more are answered in this fascinating eBook which contains over one hundred facts about the ship and her tragic maiden voyage.

Examines the ship in a series of photographs that map the wreck to give a picture of the tragedy, and includes charts of the debris field and renderings of the ship by its original designers.

Acclaimed as the most beautiful woman of her time, Eleanor of Aquitaine (c.1122–1204) uniquely shaped 12th-century Europe. As the wife of two kings and the mother of three others, her beauty, grace, style, and intellect captivated a continent. At a time when men regarded women as little more than personal property to be owned and exploited, Eleanor threw off the shackles of male dominance and scribed an indelible mark on the history of France and England. As France's queen, Eleanor accompanied Louis VII on the Second Crusade to the Holy Land and championed a burgeoning feminist movement. After divorcing Louis, she married Henry II of England. Her marriage to Henry upset the balance of power in Europe and led to 300 years of warfare before his restoration. Perhaps best remembered as a symbol of courtly love, Eleanor of Aquitaine also continues to personally the proud image of emancipated womanhood.

One hundred and sixty minutes. That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic. There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world. It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission. More than twenty-eight ships would be involved in the rescue of Titanic survivors along with four different countries. At the helm were two wire Marconi operators, Jack Phillips 25 and Harold Bride 22, tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles. Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts. The race to save the largest ship in the world from certain death would reveal true heroes and villains. It would begin at 11:40 PM on April 14, when the iceberg was struck and would end at 2:20 AM April 15, when her lights blinked out and left 1500 people thrashing in 25-degree water. Although the race to save Titanic survivors would stretch on beyond this, most people in the world would die, but the amazing thing is that of the 2229 people, 710 did not and this was the success of the Titanic rescue effort. We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man, woman, and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room. These two men tapping out QOD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three-hundred-foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting-edge technology of the time, wireless.

Welcome to the RMS Titanic, the world's largest passenger ocean liner, where no matter your class you'll be assured of a comfortable voyage. But unfortunately, we can't guarantee you'll make it! You may remember a few things about the Titanic from that big movie or from your history classes, but this book is here to help fill in the blanks. Get ready to learn all about the Titanic, from the creation of the first passenger ocean liner in the 1890s, to the construction and ultimate destruction of the Titanic in 1912. This book will bring to life the Titanic by letting you in on some often overlooked details and letting you ride along with some of the passengers—some who enjoyed their last few days of life on the ship, while others did what they could to survive. You'll learn:
Who is the man responsible for the start of the passenger ocean liner boom?
Why were the workers on the Titanic almost entirely Protestant?
What was the name of the Titanic's mascot cat?
Who wore some of the richest people in the world on board the Titanic and which of them survived?
How did some of the passengers on the Titanic become heroes, while others proved to be zeroes?Each chapter of our trivia book is broken up into fifteen short sections that will introduce you to major themes, background, and sometimes weird stories surrounding the Titanic. Unlike your high school history teacher, we're not going to put you to sleep with endless line of dates, countless numbers about the costs, or a whole lot of deep sea technical jargon, but instead we'll show you the titanic from a series of different perspectives and themes in a way that landlubbers can understand. To go along with the fifteen short break-downs of the war, every chapter also ends with twenty fun facts or bits of trivia, and five questions to test your knowledge on the Titanic.So put on your lifejacket, strap into a lifeboat, and get ready to learn!

An illustrated history of the sea tragedy recounts the life of the ship from its construction to the discovery and exploration of its wreckage

Launched in 1914, two years after the ill-fated voyage of her sister ship, RMS Titanic, the Britannic was intended to be superior to her tragic twin in every way. But war intervened and in 1915 she was requisitioned as a hospital ship. Just one year later, while on her way to collect troops wounded in the Balkans campaign, she fell victim to a mine laid by a German U-boat and tragically sank in the middle of the Aegean Sea. There her wreck lay, at a depth of 400 feet, until it was discovered 59 years later by legendary explorer Jacques Cousteau. In 1996 the wreck was bought by the author of this book, Simon Mills. Exploring the Britannic tells the complete story of this enigmatic ship: her construction, launch and life, her fateful last voyage, and the historical findings resulting from the exploration of the well-preserved wreck over a period of 40 years. With remarkable sonar scans and many never before seen photographs of the wreck, plus the original Harland & Wolff ship plans, not previously published in their entirety, Exploring the Britannic finally details how the mysteries surrounding the 100-year-old enigma were laid to rest, and what the future might also hold for her.

Story of the Titanic

The Titanic Coloring Book

On the night of April 14, 1912, as it made its first voyage, the luxury steamship Titanic struck an iceberg. Then, a few hours after midnight on April 15, the ship sank thousands of feet before setting on the ocean floor. And that's where it stayed, whereabouts unknown, for the next 73 years until it was discovered by oceanographer Robert Ballard and his crew. The pictures and video Ballard brought back from the 1985 discovery helped stir new interest in the Titanic's voyage and its resting spot.

George and Catherine Stewart share not only the burden of Catherine's heart disease, which would cause her death at any time, but the memory of Jerome Martell, her first husband and George's closest friend. Martel, a brilliant doctor passionately concerned with social justice, is presumed to have died in a Nazi prison camp. His sudden return to Montreal precipitates the central crisis of the novel. Hugh MacLennan takes the reader into the lives of his three characters and back into the world of Montreal in the thirties, when politics could send an idealist across the world to Spain, France, Auschwitz, Russia, and China before his return home.

Young Jim Mulholland can't believe his good luck: He has signed on as a cabin boy who would be the world's finest ocean liner, the Titanic, and can't wait for the history-making voyage across the sea to America. As part of his duties Jim is charged of the ship's cat, a beautiful tortoiseshell that also appears happy to be on board. He calls the cat by the ship's construction number, 4-0-1, certain that she will bring him good luck. And he's delighted when 4-0-1 shortly gives birth to a litter of kittens. But once the ship's trial runs are completed and it's ready to launch to sea, Jim notices that 4-0-1 is nowhere to be found. He's got to find her! Jim can't cast off without her lucky cat. Jim is faced with a decision that will affect the rest of his life.A newspaper journalist for 30 years, Marty Crisp often writes about the animals that hold a special interest and place in her heart. Describes the expedition to locate the wreck of the Titanic and photograph its remains

Having undertaken more than thirty dives to the wreck of Titanic, acclaimed director James Cameron has probably gained more firsthand insight into the sinking of the ship than any person alive today. Now, more than one hundred years after the tragedy, Exploring the Deep provides a thrilling account of his remarkable expeditions and the incredible technological innovations that made them possible. Capturing all the excitement, danger, and wonder of these pioneering expeditions, Exploring the Deep also examines the legacy of Cameron's explorations and the considerable impact they have made on our understanding of the disaster. Showcasing a treasure trove of never-before-seen images captured inside previously unreachable areas of the wreck, is a dazzling visual chronicle of Cameron's expeditions that will enthrall experts and casual readers alike. Also featuring Cameron's exclusive dive journal and previously unpublished visual elements, including dive maps and personal photographs, this book is an emotional and evocative examination of the wreck from one of the most exciting figures in both filmmaking and exploration. Bolstered by contributors from three of the world's foremost Titanic experts, Don Lynch, Ken Marschall, and Parks Stephenson, Exploring the Deep is the definitive book on Cameron's expeditions and the last word on a historical event that continues to shock and beguile.

Introduces medieval knights and the world in which they lived, including their training, their mounts, heraldry, their arms and gear, tournaments, and warfare, and offers paper models of knights on foot and mounted, and a knight's helmet.

A History Perspectives Book

The Sinking of the Titanic

"Time is no more for the fifteen hundred souls who perished with them; but Honour and Glory, by strange ways and unlooked-for events, have come into their own. It was not Time, nor the creatures and things of Time, that received their final crown there; but things that have nothing to do with Time, qualities that, in their power of rising beyond all human limitations, we must needs call divine."
“*To say that all the men who died on the Titanic were heroes would be as absurd as to say that all who were saved were cowards. There are heroes among both groups and cowards among both groups, as there must be among any large number of men.*”
In such moments all artificial bonds are useless. It is what men are in themselves that determines their conduct, and discipline and conduct like this are proofs, not of the superiority of one race over another, but that in the core of human nature itself there is an abiding sweetness and soundness that fear cannot embitter nor death corrupt."
The story of the sinking of the Titanic based on first hand accounts collected in the days and weeks following the disaster. The story of the Titanic is now well known, but in the months following the disaster wild speculation was rife. On Thursday 22 May 1912, a mere 37 days after the sinking, respected London publisher Grant Richards, delivered Filson Young's book to booksellers around the capital. It was the first attempt to plot the demise of the unsinkable ship from a well-respected writer who had already argued in the light of the Oceana sinking, for proper use of the wireless on board ships. Both Filson and Grant knew victims of the sinking and both worked hard to gather first-hand testimony to use in the book. Much of his telling of the story still stands today and his speculations about the feeling of daily life aboard the doomed ship are used in books and films on the subject.

It was called "The Titanic of the South." The luxury steamship sank in 1838 with Savannah's elite on board; through time, their fates were forgotten—until the wreck was found, and now their story is finally being told in this breathtaking novel from the New York Times bestselling author of Becoming Mrs. Lewis. When Savannah history professor Everly Winthrop is asked to guest-curate a new museum collection focusing on artifacts recovered from the steamship Pulaski, she's shocked. The ship sank after a boiler explosion in 1838, and the wreckage was just discovered, 180 years later. Everly can't resist the opportunity to try to solve some of the mysteries and myths surrounding the devastating night of its sinking. Everly's research leads her to the astounding history of a family of eleven who boarded the Pulaski together, and the extraordinary stories of two women from this family: a known survivor, Augusta Longstreet, and her niece, Lilly Forsyth, who was never found, along with her child. These aristocratic women were part of Savannah's society, but when the ship exploded, each was faced with difficult and heartbreaking decisions. This is a moving and powerful exploration of what women will do to endure in the face of tragedy, the role fate plays, and the myriad ways we survive the surviving.
