

## **Extrait Cei 60079 29 1 2 F**

*Are we all at the mercy of our brain chemistry? Do you think that the amygdala and the hippocampus are fantastical sea monsters? What can an MRI scan tell us? Could you explain to dinner-party guests why we don't giggle when we tickle ourselves? 30-Second Brain is here to fill your mind with the science of exactly what's happening inside your head. Using no more than two pages, 300 words and an illustration, this is the quickest way to understand the wiring and function of the most complex and intricate mechanism in the human body. Discover how the networks of 90 billion nerve cells work together to produce perception, action, cognition and emotion. Explore how your brain defines your personality, and what it gets up to while you are asleep. Illustrated with mind-bending graphics and supported by biographies of pioneers in the field of neuroscience, it's the book to get your grey matter thinking about your grey matter.*

*After a terrible virus ravages the planet, Carly Daniels, one of the few survivors, hides in her apartment in Juneau trying to survive the best she can with only occasional forays to gather food. With her is Sam, a wolf puppy she found starving on the streets. He becomes her companion and a reason to continue when giving up sometimes seems like the more attractive option. Still dazed with shock and grief, she hopes for the world to go back to normal soon. She is discovered by Justin, an ex-soldier who is intent on making his way to Florida before the winter sets in. Justin coaxes her out of her hiding place and convinces her to join him on his journey, because a warmer climate will be their best chance against the extremes of Mother Nature. Together, they begin a perilous journey through a nation laid to waste by the disaster. Challenges abound along the way. The weather, injury, and shortage of supplies all help to slow them down. In time, they discover that they aren't the only survivors. Some are friendly but some have had their minds destroyed by the high fever. Then there are those who simply take what they want, leaving Carly and Justin with no choice but to defend what is theirs. But their journey is not without joy and love. Together, they face every struggle, including an unplanned pregnancy. Despite the perils of bringing a child into a world of chaos, their baby is a new beginning for themselves and a symbol of hope for the other survivors they find along the way. This is the story of their journey to find a place to begin a new life, and a home in each other. ~~~~~Praise for The End of All Things: Not only does Lissa Bryan tell a convincing end of the world as we know it story, but also a wonderfully emotional romance -- Sandra from My Fiction Nook Yes, an end of the world romance TOTALLY works -- Sandi Layne I love, love, love this book. Have reread it 3 times. It's a love story, survival story and action adventure all in one. -- Karen Jenkins The End of All Things was a lovely surprise. I'm a fan of dystopia and post-apocalyptic novels, but Lissa Bryan happened to do something different. She brought love to the forefront, weaving relationships and romance with an end-of-the-world-as-we-know-it into an overall theme of the things taken for granted. -- Raina at The LUV'NV blog But this isn't just a story of two people who find love in the unlikeliest people and places. This story is also about survival and the difficult decisions people have to make to ensure it. -- Amy, Goodreads The End of All Things is more about hope and second chances, and I*

*very much enjoyed the tale .... highly recommended for all fans of apocalyptic fiction. It's a well-written book with excellent pace, plot, and best, it has real soul.-- Jade Kerrion, Goodreads*  
*I am not usually fond of The End of the World As We Know It books, but this book was so much more than a post apocalypse story. It contained adventure, mystery, sadness and a truly sweet romance. --Pamela, Goodreads*

*Emmanuel's Book*

*In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones).*

Mordin On Time enables the reader to construct their own speed ratings wherever they live. Here is the revealing underground classic, a work that stands beside the "Seth" books as a delightful and invaluable guide to our inner spirit and our outer world. Emmanuel speaks to us through Pat Rodegast and shares his wisdom and insights on all aspects of life. Beautifully written and illustrated, Emmanuel's Book I is to be treasured, enjoyed and passed on to a friend.

Emmanuel says: "The gifts I wish to give you are my deepest love, the safety of truth, the wisdom of the universe and the reality of God . . . . The issue of whether there is a Greater Reality or not, for me at least, has been settled. I know that there is. So I will speak to you from the knowing that I possess." Ram Dass, in the introduction, says: "Being with Emmanuel one comes to appreciate the vast evolutionary context in which our lives are being lived . . . . And at each moment we are at just the right place in the journey. As Emmanuel points out, 'Who you are is a necessary step to being who you will be.'"

Five great poets of the T'ang dynasty (eighth and ninth centuries A.D.) are represented in this collection: Wang Wei, Li Po, Tu Fu, Li Ho, and Li Shang-Yin. Each poet is introduced by the translator and represented by a selection that spans the poet's development and career. These constitute some of the greatest lyric poems ever written.
