Adolescence is a time when youth make decisions, both good and bad, that have consequences for the rest of their lives. Some of these decisions put them at risk of lifelong health problems, injury, or death. The Institute of Medicine held three public workshops between 2008 and 2009 to provide a venue for researchers, health care providers, and community leaders to discuss strategies to improve adolescent health.

media, up-and-coming designers and aspiring illustrators alike will learn how to develop and hone their skills in the pages of this inspiring book. Featuring more than 50 tips and techniques for rendering stylish, fully-accessorized "looks" in mediums including: graphite pencil, markers, colored pencils, ink, watercolor, pastels, acrylic, and gouache, this title provides a comprehensive artistic experience within the world of fashion. The book opens with a brief overview on how to use each medium, before moving into an introduction with helpful techniques for achieving correct proportions, and creating hairstyles, textures, and patterns to pair with each finished "look." Next aspiring artists will learn tips for drawing and painting several stylish accessories, such as sunglasses, heels, handbags, and clutch purses. The remaining sections feature curated looks with corresponding step-by-step instruction; a collection of themed style personas ranging from couture to tennis wear; followed by seasonal ensembles coordinating with the fashion calendar—whether heeled, knee-high boots and quilted leather gloves in winter, or patterned espadrilles and a silky head-wrap scarf in spring. Finally, aspiring designers will find inspiration for mixing media to create a unique, edgier look, with examples including colored pencils with markers, and watercolors with pastel. Perfectly on trend from start to finish, Fashion Design Lookbook is sure to delight and inspire any style-savvy artist!

Discover knitting techniques that allow you to adapt vintage patterns into the perfect fit for modern-day style! Vintage Design Workshop is the guide that retro-loving knitters have been waiting for-a welcome relief for those who have been frustrated by vintage patterns that come in one size only. Divided into two sections, this essential book first teaches you how to update any vintage pattern to accommodate modern sizes and gives advice on choosing substitutes for yarns that are out of production. The second section demonstrates how to adapt modern patterns to create a vintage silhouette, teaching how to mix and match sleeves, necklines, or collars to the pattern of your choice to achieve a vintage look. The author uses one vintage pattern throughout as the basis for separate tutorials on yarn substitution, sizing and gauge, deciding on alterations, adjusting shaping and length, and adding or altering details. Vintage Design Workshop is a key resource for any knitter who is keen on learning how very simple it is to update or customize patterns yourself.

An interactive coloring book for fashionistas of all ages, My Wonderful World of Fashion is packed with beautiful and sophisticated illustrations specially created by the leading fashion-illustrator Nina Chakrabarti. Is it possible to bring university research and student education into a more connected, more symbiotic relationship? If so, can we develop programmes of study that enable faculty, students and 'real world'

communities to connect in new ways? In this accessible book, Dilly Fung argues that it is not only possible but also potentially transformational to develop new forms of research-based education. Presenting the Connected Curriculum framework already adopted by UCL, she opens windows onto new initiatives related to, for example, research-based education, internationalisation, the

global classroom, interdisciplinarity and public engagement. A Connected Curriculum for Higher Education is, however, not just about developing engaging programmes of study. Drawing on the field of philosophical hermeneutics, Fung argues how the Connected Curriculum framework can help to create spaces for critical dialogue about educational values, both within and across existing research groups, teaching departments and learning communities. Drawing on vignettes of practice from around the world, she argues that developing the synergies between research and education can empower faculty members and students from all backgrounds to contribute to the global common good.

Esquire. Ford Motors. Burton Snowboards. The Obama Administration. While all of these brands are vastly different, they share at least one thing in common: a teeny, little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. Pretty Much Everything is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like Field Notes and the “Things We Love” State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin’s humor and pointed observations on the contemporary design scene, Draplin Design Co. is the complete package for the new generation of designers.

A New York Times Bestseller A Washington Post

Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR “ A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we ’ ve all been doing it wrong for a long, long time. ” —Elizabeth Gilbert, author of *Big Magic* and *Eat Pray Love* No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you ’ re not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren ’ t found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None

of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

#1 NEW YORK TIMES BEST SELLER • At last, a book that shows you how to build—design—a life you can thrive in, at any age or stage. Designers create worlds and solve problems using design thinking. Look around your office or home—at the tablet or smartphone you may be holding or the chair you are sitting in. Everything in our lives was designed by someone. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the possibility of surprise.
