After a stormy night, a farmer, searching for his lost calf, finds a baby eagle that has been blown out of its nest. He takes it home and raises it with his chickens. When a friend comes to visit one day, he tells the farmer that an eagle should be flying high in the sky, not staying on the ground. "But this eagle walks like a chicken, eats like a chicken, even thinks like a chicken," the farmer replies. Twice, the farmer's friend tries to get the eagle to fly, but it sees the chickens on the ground and drops down each time. At last the friend, followed by the farmer, carries the young eagle back into the mountains and places the great bird on a rocky ledge, just before sunrise. As the air is filled with golden light and the sun appears, the friend cries, "Fly, Eagle, fly!" and the eagle raises its wings and soars upward, out of sight. This simply told yet dramatic story from Africa will delight children everywhere and encourage them to "lift off and soar," as Archbishop Tutu puts it in his foreword. In lovely, expressive paintings of great beauty,

sparked with touches of humor, Niki Daly, an internationally known artist, catches the essence of this powerful tale.

Test-based accountability systems that attach high stakes to standardized test results have raised a number of issues on educational assessment and accountability. Do these high-stakes tests measure student achievement accurately? How can policymakers and educators attach the right consequences to the results of these tests? And what kinds of tradeoffs do these testing policies introduce? This book responds to the growing emphasis on high-stakes testing and offers recommendations for more-effective test-based accountability systems.
