The FE exam, the first in the two-part engineering licensing process, is taken typically by upper-level students or recent graduates in April or October. This eight-hour exam is closed-book except for a handout provided in the examination room. The exam is divided into morning and afternoon sessions. The morning exam, with 120 multiple-choice problems, is the same for everyone. In the afternoon, examinees must choose to take a discipline-specific (DS) or a general exam, each with 60 multiple-choice problems.The FE Review Manual and the Engineer-in-Training Reference Manual are the core books used to prepare for the morning and general afternoon exams.This is the most effective, up-to-date, all-in-one review your engineering customers can buy for the general Fundamentals of Engineering (FE) exam. Plus, the FE Review Manual carries a money-back guarantee: Pass the test or get your money back from the publisher. The book is an ideal refresher for students, recent graduates, or engineers who have limited time to study.The FE Review Manual features: -- Full review of topics on the general FE/EIT exam -- More than 1,150 problems with solutions -- A complete practice exam with solutions -- Diagnostic exams by topic -- so engineers can test their readiness and understanding of each topic before they begin to study

Aversive behaviors have greater influence on social interactions than is generally acknowledged, determining personal satisfaction, interpersonal attraction, choice of partners, and the course of relationships. What motivates aversive behaviors? To what extent do they obtain desired outcomes? In what ways are they unnecessary and destructive? How do other people respond, emotionally and behaviorally? These are just a few of the many interesting questions addressed by the 16 respected researchers who contribute to Aversive Interpersonal Behaviors. Nine chapters give this heretofore neglected subject the attention it is due, probing a dark side of interpersonal relationships to understand both its destructive and adaptive nature.
