*Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles*

*50 years of The Italian Job*

*Marketing in Bolivia*

*The Self Preservation Society*

***The very essence of meditation is finding peace within the chaos that enshrouds us all in our daily lives, and if we can just get ourselves to look at that daunting word a little bit differently, we will come to see that we don't need to have that sacred temple or shrine wherein we seek to cast aside our thoughts and enter the blissful state of no mind we so desperately seek to attain. In this book you will learn all about the techniques that you will be able to use most effectively where it comes to performing meditation anywhere and anytime. You will come to see that what you once believed was a task best left to rishis and sages in the mystical Himalayas, is really something you can perform with the utmost ease, several times a day.***

***This year marks the 50th anniversary of the British cult classic movie The Italian Job. This landmark anniversary presents a unique opportunity to celebrate the film with a coffee table book packed full of images, insights and revelations. Loaded with Sixties swagger, and famed for its endlessly quotable dialogue and one of the most impressive car chases in movie history, The Italian Job is the ultimate celebration of 'cool Britannia'. From the opening sequence of Rossano Brazzi gliding through the Alps in an orange Lamborghini Miura, to the high-speed getaway across the city of Turin in three Mini Coopers, The Italian Job is a petrolhead's dream. The Self Preservation Society will detail how all these cars, including the Aston Martin DB4 and E-Type Jaguars were found and ultimately where they are today.***

***Over the last 20 years, author Matthew Field he has interviewed all the key people involved in the 1969 production. Through him, their stories are revealed, often for the first time. Based on more than 50 in-depth interviews with the cast and crew, and lavishly illustrated with hundreds of never-before-seen photographs and production documents, this definitive book will explode some myths, include a few revelations and tell the fascinating full story of this perennially popular movie.***

***With the aid of more than 1,000 detailed illustrations and text aimed at the do-it-yourselfer, this book describes and illustrates: how to renovate bodywork and chassis; how to strip out and replace interiors; how to give new life to mechanical and electrical components; what to look for when buying a Land Rover, and more. Also covers history, specifications, mechanics and modifications. Essential information for every Land Rover owner.***

Naturally aspirated Mopar Wedge big-blocks are quite capable of producing between 600 to 900 horsepower. This book covers how to build Mopar's 383-, 400-, 413-ci, 440-ci engines to these power levels. Discussed is how to select a stock or aftermarket block for the desired performance level. The reciprocating assembly is examined in detail, so you select the right design and material for durability and performance requirements. Cylinder heads and valve train configurations are treatment in this area. Camshafts and lifters are compared and contrasted using hydraulic flat tappet, hydraulic roller and solid flat tappet cams. Also, detailed engine builds at 600, 700, 800, and 900 horsepower levels provide insight and reveal what can be done with real-world component packages.

The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several decades. New powertrain designs, alternative fuels, advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less air pollutants, have more safety features, and will be more engine fuel continue to be the dominant powertrain configuration even through 2030; such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more effective than others?

Traffic Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate Average Fuel Economy (CAFE) and greenhouse gas (GHG) emission standards, this new report from the National Research Council is a technical evaluation of costs, benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance and repair tasks on their own.

It-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and electric vehicles. It-yourself market.
