Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell'autore e la storia collettiva della società di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realtà storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete

each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse."

This important new book exhaustively records the racing history of the Lola T70 and the Can-Am models that followed -- from T160 to T310 -- complete with a superb array of over 600 photographs.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Shelby Cobra Daytona Coupe tells the fascinating history of the Daytona Coupe version of Carroll Shelby's fabled Cobra with special focus on one of the six cars built. The fabulous Daytona Coupe, brutally purposeful in both looks and performance, was created to win the FIA World Sportscar Championship and duly did so in 1965, beating Ferrari in the large-capacity class – the category that really counted as it fired the public's imagination. The specific car covered in

detail in this book, CSX2300, took part in five championship rounds (one in 1964, four in 1965) and played its part in Shelby American's unique team success. Truly one of the 'Great Cars', the Shelby Cobra Daytona Coupe is a most worthy addition to this acclaimed series of books. The expert text is supplemented by 300 period photographs, many previously unpublished, supported by a portfolio of commissioned special photography.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and is directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the

result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

and birds. Of all the African nations, Ethiopia is most prone to misconceptions. The 1985 famine and the cracked barren earth of the Danakil Depression are not images quickly forgotten. But this fully updated guide refocuses the lens to reveal an ancient country that continues to surpass all expectations: from the ancient Judaic cultures of the fertile highlands to the Animist people of the South Omo Valley, from the Afroalpine moorland of the Bale Mountains National Park to the thundering Blue Nile Falls. This book also leads you further off the beaten track, so travellers can see more of this expansive and beautiful land, believed to be the cradle of humankind.

earliest days of racing right up to the present day. The achievements of the cars and drivers are described in detail, along with many original photographs, sourced from the official Fiat archives. In the early days, before the First World War, Fiat was a major contender in Grand Prix racing, and employed many of the leading drivers of the era. Although it withdrew from Grand Prix racing in 1927, Fiat cars were still to be seen participating in high-profile races, such as the Mille Miglia. In these events most Fiat models were sports editions of the highly successful 'Balilla' range. In 1952 the introduction of the sensational 8V coupé resulted in many racing successes in private owners' hands, while the late 1950s saw the introduction of 'Formula Junior' class of racing and Fiat-engined cars were very successful in the early years. In the 1970s, Abarth, then
