sections within this Workbook correspond to each chapter of Financial Statement Analysis, Fourth Edition. Part One (Questions) provides chapter-by-chapter fill-in-the-blank questions, as well as financial statement and computational exercises. They are designed to be thought-provoking and require analysis and synthesis of the concepts covered in the book. The answers to all questions, which can be found in Part Two, are provided in boldfaced italic type in order to facilitate the checking of answers and comprehension of material. By enhancing your understanding of financial statement analysis, you can begin to undertake genuine, goal-oriented analysis and prepare for the practical challenges of contemporary business. This reliable resource will help you achieve such a difficult goal and allow you to make more informed decisions—whether you're reevaluating a company's stock price or determining valuations for a merger or acquisition. Financial Reporting & Analysis (FR&A) by Revsine/Collins/Johnson/Mittelstaedt emphasizes both the process of

financial reporting and the analysis of financial statements. This book employs a true "user" perspective by discussing the contracting and decision implications of accounting and this helps readers understand why accounting choices matter and to whom. Revsine, Collins, Johnson, and Mittelstaedt train their readers to be good financial detectives, able to read, use, and interpret the statements and-most importantly understand how and why managers can utilize the flexibility in GAAP to manipulate the numbers for their own purposes. Significantly, the new edition emphasizes the differences and similarities between GAAP and IFRS, which is a critical component of this course.

stakeholders of the company. It continues to set the standard (over 8 prior editions and hundreds of thousands in unit book sales) in showing students the keys to effective financial statement analysis. It begins with an overview (chapters 1-2), followed by accounting analysis (chapters 3-6) and then financial analysis (chapters 7-11). The book presents a balanced view of analysis, including both equity and credit analysis, and both cash-based and earnings-based valuation models. The book is aimed at accounting and finance classes, and the professional audience as it shows the relevance of financial statement analysis to all business decision makers. The authors:

1. Use numerous and timely "real world" examples and cases
2. Draw heavily on actual excerpts from financial reports and footnotes
3. Focus on analysis and interpretation of financial reports and their footnotes
4. Illustrate debt and equity valuation that uses results of financial statement analysis
5. Have a concise writing style to make the material accessible
