As we begin to contemplate death and to embark on practical planning for life's end, many of us long to leave a legacy beyond a transfer of money and property--one that ensures a sustainable earth for our loved ones, our communities, and generations to come.

But where do we even begin? With the sudden deaths of both of her parents, Mallory McDuff found herself in a similar position. Utterly unprepared both emotionally and practically, she began to research sustainable practices around death and dying, determined to honor their commitment to caring for the earth.
