*Secrets are like pennies. Everybody's got one, even the poorest among us. For generations, the Jensens have raised their families in the small Montana town of Moose Creek, where gossip spreads faster than the wind. Yet some secrets need to be told. When twenty-one-year-old Bea discovers she's pregnant on the heels of her husband losing his job, she's forced to admit she needs help and asks her dad for a place to stay. But past resentments keep her from telling him all that's going on. Mitch Jensen is thrilled to have a full house again, though he's unimpressed with Bea's decisions: dropping out of college, marrying so young--and to an idealistic city kid, of all things. Mitch hopes to convince Bea to return to the path he's always envisioned for her, but she's changed since her mom died. And he refuses to admit how much he's changed, too, especially now that he might be losing his mother as well. Grandma June is good at spinning stories, but there's one she's never told. Now that her mind is starting to fade, her time to tell it is running out. But if she reveals the truth before her memories are gone*

*"Earthworm Gods: Selected Scenes From the End of the World is a collection of short stories set in the world of Earthworm Gods and Earthworm Gods II: Deluge. *A former professor offers film critic Simon the chance of a lifetime—to write a book on one of the greatest long-lost comedians of the silent-film era, Tubby Thackeray. Simon is determined to find out the truth behind the jolly fat man's disappearance from film—and from the world. Tubby's work carries the unmistakable stamp of the macabre. People literally laughed themselves to death during his performances. Soon, wherever Simon goes, laughter—and a clown's wide, threatening*

What is the bond between the human psyche and the living planet that nurtured us, and all of life, into existence? What is the link between our own mental health and the health of the greater biosphere? In this "bold, ambitious, philosophical essay" (Publishers Weekly), historian and cultural critic Roszak explores the relationships between psychology, ecology, and new scientific insights into systems in nature. Drawing on our understanding of the evolutionary, self-organizing universe, Roszak illuminates our rootedness in the greater web of life and explores the relationship between our own sanity and the larger-than-human world. The Voice of the Earth seeks to bridge the centuries-old split between the psychological and the ecological with a paradigm which sees the needs of the planet and the needs*

The “fascinating” #1 international bestseller of a quest across centuries by two intrepid women to reunite the pieces of a powerful, ancient chess set (Los Angeles Times Book Review). A fabulous, bejeweled chess set that belonged to Charlemagne has been buried in a Pyrenees abbey for a thousand years. As the bloody French Revolution rages in Paris, the nuns dig it up and scatter its pieces across the globe because, when united, the set contains a secret power that could topple civilizations. To keep the set from falling into the wrong hands, two novices,

Valentine and Mireille, embark on an adventure that begins in the streets of Paris and leads to Russia, Egypt, Corsica, and into the heart of the Algerian Sahara. Two hundred years later, while on assignment in Algeria, computer expert Catherine Velis finds herself drawn unwillingly into the deadly “Game” still swirling around the legendary chess set—a game that will require her to risk her life and match wits with diabolical forces. This ebook features an illustrated biography of Katherine Neville including rare images from her life and travels. This classic in film theory, presents a systematic study of the techniques of the film medium and of their potential uses for creating formal structures in individual films such as Dovzhenko's *Earth*, Antonioni's *La Notte*, Bresson's *Au Hasard Balthazar*, Renoir's *Nana*, and Godard's *Pierrot le Fou*. The award-winning author of the Hexslinger Series “explores the world of film and horror in a way that will leave you reeling” (Jeff VanderMeer, author of the *Southern Reach* Trilogy). Former film teacher Lois Cairns is struggling to raise her autistic son while freelancing as a critic when, at a screening, she happens upon a sampled piece of silver nitrate silent footage. She

is able to connect it to the early work of Mrs. Iris Dunlopp Whitcomb, the spiritualist and collector of fairy tales who mysteriously disappeared from a train compartment in 1918. Hoping to make her own mark on the film world, Lois embarks on a project to prove that Whitcomb was Canada's first female filmmaker. But her research takes her down a path not of darkness but of light—the blinding and searing light of a fairy tale made flesh, a noontime demon who demands that duty must be paid. As Lois discovers terrifying parallels between her own life and that of Mrs. Whitcomb, she begins to fear not just for herself, but for those closest to her heart. Winner of the Shirley Jackson Award for Best Novel “One of the standout horror novels of 2015 . . . From an author who has already established herself as one of the genre's most original and innovative voices, *Experimental Film* is a remarkable achievement.” —Los Angeles Review of Books “*Experimental Film* represents the next, significant contribution to what is emerging as one of the most interesting and exciting bodies of work currently being produced in the horror field. Every film, Lois Cairns writes, is an experiment. The same might be said of every novel. This one succeeds, wildly.” —Locus “*Experimental Film* is sensational. These are the milestones of the baby boomer generation Theodore Roszak chronicled in his 1969 breakthrough book *The Making of a Counter Culture*. Part of an unprecedented longevity revolution, those boomers form the most educated, most socially conscientious, politically savvy older generation the world has ever seen. And they are preparing for Act Two. *The Making of an Elder Culture* reminds the boomers of the creative role they once played in our society and of the moral and intellectual resources they have to draw upon for radical transformation in their later

years. Seeing the experience of aging as a revolution in consciousness, it predicts an “elder insurgency” where boomers return to take up what they left undone in their youth. Freed from competitive individualism, military-industrial bravado, and the careerist rat race, who better to forge a compassionate economy? Who better positioned not only to demand Social Security and Medicare for themselves, but to champion “Entitlements for Everyone?” Fusing the green, the gray, and the just, Eldertown can be an achievable, truly sustainable future. Part demographic study, part history, part critique, and part appeal, Theodore Roszak’s take on the imminent transformation of our world is as wise as it is inspired—and utterly appealing. “Abrilliant and highly original thesis. I commend Roszak for writing the book.” —Tom Pochari, World Affairs Monthly “Roszak champions the possibility of restoring that lost commitment to the ideals of liberation.” —Tom Hartley

An extraordinary novel about the ubiquitous mysteries of family, memory and music. London, 2010: Icelandic volcanoes have the city in gridlock, banks topple like dominoes and Brandon Kussgarten has been shot dead by gunmen in Donald Duck masks. His death draws his twin brother -- shy, bookish Adam -- into Brandon's underworld of deceit and desire. A miniature kingdom sprouts in a Notting Hill tower-block, LA mansions burn in week-long parties, and in a Baroque hotel suite a record is being made that could redeem its maker even as it destroys him. As Adam begins to fall for his brother's shattered family he finds that to win them for himself he'll have to lose everything that***

Found Footage Horror Films explores the subgenre's stylistic, historical and thematic development. *When the word 'computer' entered the general vocabulary in the 1950s, the most advanced example filled a reasonable sized room. Three decades of rapid technological revolution have resulted in the acceptance of computers in nearly every office, school and home. A corresponding dramatic rise in the status of 'information' has promoted the people who manipulate it from the status of office clerks to information scientists. Despite the wonderful claims for the abilities of the computer and the hallowed tones of 'computerese', Theodore Roszak dares to suggest that perhaps, like the unfortunate emperor, the computer has been overdressed with false claims made by those with something to gain by it - elements in our society that are making some of the most morally questionable uses of computer power. Roszak challenges the reader to ask: "Is our capacity to think creatively being undermined by the very 'information' that is supposed to help us? Is information processing being confused with science or even beginning to replace thought? And are we in danger of blurring the distinction between what machines do when they process information and what minds do when*

*they think?" He explains why humankind's primary beliefs, in equality, justice and in God are not computable; why great scientific theories and fundamental 'master ideas' cannot be developed by computers; and why bad ideas cannot even be refuted by them. Roszak is no contemporary Luddite - this book was written on a word processor - but he is deeply concerned that we have all been sold a misleading and potentially harmful vision of the computerised society.*

*Rahn's lifelong search for the Grail brought him to the attention of the SS leader Himmler, who shared his esoteric interests. Induced by Himmler to become the chief investigator of the occult for the Nazis, Rahn traveled throughout Europe--from Spain to Iceland--in the mid 1930s pursuing leads to the Grail and other mysteries. Lucifer's Court is the travel diary he kept while searching for "the ghosts of the pagans and heretics who were [his] ancestors." It was during this time that Rahn grasped the positive role Lucifer plays in these forbidden religions as the bearer of true illumination, similar to Apollo and other sun gods in pagan worship. This journey was also one of self-discovery for Rahn. He found such a faithful echo of his own innermost beliefs in the lives of the heretics of the past that he eventually called himself a Cathar and nurtured*

**The “wise, wildly funny story” of a self-destructive writer’s lost weekend by a Pulitzer Prize-winning, New York Times-bestselling author (Chicago Tribune). A wildly successful first novel made Grady Tripp a young star, and seven years later he still hasn’t grown up. He’s now a writing professor in Pittsburgh, plummeting through middle age, stuck with an unfinishable manuscript, an estranged wife, a pregnant girlfriend, and a talented but deeply disturbed student named James Leer. During one lost weekend at a writing festival with Leer and debauched editor Terry Crabtree, Tripp must finally confront the wreckage made of his past decisions. Mordant but humane, Wonder Boys features characters as loveably flawed as any in American fiction. This ebook features a biography of the author. Arkady and Boris Strugatsky are widely known as the greatest Russian writers of science fiction, and their 1964 novel Hard to Be a God is considered one of the greatest of their works. It tells the story of Don Rumata, who is sent from Earth to the medieval kingdom of Arkanar with instructions to observe and to influence,**

**but never to directly interfere. Masquerading as an arrogant nobleman, a dueler and a brawler, Don Rumata is never defeated but can never kill. With his doubt and compassion, and his deep love for a local girl named Kira, Rumata wants to save the kingdom from the machinations of Don Reba, the First Minister to the king. But given his orders, what role can he play? Hard to Be a God has inspired a computer role-playing game and two movies, including Aleksei German's long-awaited swan song. Yet until now the only English version (out of print for over thirty years) was based on a German translation, and was full of errors, infelicities, and misunderstandings. This new edition—translated by Olena Bormashenko, whose translation of the authors' Roadside Picnic has received widespread acclaim, and supplemented with a new foreword by Hari Kunzru and an afterword by Boris Strugatsky, both of which supply much-needed context—reintroduces one of the most profound Soviet-era novels to an eager audience.**

Over the next 30 years, they remain friends even as they pursue radically divergent destinies--and harbor secrets that defy rebellion and conformity.**

The instant New York Times bestseller from author, comedian and actor Patton Oswalt, a [heartfelt and hilarious] (USA TODAY) memoir about coming of age as a performer during the late 1990s while obsessively watching classic films at a legendary theater in Los Angeles. [Oswalt has] a set of synapses like a pinball machine and a prose style to match] (The New York Times). Between 1995 and 1999, Patton Oswalt lived with an unshakable addiction. It wasn't drugs, alcohol, or sex: it was film. After moving to Los Angeles, Oswalt became a huge film buff (or as he calls it, a sprocket fiend), absorbing classics, cult hits, and new releases at the

famous New Beverly Cinema. Silver screen celluloid became Patton's life schoolbook, informing his notion of acting, writing, comedy, and relationships. Set in the nascent days of LA's alternative comedy scene, Silver Screen Fiend chronicles Oswalt's journey from fledgling stand-up comedian to self-assured sitcom actor, with the colorful New Beverly collective and a cast of now-notable young comedians supporting him all along the way. "Clever and readable...Oswalt's encyclopedic knowledge and frothing enthusiasm for films (from sleek noir classics, to gory B movies, to cliché-riddled independents, to big empty blockbusters) is relentlessly present, whirring in the background like a projector" (The Boston Globe). More than a memoir, this is "a love song to the silver screen" (Paste Magazine).

In this charming novel, Darrin Doyle paints a captivating portrait of the all-American family—if the all-American family's youngest child ate an entire city in Michigan with a smile, that is. Doyle has a flare for writing about family dysfunction with a twist. With a unique blend of realism and fantasy, *The Girl Who Ate Kalamazoo* is the moving story of the hauntingly beautiful Audrey Mapes, who began her illustrious "career" by downing crayons by the carton only to graduate to eating an entire city one bite at a time. With vivid, acerbic wit, Doyle details the life of the world's most gifted "eatist" through the eyes of Audrey's sister, McKenna. Through her eyes, we see the real tragedy of the Mapes story is not the destruction of a city, but rather, the quiet disintegration of a family who just didn't quite know how to love. Nobody could have imagined that information technology, the towering colossus that dominates our world, would meet its match in an innocent, six-year-old girl named Daphne. Yet the

vengeful horror that this psychically gifted child lures out of the secret recesses of the world's computers rapidly grows into a global calamity. As the crisis deepens, powers darker and more mysterious than modern science can understand must be invoked in order to defend a threatened humanity. In *Bugs*, Theodore Roszak offers a tour de force exercise in science fiction. He ingeniously combines the divergent worlds of high tech, the occult, and feminist psychology. With admirable ambiguity, he leaves us to wonder if Daphne's "bugs" -- these arcane forces that stubbornly resist the advance of technology -- are mankind's enemies or allies.

From the golden age of art movies and underground cinema to X-rated porn, splatter films, and midnight movies, this breathtaking thriller is a tour de force of cinematic fact and fantasy, full of metaphysical mysteries that will haunt the dreams of every moviegoer. Jonathan Gates could not have anticipated that his student studies would lead him to uncover the secret history of the movies—a tale of intrigue, deception, and death that stretches back to the 14th century. But he succumbs to what will be a lifelong obsession with the mysterious Max Castle, a nearly forgotten genius of the silent screen who later became the greatest director of horror films, only to vanish in the 1940s, at the height of his talent. Now, 20 years later, as Jonathan seeks the truth behind Castle's disappearance, the innocent entertainments of his youth—the sexy sirens, the screwball comedies, the high romance—take on a sinister appearance. His tortured quest takes him from Hollywood's Poverty Row into the shadowy lore of ancient religious heresies. He encounters a cast of exotic characters, including Orson Welles and John Huston, who teach him that there's more to film than meets the eye, and journeys through the dark side of nostalgia,

where the Three Stooges and Shirley Temple join company with an alien god whose purposes are anything but entertainment.
